Summary of Innovative Plans Features For All Plans Combined by District — Table 2

Calendar Year 2015 — Reporting Districts Only

Innovation	Number of Districts Using
Communicate to employees that healthy behaviors can reduce health benefit costs.	271
Encourage our employees to know their *numbers* (cholesterol, body mass index, blood pressure, blood glucose levels)	265
Include case management and utilization management programs.	257
Know the health risks of our population of employees.	170
Offer a communication plan to target chronic conditions (e.g. diabetes and depression).	269
Offer a focused disease management program.	229
Offer a high-risk maternity program or maternity education program.	256
Offer a Nurse Line service.	270
Offer a website to employees which includes health tools and resources.	290
Offer a wellness program.	269
Offer centers of excellence for high-cost services such as transplants.	253
Offer financial incentives for employees to lose weight.	26
Offer financial incentives for employees to stop smoking.	32
Offer incentives to encourage our population to improve their health.	80
Offer our employees an opportunity to complete biometric screenings.	90
Offer our employees an opportunity to complete health risk assessments.	273
Provide wellness coaching to our employees.	122
Send out wellness newsletters and/or post wellness messages on site.	278
Our district has a benefits strategy that includes improving the health of our employees.	149
Our district has specific health plan goals for our employees.	70
Our health plan administrator/insurer or other third party works with us to find ways to reduce our health plan costs	283
Our health plan administrator/insurer provides us information on health care cost and trends	284
To reduce unnecessary health services at least one of our health plans includes a copay for emergency room services	294
To reduce unnecessary health services at least one of our health plans includes a copay for inpatient hospital admissions	292
To reduce unnecessary health services our pharmacy program requires higher copays for brand-name drugs where a generic drug is available	293
We contract with an independent third party to provide wellness services to our employees	49
We contract with our health plan to provide wellness services to our employees.	252
We have a benefits budget that includes a wellness promotion component.	44
We offer a *consumer driven* health plan with a Health Savings Account.	204
We offer a plan design with a network of providers (hospitals and professionals) and higher benefits for use of in-network providers	293
We participate in a health plan coalition.	219
We provide incentives for employees to use our wellness programs.	74
We receive health plan performance data from our health plan administrator/insurer.	243

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
Carrier 01	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's "Lean" workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Carrier 01	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost savings measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98%+ of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area.

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the QHDHP or the EasyChoice Plan.

Carrier	Category	Efforts and Achievements
		The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Carrier 01	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve satisfaction. C. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes.

Carrier	Category	Efforts and Achievements
		G. Work with enrollees or their provider to address escalated or complex issues. H. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Carrier 01	**District Management of Health Plans**	A. Premera passed on lower increases to dependents than to employee only tiers four out of the past five years for all school district business. B. Premera added lower cost options, such as the QHDHP, that have lowered premiums for all school district plans. C. Premera provides a website with access to information about the employee's benefits – this includes a cost estimator which helps enrollees determine which providers require less out of pocket costs. The website provides educational information about wellness programs and their plan benefits. D. Premera does independent surveys to measure enrollee satisfaction and then puts a focus on making changes to improve satisfaction. E. Premera has "Ulysses Learning™" which leads to first call resolution and a higher level of overall satisfaction from enrollees. F. Premera's "Lean" workshops include Customer Service, Claims, Billing, and Sales and Marketing processes which we continue to focus on in order to improve the enrollee experience. In addition, Premera has: A. Patient-centered medical home program that has enabled enrollees to select a clinic at which they received their non-emergent health care without having a copayment. B. BlueCard national network of providers and international network via BlueCard Worldwide

		C. Integrated Utilization Management that works with members and providers across the care continuum, focused disease management program for lung and breast cancer as well as high-risk pregnancy.
		WEA Select Plans: A. Provide year-round service for enrollees and districts is available for those who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits, the plan choices, network status, special enrollment rights, etc. Premera works to resolve claim issues for the enrollees as well. This provides additional support to the district as well as direct support to the employees. B. Offers a lower cost option (EasyChoice) that has a lower premium. C. WEA has their own claim review process, separately, that allows enrollees to go before a board of their peers and have the claim upheld, denied, or have an administrative allowance made. The input from the enrollees has assisted the WEA in developing benefit revisions to their plans. D. Approved Leave of Absence coverage for up to 18-months E. Coverage during a Labor Dispute F. Coverage for those affected by a Reduction in Force G. Semi-annual newsletters are sent to enrollees to educate them on their plans and provide access to information to help support decision making and healthier lifestyle decisions. H. Meetings to assist payroll and HR with plan information, updates, education, etc.

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
Carrier 01	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, a QHDHP is available.
Carrier 02	**Administrative Cost Reduction**	In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best service to our customers. On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington state.
Carrier 02	**Cost Savings**	1. We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls.

Carrier	Category	Efforts and Achievements
		2. We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs.
		3. In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits.
		4. Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future.
		5. Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this performance is fewer readmissions and lower total cost of care.

Carrier	Category	Efforts and Achievements
		6. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities.
		7. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also receive routine reports of members with high utilization of Emergency Department Services. Additionally, we work with one of our purchasers around ED utilization for their enrollees. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.) The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions, assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver. We have also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g. depression,

Carrier	Category	Efforts and Achievements
		anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns.
		In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas.
		The outpatient CM staff work on improving outcomes for members by working with them on improving their health and their self-management skills; navigating the health care system; evaluating and working through barriers to meeting goals; and accessing routine care. All this work is done with the understanding of the patient's benefits and specific needs. Our efforts in identifying patients for case management are focused on those individuals with chronic conditions, including diabetes and congestive heart failure, recent hospitalizations, and new diagnoses of serious conditions. By working with these higher risk, higher need patients to improve their outcomes, and assisting them in accessing care more effectively, we are also avoiding additional costs.
		We have one Care Management RN who is dedicated to pediatric and perinatal care. She provides support to families of premature infants and seriously ill infants and children in inpatient and outpatient settings to optimize their outcomes and manage costs. Her responsibilities include utilization management activities associated with facility-based care.

