Apparently a bad address was used. Its being stated that the delay has significantly prejudiced First Mercury Ins. Co's ability to respond. They have since responded, but there is argument SQI has not complied with 48.30.015, et seq. and is requesting the OIC to call the notice insufficient under IFCA Statute and suggests SQI may not file suit under such. *This letter was forwarded to OIC Legal Affairs for review on 6/25/14. 6/30/2014 Related to IFCA Tracker ID 454.14 6/30/2014 - Candice Myrum, with OIC Legal Affairs drafted and sent a letter to Brian Buron with Lether & Associates, representing First Mercury Ins. In Olivine Corporation v. United Capital Insurance, 147 Wn.2d 148, 162-63 (2002), the court held that complicance with this notice requirement is "a condition precedent to effective cancellation by the insurer" and that the insurer's "failure to comply with these notice requirements left the policy in effect." RiverSource unlawfully refused to pay benefit proceeds to the above complainants based on nonpayment of premium despite lack of required notice to the named insured.