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		The efforts of the EPRO physicians and staff also save costs by avoiding unnecessary hospital admissions and providing alternatives, including home health and same or next day appointments with medical and behavioral health providers. We are also supporting the avoidance of unnecessary testing when we can provide results of recent labs, ECG's, and imaging procedures. The social work clinicians in EPRO are trained to complete assessments of patients with chemical dependency concerns to determine if admission or outpatient care is most appropriate, often avoiding an unnecessary admission and coordinating prompt access to outpatient care.
		The CNS program also contributes to the improved outcomes and saving costs for patients and the health plan by offering 24/7 access to advice from registered nurses. In addition to the RN staff, CNS is also staffed with a Physician's Assistant and physician. This allows for RN consultation with the provider and direct treatment of patients by the providers. The CNS MD/PA is also able to assist patients with abnormal lab results after hours to prevent Emergency Department and Urgent Care visits. The CNS program also includes standing physician orders for the RN's to use in the treatment of some common diagnoses. This allows members to begin treatment earlier, avoid additional appointments and costs, and avoid costs for the health plan.
		We have recently started a pilot project to improve the pre-operative planning of patients undergoing elective joint replacement procedures. This project is focused on patients from a contracted orthopedic practice and includes a phone call to patients several days prior to their admission to review the expectations and plans for post-discharge care. We have consistently identified the perception of many members and providers that not having caregiver support following discharge is reason to admit to a skilled nursing facility, which is not a legitimate reason for SNF care according to CMS. By working with the patients prior to admission to help them problem-solve any anticipated issues, plan for help at home, and expect discharge to home, we believe we can improve patient outcomes by avoiding more exposure to infections in facility-based care and also avoid the associated costs.

Carrier 02	**Customer Service**	Group Health's Customer Service Centers in Seattle and Spokane serve as a vital source of quick, accurate information for members, staff, providers, and brokers. They support inquiries for all lines of business and provide support for our health plans and clinics, as well as the self-service tools on our website and mobile app. In addition to taking over 4,000 calls each day, representatives also handle e-mails, written correspondence, and walk-in inquiries. Customer Service Representatives are prepared to answer all manners of health care inquiries, including questions about health plan benefits, enrollment, billing, and accessing care. While striving to resolve questions or concerns on the first contact, they also work with partner departments, care teams, and individuals throughout Group Health to ensure every issue is handled thoroughly and professionally. Whether welcoming a new member, answering a question, or solving a problem for someone in need of help, Customer Service makes it a priority to embody Group Health's mission and values on every contact. Customer Serive Centers hours of operation: Monday through Friday 8:00 a.m. till 5:00 p.m. Closed weekends. Members can conviently access customer service 24/7 via our member website, MyGroupHealth, at www.ghc.org, or our mobile app, which is available for download on the iPhone and Android Smartphones. It includes many features available on our MyGroupHealth for Members Website, and has added features, such as Symptom Checker and clinic locations and wait times. From the website, members can use online forms to order a new ID card, file a claim, update their personal information, and provide feedback about Group Health.

		Using MyGroupHealth, members receiving care in Group Health medical centers have online access to a shared electronic health record (EHR) consisting of their entire medical record (except chart notes). Patients are able to communicate directly with their primary care team – at their convenience – which improves service and builds a stronger provider-patient relationship. Members can view their online records any time. Features available to them include: • Access to lab/test/radiology results, after-visit summaries, allergy and immunization records, medication histories, blood pressure, weight, and current health conditions for health care services provided at owned and operated medical centers • Secure messaging with their primary care team if at an owned and operated medical center • View Coverage Agreements and Summary of Benefits • Access Explanation of Benefits statements with payment information on claims • Check benefits usage and remaining coverage • Order prescriptions and have them delivered to their homes
Carrier 02	**District Management of Health Plans**	Group Health's online employer portal, MyGroupHealth for Employers, offers secure, convenient access to the transactional tools employers need to effectively manage their health care benefit programs. You can login to enroll new subscribers and their dependents online, and make changes for your existing employees — adding or terminating dependents, or terminating the entire subscriber record. You can order ID cards with a few simple clicks. The site also features content that helps employers understand

Carrier	Category	Efforts and Achievements
		the value of Group Health's business solutions for health care.
Carrier 02	**Part-Time Employee Coverage Protection**	We allow access for part-time employees working a minimum of 17.5 hours per week.
Carrier 03	**Administrative Cost Reduction**	Regence has continued to increase efficiency and reduce administrative cost and complexity for providers. Provider offices can access member information through enhancements in our online tools including eligibility, claims status and benefits. Our Provider Web portal includes all administrative, reimbursement and medical policies in a searchable format with documentation. The Web portal also includes all pre-authorization information, formularies, manuals, forms, and critical, timely information. Through our relationship with Availity, we have supplied providers a no cost way to submit claims electronically to Regence, as well as a number of other payers. These tools have reduced administrative complexity and administrative cost for providers.
Carrier 03	**Cost Savings**	Regence Healthcare Informatics evaluates the financial impact of our full suite of medical management programs on an annual basis and produces a per member per month savings metric to estimate their group's savings from medical management interventions. There are four cost savings "levers" evaluated: 1.) Healthcare Management - savings are heavily weighted toward utilization management activities; 2.) Claims Review - includes all the behind-the-scenes activities such as post-service review, fraud and abuse activities, and other-party liability activities; 3.) Pharmacy - includes utilization management and specialty programs like the Site of Care Program for specialty drug infusion; 4.) Provider - includes all cost savings related to Accountable Care contracting. The evaluation is performed by Regence's Actuarial team and is balanced back to claims.
Carrier 03	**Customer Service**	Our 2015 Customer Experience initiatives were focused on enhancing how we interact and engage with our customers. We are establishing a partnership to deliver a highly engaged member experience. Through the Partners in Care program, Regence looks to provide a comprehensive experience that can address members' clinical and administrative needs. Regence Customer Service focuses on First Contact Resolution to measure the quality of the experience we provide. Throughout 2015, we have utilized Voice of the Customer data to determine opportunities for improvement and coaching. Member/consumer experience improvements

Carrier	Category	Efforts and Achievements
		will focus on delivering new digital experience along with advancing our data enabled personalization through an omni-channel, customer-360 approach.
Carrier 03	**District Management of Health Plans**	Regence offers an array of servives and tools to help Districts manage benefits. We start by assigning each District a Senior Account Executive. This person is the strategic liasion between the District, it's broker, and Regence. This individual is responsible to work with the District to help manage benefits, look at plan design options, discuss cost containment services, and to focus on member engagement while directing the appropriate resources from a service perspective. In addition, we offer Real-time access to consumer decision-support resources (ie: myregence.com- as described below) to help enrollees understand and direct their health care needs.
Carrier 03	**Part-Time Employee Coverage Protection**	When a full time employee's hours are decreased, we will work with the member to review other plan options that allow the individual to remain covered on a medical program. We also offer lower cost plan options to help part time employees.
Carrier 04	**Administrative Cost Reduction**	The principles of the Patient Centered Medical Home (PCMH) are fundamental to the way we've been practicing medicine and delivering care for over 65 years. The Patient Centered Medical Home (PCMH) at Kaiser Permanente Northwest (KPNW) is our model for proactively delivering patient-centered care and achieving dramatic improvements in quality, member satisfaction, clinician and staff morale, and affordability. Our PCMH is a primary care team-based practice centered on the patient as an active and informed participant in his or her own care. With a proactive approach to prevention and by eliminating delays in needed care, we believe we can make a big difference in the health of individuals and the entire population. Kaiser Permanente has developed advanced technology and processes to support the PCMH model: • Personal physician – each patient has an ongoing relationship with a personal physician trained to provide first contact,

Carrier	Category	Efforts and Achievements
		continuous, and comprehensive care. Because they are uniformly recruited, paid, and trained to practice medicine in ways consistent with the PCMH model, Northwest Permanente, PC, physicians have extensive personal experience and the support of their colleagues in providing a patient-centered approach to care. • Physician-directed medical practice – the personal physician leads a team of care providers at the practice level who collectively take responsibility for the ongoing care of patients. Kaiser Permanente has the advantage of having one medical record that follows employees wherever they receive care within our system. This helps their care teams stay informed about their medical history, evaluations, tests, and overall treatment plan. • Whole-person orientation – the personal physician is responsible for coordinating care for all of the patient's health needs at all stages of life – preventive services, acute care, chronic care, and end-of-life care. Kaiser Permanente's electronic medical record tracks biometric data and other risk factors (such as lifetime exposure to radiation from medical scans) so that his or her care team can monitor and respond to incremental changes in health status. • Care is coordinated and integrated across all elements of the complex health care system and the patient's community. Thanks to electronic evidence-based treatment guidelines, Northwest Permanente physicians can order many of the tests a patient will need prior to his or her first visit with a specialist, consulting physician, or other caregiver. • Quality and safety are hallmarks of the medical home. In a comparison of all health plans in the markets we serve, Aon Hewitt Associates reported that we consistently outperform other plans in clinical quality. We report regularly to the Quality Corporation. Independent organizations like NCQA and Quality Corporation provide the most objective assessment of a care delivery system and health plan performance; and are often more reliable than self-reporting system improvements. • Enhanced access to care is available through systems such as open scheduling, expanded hours, and new options for communication. At Kaiser Permanente, patients not only communicate with their care team through secure email, but they can also see openings in their doctor's schedules and make appointments online, review lab results, refill prescriptions and review prior visit information and visit summaries. We have implemented a process in our member services call center to ensure that patients who ask for a same-day appointment can reliably get such appointments scheduled with one phone call.

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		• Payment appropriately recognizes the added value provided to patients who have patient-centered medical home. Northwest Permanente physicians have a pay-for-performance payment model that is heavily weighted towards quality and service measures as compared to personal financial results that currently take place in other medical groups. The PCMH serves to either directly provide, or coordinate, all care needs (preventive, acute, chronic) for patients who are part of that medical home. The patient's primary care needs are provided directly by his or her PCMH team. Almost all care is provided within the KPNW Medical Neighborhood (including specialty care, hospital, and continuing care). The PCMH also coordinates and supervises all care provided to patients outside of KPNW. Patient Centered Medical Home Recognition The National Committee for Quality Assurance (NCQA) awarded all 17 of our primary care medical offices with Level III Patient Centered Medical Home (PCMH) Recognition - the highest level of recognition possible. Each medical office was reviewed and scored independently against 168 specific items across a set of 9 standard categories. All medical offices received 100% of points sought. Level III PCMH recognition is granted through July of 2016 . As a nonprofit organization, we reinvest our revenues to support programs that benefit individuals and communities across our service areas. We: • increased access to healthy food and safe walkways

Carrier	Category	Efforts and Achievements
		• promoted healthy lifestyles in underserved communities • supported community clinics • conducted research • trained health care workers • expanded access to health care • subsidized members and patients who needed help covering medically necessary care. Supporting Affordability through Investments at KPNW • Westside Medical Center — Opening new medical centers allows Kaiser Permanente to provide expanded services, meet regulatory requirements, and build with an eye to saving energy and resources. The Northwest Region's Westside Medical Center opened in August 2013, in Portland, Oregon. The facility became Kaiser Permanente's first hospital to earn Leadership in Energy and Environmental Design (LEED) gold certification. LEED's calls for such things as pedestrian friendliness, sustainable site development, efficient water and energy use, indoor environmental quality, and chemical avoidance make it one of the most influential forces in building design in the world. Kaiser Permanente used the occasion of Westside's opening to announce our commitment to pursuing the same environmentally rigorous standards on construction of all new hospitals and medical offices going forward.

Carrier	Category	Efforts and Achievements
		People didn't have to wait long to see that commitment in action. In December, the Northwest's Gateway Medical Offices opened in Portland in what was formerly a vacant Circuit City building. The foreclosed big-box store was completely redesigned to become a light-filled LEED gold certified medical office with a bright, colorful interior and outdoor patio. The conversion of the building is sparking additional neighborhood improvements in the urban East Portland community.
		• Northwest Region Improves Quality, Saves Money — Medical and dental integration allows caregivers to prevent and address significant dental conditions before they become serious and costly medical conditions. Being an integrated care system is at the core of Kaiser Permanente's ability to deliver high-quality, affordable health care. In the Northwest Region, one team recognized how they could take the integrated approach to a whole new level.
		The Medical/Dental Integration Project is a collaborative effort between four entities: Northwest Permanente, Permanente Dental Associates, Kaiser Foundation Health Plan medical plan, and Kaiser Foundation Health Plan dental plan. The Medical/Dental Integration Project involved three phases: The first phase first internalized about 250 dental surgery cases for patients who have Kaiser Permanente medical benefits but not Kaiser Permanente dental benefits, and improved coordination of care for another 175 patients who have both Kaiser Permanente medical and dental benefits.
		In addition to improving quality and the care experience, the cost savings are significant: The Northwest Region no longer spends up to $10,000 per case in operating suite and anesthesia charges for patients who were previously treated in external settings.
		Phase Two provided physicians and patients with seamless access to dental services for acute conditions and dental clearances of

Carrier	Category	Efforts and Achievements
		all medically necessary dental work prior to certain medical treatments. This work will integrate care so that patients' oral health is satisfactory before they undergo major procedures provided by Kaiser Permanente physicians. Phase Three occurred when Permanente Dental Associates and Northwest Permanente partnered for the first time to recruit and hire an oral and maxillofacial surgeon for complex oral surgery, ensuring that patients with severe medical head and neck conditions receive the right care at the right time. With this integrated program in place, the Northwest Region will now have the ability to address significant dental conditions before they become acute systemic medical conditions
Carrier 04	**Cost Savings**	The primary ways Kaiser Permanente controls costs are by engaging members to participate in their own health, and by reducing waste—helping healthy members stay healthy and motivating those with unhealthy habits to make positive lifestyle changes, eliminating unnecessary procedures, decreasing unwarranted variation in care and reducing paper costs. Unlike traditional health care providers, we offer a fundamentally different approach to care. Our health plan, doctors, hospitals, medical offices, pharmacies, labs, and more are all part of one organization. Because our doctors are salaried and measured according to how well they raise the bar for member health, our model frees doctors to focus on patients—not the itemization of services or the collection of claims. Their personalized, dedicated approach to member health is supercharged with the incredible tools and information within Kaiser Permanente HealthConnect®. This award-winning system is at the fingertips of every caregiver in every one of our facilities. Our investment in our industry-leading electronic health record (EHR) system is not only our most effective member engagement tool; it also helps reduce overutilization and maximizes information sharing. All Kaiser Permanente providers can securely access this system and view a member's previous test results and other physician notations, which help reduce duplication of lab tests, unnecessary medical visits, redundant utilization of services, and pharmacy errors.

Carrier	Category	Efforts and Achievements
		Because we are set up differently, we are aligned to better deliver what matters to you: improved health, better clinical outcomes, more value, and consistent service. We are caregivers, hospitals, and health plans working in concert to set the benchmark for quality, affordability, and service. It allows us to deliver some powerful benefits: • consistent service and consistent value across the country • more stability and better cost management • better health for employees so your clients' businesses can thrive • the right care at the right time for healthier, more productive employees Strategies we use to contain costs include: Cost effective disease management Members with chronic conditions drive 85 percent of health care costs, so it's essential that these individuals learn ways to manage their conditions. We have disease management programs, which can help members with chronic conditions. Some key features of the program are: • We intervene with members early, even before they have symptoms or have been diagnosed with a disease, using member health status, risk factors, and family history to assess their risk status for a chronic condition. This means conditions are well controlled or prevented before they reach an advanced stage that requires usage of more services.

Carrier	Category	Efforts and Achievements
		• We don't use dollar triggers to initiate case management. We use the more direct and effective method of automatically enrolling members in disease management registries based on health status and member information, rather than anecdotal information. • Our program is seamlessly integrated into our member-centered, "whole person" continuum of care — it's not a separate carve-out program through a vendor that costs employer groups extra money. Online health care management tools My Health Manager, available at kp.org, provides member-facing online tools that uniquely empower members to manage their family's health care through secure online access. It's easy and convenient for members to email their doctor's office, make routine appointments, order prescription refills, view lab results, and much more. Often times saving a phone call or an unnecessary trip to the doctor's office: • Members who used the free secure email service were 7 to 10 percent less likely to schedule an office visit. • Members using Kaiser Permanente HealthConnect®, our industry-leading electronic health record system, called their physician 14 percent less than those not using Kaiser Permanente HealthConnect®. These online services aren't available through other health plans. Broad consumer engagement and preventive care

		To encourage members to take a more proactive role in their own health care, we provide a full range of health and wellness resources that include: • Health education classes and online self-care programs to help members learn how to make healthier lifestyle choices. • Online decision-support tools that empower consumers to make better health care decisions, resulting in better health outcomes and appropriate service utilization. • Preventive services and screenings at either reduced copayment or no cost to encourage members to stay healthy.
		Elimination of redundancies and improved member safety Our investment in Kaiser Permanente HealthConnect® is greatly enhancing efficiency by maximizing information sharing. All of our providers can securely access this system and view a member's previous test results and other physician notations among the many features, which helps reduce, duplication of lab tests, unnecessary medical visits, redundant utilization of services, and pharmacy errors.
		Wider selection of affordable price points We've added several competitive plan designs to our core HMO offerings so that employer groups and members can select lower premium products with higher deductibles and more copayment options. This added flexibility allows groups the opportunity to select the plan that best fits their specific needs.

	Plans	options. We are available for member education events regarding health plan benefits, as well as wellness events. Our goal is to make it easy for the district's employees to engage in their health at home, online and at our facilities. This is our all-inclusive approach that saves the district money, which supports the school's budget, as well as the health and well-being of their employees. Kaiser Permanente's Thriving Schools program is a comprehensive, multi-year effort to support the health of students, staff and teachers in the communities that KP serves. Priority areas for Thriving Schools include promoting healthy eating, encouraging physical activity, supporting social and emotional health and creating a healthy school environment. In order to meet our goals, KP partners with several non-profit community organizations: The Alliance for a Healthier Generation supports districts and schools through their Healthy Schools Program designed to create a healthy school environment by engaging wellness champions, and providing evidence-based practices and technical support. Kaiser Permanente augments the work by direct grant funding to schools. Longview and Evergreen School Districts participate. Playworks provides professional coaches and training for adults to lead active play in several schools in the Evergreen and Longview School Districts. Schools in Clark and Cowlitz County have signed up to participate in Fire Up Your Feet, in partnership with Safe Routes to School. Fire Up Your Feet encourages staff, students and their families to be physically active before, during and after school. Kaiser Permanente provides cash awards to those schools that engage the highest percentage of students, staff and families.

		Kaiser Permanente's Educational Theatre Productions including the Adventures of the Tartar Patrol and The Pressure Point!, was hosted in schools in Clark and Cowlitz County engaging kids and adults in good oral health and making healthy life decisions.
		Ecotrust is supporting nutrition services staff in Longview and Evergreen School Districts to expand availability of local, healthy foods to students and staff during the school day. Ecotrust creates a bridge between local farmers and schools as purchasers.
		The School Based Health Alliance's Hallways to Health program expands the role of school based health centers in advancing obesity prevention and social and emotional health. Washington Middle School Based Health Center in Seattle is part of the learning collaborative supported by Kaiser Permanente.
Carrier 04	**Part-Time Employee Coverage Protection**	Benefit eligibility is determined by the group. We accommodate covering part-time employees at the group request.
Carrier 05	**Administrative Cost Reduction**	Operating cost management and productivity disciplines are embedded throughout UnitedHealth Group's businesses. Productivity is also generated by leveraging the increasing scale of our business. Strong growth in Medicaid enrollment and the insourcing of commercial pharmacy benefits management have contributed to productivity gains in those areas. Over the past several years, we have generated significant productivity gains through actions in five principal categories: ? Quality: Eliminating waste and improving core operating process performance;

Carrier	Category	Efforts and Achievements
		? Automation: Reducing manual processing by leveraging technology; ? Integration and Modernization: Advancing a more integrated, simple and modern processing environment, including significant cost savings from decommissioning legacy acquired and redundant platforms; ? Procurement and Sourcing: Cost reductions related to optimizing procurement and sourcing; and ? Payment Integrity: Medical cost reductions from improving payment accuracy and from various program integrity offerings and other initiatives to reduce improper billing and payment. Overall we expect productivity efforts to improve our operating cost ratio on an equivalent business mix by an average of 20 to 40 basis points per year over the next several years. Our consolidated ratio, however, may not decrease by this amount in any given year as we expect an increasing mix of services business and business from Amil. Both our services businesses and Amil carry higher operating cost ratios. The operating cost ratio is also significantly impacted by the insurer tax that took effect in 2014 and has scheduled increases through 2018.
Carrier 05	**Cost Savings**	We have provided overviews of our efforts and achievements toward controlling the cost of health care. CONTROLLING COST AND IMPROVING AFFORDABILITY Informed by over 30 years of experience with innovative contracting strategies, the foundation of our network offerings is our Accountable Care Platform. This platform was developed with the recognition that all providers are not the same in terms of their readiness to move towards a risk-based contract, yet we want each of them to take more accountability for the care they deliver. Therefore, we developed a modular suite of value-based incentive models that we can leverage with providers based on their risk readiness and other criteria. We recognize that a “one-size-fits-all” approach will not be effective and thus we have not prioritized one single model. Our modular suite of value-based programs enables us to customize our approach with providers across all stages of the risk continuum and support them as they become more accountable for cost, quality and experience outcomes. We currently have value-based contracts in place with more than 850 hospitals and 100,000 unique physicians participating in our

		Accountable Care Platform. More than $39 billion of our network health care spend is tied to value-based contracts across our commercial, Medicare and Medicaid businesses. We expect this figure to increase to $65 billion by 2018 year-end. We segment our value-based models into the following categories: PERFORMANCE-BASED PROGRAMS Encompassing such payment models as primary care incentives and performance-based programs for physicians, facilities, and other service providers (e.g. laboratory and dialysis services), our performance-based programs reward care providers for performance against specific metrics, such as readmissions, hospital-acquired conditions and some HEDIS measures. Spanning over 55,000 physicians and 1,000 hospitals, these programs have driven the following results: ? $75 million in estimated savings for 2014 ? 3.6 percent reduction in readmissions ? 9 percent reduction in inpatient length of stay ? Reduction in the use of non-participating laboratory services ? Reduction in the use of non-tier 1 prescriptions CONDITION OR SERVICE LINE PROGRAMS Our condition / service line programs encompass centers of excellence, ancillary capitation, and bundled/episodic payments and include over 2,300 physicians, 25 ancillary providers, and 160 facilities. Specific results attributed to these programs include: ? 25 percent decrease in the average length of hospital stays for transplants

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		? 34 percent reduction in medical cost savings for cancer therapy program ? Improved transplant survival rates at centers of excellence ? 3 percent reduction in one-year mortality for liver transplants ? 5 percent reduction in one-year mortality for heart transplants ? 16 percent reduction in the incidence of transplants through application of evidence-based appropriateness criteria ACCOUNTABLE CARE PROGRAMS At the most advanced end of the value-based spectrum are our programs focusing on population health, encompassing shared savings/shared risk models like accountable care organizations (ACOs) and patient-centered medical homes (PCMHs), as well as capitation and capitation-plus-PBC. We are currently involved in more than 30 ACOs across the country, including Southern Arizona, California, Colorado, New York, North Carolina, Texas, Ohio and Rhode Island. These organizations are focused on driving innovation in payment and delivery system reform with the Triple Aim of improving population health and patient experience, delivering the best possible quality outcomes, and reducing medical cost and medical trend. Select results that these ACOs have demonstrated include: ? 7 percent reduction in readmissions ? 11 percent reduction in inpatient hospital admissions ? 8 percent reduction in emergency room visits per 1,000 ? NCQA recognition

Washington State Office of the Insurance Commissioner

Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		? Improvement in HEDIS measures ? Significant number of metrics at or above 90th percentile of Quality Compass ? 3 percent reduction in total medical cost ? Improvement in generic prescription prescribing rate Our PCMH programs with at least 3 years of completed evaluation demonstrate: ? 1.5 to 3.5 percent lower than expected annual medical cost ? 4.5 to 11 percent lower than expected cumulative medical cost trend ? 4:1 return on investment (ROI) ? 1 to 11 percent lower than expected annual inpatient length of stay ? 1 to 6 percent lower than expected annual emergency visit utilization ? Clinical quality results trending above program targets on 95 percent of all measures We align the development of our network strategies, clinical programs and innovative benefit plan designs. We believe our strategy uniquely maximizes value by aligning incentives across customers, consumers and care providers to achieve the triple aim of better health, better care and lower costs. CONTROLLING CLAIM DOLLAR PAYOUT We designed our claim system specifically to control costs, prevent payment of non-covered services and protect from fraud and

Carrier	Category	Efforts and Achievements
		abuse. CONTROLLING COSTS ? Secure, tested load of the benefit plan for online benefit calculation ? Online eligibility determination ? Online coordination of benefits detection and calculation ? Online duplicate detection ? Online deductible and out-of-pocket calculations ? Online application of negotiated rates ? Online utilization review and calculation PREVENTING PAYMENT OF NON-COVERED SERVICES ? Secure tested load of the benefit plan to include non-covered services ? Online medical guidelines that can specifically indicate non-covered procedures ? Complete quality review to focus on non-covered services ? Complete training of specialists about coverage specifics PROTECTING FROM FRAUD AND ABUSE

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project
Exhibit A19a
Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		? Online security module prevents unauthorized access to the claim system or payment beyond authorized limits ? National physician and other health care professionals file unit prevents loading a physician or other health care professional into the claim system until a detailed investigation is completed ? Anti-Fraud and Recovery Solutions (AFRS), a comprehensive program designed to limit the impact of abuse and fraud for customers and for us ? A comprehensive training and fraud awareness program used to train transaction teams, underwriting and advocates to identify potential fraud issues ? Designated transaction center and health plan staff throughout the country who work with AFRS to detect and prevent inappropriate medical benefit payments resulting from abuse or fraud ? A clinical prospective review program uses internal flags to review suspect claims prior to payment ? A recovery team investigates possible overpayments related to abuse and fraud and recovers funds lost through those practices ? A compliance program ensures adherence to local, state and federal laws related to potential fraud matters and how they are handled HOSPITAL BILL AUDITS Our hospital audit vendor receives a monthly claim payment extract for inpatient and outpatient claims that exceed $10,000 in billed charges. The vendor runs those claims against its database and selects those that are candidates for audit. Selection is based on diagnosis, type of services rendered and previous billing history with a facility. In an up-front review of the claim information against a copy of the hospital bill, the audit vendor may detect a hospital billing error.

Carrier	Category	Efforts and Achievements
		Other claims may be subjected to an in-depth review of all charges against the hospital's medical records. This is referred to as a line-by-line review of billed charges. Our vendor will schedule and complete the audit. The vendor collects the refund, deducts its fee for services and sends the net refund amount to us. The fee is contingent upon recovery. HIGH-DOLLAR CLAIM NOTIFICATION PROCESS The high-dollar claim notification process notifies various business areas of claims in excess of $250,000. It includes an additional operational review of claim payments of $250,000 or more before the payment is released. Designated claims representatives ensure that benefits are paid according to existing policies and procedures, and audit the claim using established audit criteria. After this review, an Operations High-dollar Claim Review Committee reviews the proposed claim payment to confirm that it is reasonable and accurate according to benefit plan guidelines, contracts with physicians and other health care professionals, industry guidelines and our reimbursement policy. OVERPAYMENT RECOVERY We have a comprehensive internal recovery program. In addition to our team of employees dedicated exclusively to recovering overpayments, we can recover overpayments from physicians and other health care professionals by offsetting future payments. To supplement our internal recovery efforts, we use a number of vendors to maximize recovery. CREDIT BALANCE RECOVERY Credit balance recovery is a component of our overpayment recovery and is provided internally. Our service provides on-site and remote location resources to help hospitals and health systems research and resolve their inventory of credit balance accounts on behalf of our health plan clients. We retain 10 percent of the recovered amount as reimbursement for the cost of this service. NETWORK SAVINGS

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project
Exhibit A19a
Efforts and Achievements by Carrier
Calendar Year 2015

Carrier	Category	Efforts and Achievements
		We offer our customers and members three levels of reimbursement programs. While our traditional discounts save expenses on network services, we also have two non-network strategies that lower the costs of non-network and out-of-area claims. FIRST TIER - TRADITIONAL DISCOUNTS Our traditional networks are broad with easy access and benefit designs that encourage members to use our network services whenever possible, resulting in the highest possible claim savings. Our contracting process capitalizes on both our national strengths and our local market knowledge and expertise to achieve our national network goals. Our contracting efforts are designed to: ? Increase access by maintaining a large number of physician and other health care professionals in a variety of specialties ? Establish positive and supportive physician relationships that promote delivery of quality health care to all of our members ? Reimburse physicians only for those services actually rendered and only for services that are medically appropriate ? Achieve the most favorable price through fixed, negotiated rates SECOND TIER - PHYSICIAN SHARED SAVINGS PROGRAM The Physician Shared Savings Program (SSP) makes up the second-tier level of discounts in our discount program by enhancing our traditional participating network. It includes both wrap network discounts and claim-specific negotiations. We have contracted with MultiPlan, First Health Group, and other non-logo networks, which have thousands physicians contracted nationally for vendor wrap. SSP discounts can apply regardless of the member's benefit level. This means that SSP may apply to non-participating claims, including radiology, anesthesiology, pathology and laboratory services (RAPL), regardless of benefit level. Through these programs, a discount may be applied when a member accesses a wrap network physician. ADVANTAGES TO EMPLOYERS

Carrier	Category	Efforts and Achievements
		? The programs are easy to administer. Discounts are automatically applied when a claim is processed and are noted on the member's explanation of benefits (EOB), eliminating any need for employer intervention. ? Plan changes are not required. ADVANTAGES TO MEMBERS ? Members who receive services from these programs benefit from reduced coinsurance dollars for their discounted fees. ? Physicians and other health care professionals participating in the SSP vendor's network are prohibited from balance billing members when their contractual discount is taken (*). ? Members will not receive a separate SSP provider directory, but electronic access to the SSP vendor directory is available to the member through myuhc.com. Savings are applied post-service when an SSP physician or other health care professional has been used. ? Easy-to-read billing identifies when an SSP physician and other health care professional was accessed that resulted in cost savings. ? Special claim forms are not required when a member accesses the SSP physician or other health care professional. (*) There may be situations in which the SSP providers are not paid per the SSP, but are instead paid like other non-network providers. In such cases, the member's out-of-pocket cost will be the same as if discounts were not available through the SSP. THIRD TIER – MAXIMUM NON-NETWORK REIMBURSEMENT PROGRAM In addition to our SSP program, our Maximum Non-Network Reimbursement Program (MNRP) offers yet another alternative to help reduce the impact of rapidly rising, uncontrolled non-network expenses. Instead of basing non-network reimbursement on

Carrier	Category	Efforts and Achievements
		uncontrolled, charge-based prevailing fees, we reimburse plan expenses according to standards established by the federal government (such as Medicare). Members retain the freedom of choice to access either network or non-network health care services but, realize they may carry a more significant financial responsibility when using non-emergency, non-network services, thereby creating a member incentive to use our broad, discounted network. Under this approach: ? Reimbursement for non-emergency, non-network physicians and other health care professionals including non-network facilities is based on a percentage of the published rates allowed by Medicare for the same or similar services. These standards are cost-based payment methodologies established by the Centers for Medicare and Medicaid Services (CMS). Medicare's payment methodologies are widely understood and accepted by physicians and other health care professionals. ? The program applies only to non-emergency services that are provided by non-network physicians and other health care professionals including non-network facilities. However, it does not apply when non-network services are coordinated and approved by UnitedHealthcare as covered network services, or to any other non-network services that are considered payable as a network benefit. ? If no Medicare rate exists for a particular service, then the eligible charges will default to 50 percent of billed charges. ? This program can be administered alongside our Shared Savings Program (SSP), with the Medicare-based reimbursement levels applying only where savings are not obtained under that program. We make information available in a variety of ways to assist employees in understanding how the program works. This includes written consumer materials, conversations with customer service representatives, consumer activation messaging on health statements and information on myuhc.com. RESULTS SHOW MNRP WORKS For employers with MNRP, the rate of total cost trend on average slowed 1 percent to 2 percent within the first year. We expect

Carrier	Category	Efforts and Achievements
		additional savings beyond the first year. These savings can be attributed to a combination of change in employee behavior from non-network physicians to network physicians, and to lower reimbursement to non-network physicians. For employers who experience high non-network utilization, savings can be significantly higher. This program is not only reducing the impact of escalating non-network cost trend, but is also encouraging physicians to join our network. It is just one more component of our commitment to providing practical, affordable products and services, along with extensive network access to quality care.
Carrier 05	**Customer Service**	At UnitedHealthcare, we like to keep things simple. So we offer members an array of easy ways to learn more when they have questions, whether that's through mobile apps, educational websites, communications, digital newsletters or our Advocate4Me member services. The combination of mobile devices, our portal or member services help us meet our members where they are, in location and in functionality. Turns out we're meeting a lot of them. In 2015, our mobile app Health4Me was visited over 3.4 million times, providing members with personalized information and support – claim status, network locations, personal and general health information – wherever and wherever they needed it. Our member tools and mobile applications are integrated and access our core systems – the same systems accessed by member services and clinical staff. Advocate4Me reaches across all operations through the desktop dashboard. Advocate4Me lifts our integrated customer care, claim and clinical services to a new level, addresses what each consumer needs, and provides support through a relationship-based approach that focuses on promoting their health and wellness. Advocates engage plan participants for as long as it takes to resolve issues, whether it involves a complicated claim, the services available for a complex new diagnosis or obtaining needed care. We strive to deliver valuable experiences by having knowledgeable advocates address a member's needs in the first phone call without transferring them, provide accurate health care cost information and benefit and health management guidance, and – perhaps most importantly – be sensitive and compassionate in our interaction with each member. We want each member to feel supported, and to know that we respect their preferences by meeting them where they are, aligning with our corporate values of integrity, compassion, relationships, innovation and performance. Our advocates have a strong sense of compassion, understand the importance of building relationships, and can be a trusted advisor for our members. Our ongoing objectives: keep it simple, instill trust, accommodate channel of choice – phone, apps, email or online – and make it all easy. Oh, and help improve your

Carrier	Category	Efforts and Achievements
		employees' health and the health of your bottom line.
Carrier 05	**District Management of Health Plans**	UnitedHealthcare uses two proprietary tools, the Motivating Health Ownership (MHO) and the Consumer Activation Index (CAI) to evaluate employee populations. These tools identify where changes in the health plan would yield the greatest clinical and financial gain, while also providing solutions in meeting the needs of individual employees. POPULATION SEGMENTATION AND THE CONSUMER ACTIVATION INDEX By breaking down a customer's aggregate population into smaller groups of employees with similar demographic, socioeconomic, and health care engagement levels, we can more fully understand how health benefits are used. We can then identify areas of a customer's health care plan that may not be optimally leveraged and develop strategies that encourage positive behavior change. As an example, we might determine that a disproportionate share of low-income women ages 40 to 55 in a company's Chicago factory are not using preventive benefits and are diabetic. Once that information has been isolated, we can work collaboratively with the customer to design a solution that targets these women through communications programs or by implementing incentive or health programs that promote positive behavior (e.g., taking their diabetes medications). HOW THE CONSUMER ACTIVATION INDEX OPERATES The CAI uses a scorecard to evaluate the quality of members' health care-related decisions based on a question: "When faced with a health care decision, did the member make the optimal choice from a clinical, financial, and service perspective?" For example, from an economic perspective, did the employee fund her health savings account (HSA) when she had the opportunity? Clinically, did she obtain her yearly mammogram? From a service standpoint, did she log onto myuhc.com and choose a UnitedHealth Premium-designated provider for her surgery? The model traces 24 months of decisions to assess behavior. It also determines the best case and worst case for that individual had she made the right decisions versus the wrong decisions.

Carrier	Category	Efforts and Achievements
		By grouping members into five life stages characterized by demographics and circumstances relating to health status, and by augmenting the scorecard analysis with workplace information and consumer marketing data (income levels, ethnicity, location, etc.), we can identify clusters of employees that display patterns, or areas that need more attention to improve the overall performance of the employer's health plan. The results enable the customer to prioritize areas where behavioral change would yield the greatest value. Once that's determined, a comprehensive program with appropriate health plan modifications buttressed by customized communications plans targeted to those specific employees can have a dramatic impact on health care costs and member compliance. For example, early results of a program to improve the number of mammograms are showing a significant increase in compliance rates in the three months following a targeted communications program. MOTIVATING HEALTH OWNERSHIP FRAMEWORK Building on the principle of consumer accountability and empowerment advocated by account-based plans, the Motivating Health Ownership Framework moves this agenda further through broader reinforcement of all aspects of the employer-sponsored health plan, ultimately driving toward individual health ownership. This is done by combining plan components, such as clinical programs, rewards and technology, in a way that meets your specific population health needs and overall goals. Moving toward a plan design that inspires Individual Health Ownership takes time. Our goal is to collaborate with you to develop a multiyear set of moves that fits your goals, your culture and the current and future health needs of your population. By incorporating the following plan components at different intensities, we can customize a plan that works for your population today, and remains adaptable as your needs change and the market evolves in the future: ? Health plan Design – Choose the best plan for me ? Network Design and Transparency – Make smart healthcare choices

Carrier	Category	Efforts and Achievements
		? Population Health and Productivity – Help me manage my health ? Personal Experience – Make the experience fit my life Customers who adopt this strategy can generate medical net paid savings up to 24 percent lower when compared to customers who do not. These substantial savings remain unmatched by any other single, integrated carrier in the health care industry. TO SUMMARIZE Differences abound with respect to members' abilities to make optimal health care decisions and the levels at which they're engaged in managing their own health. By grouping those with similar profiles within a customer's aggregate population, and by crafting customized, targeted health programs, UnitedHealthcare is better able to modify consumer behavior and improve decision-making. As employees make better decisions, clinical outcomes improve, lowering health care expenses, raising consumer satisfaction levels and improving the overall performance of the health care plan.
Carrier 05	**Part-Time Employee Coverage Protection**	Employee eligibility is determined by the employer. Individuals working 20 or more hours per week are considered eligible according to the terms of the Policy.
Carrier 06	**Administrative Cost Reduction**	Providence Health Plan has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative cost with medical cost inflation. This has resulted in reduced percentage of premium administrative cost. As such, as much as 90%-91% of premium dollars go towards claims expense costs. PHP is also not required to refund any premiums due to not meeting the MLR (medical loss ratio) requirements of PPACA.
Carrier 06	**Cost Savings**	Providence Health Plan has invested in preventive care and chronic Case and Disease Management Programs to improve on health care outcomes, implementation of inteventions to prevent inpatient hospital readmissions, early adoption of voluntary patient safety reporting, inititatives in place to reduce complaints and potential medical errors, the Health Plan includes a comprehensive array of health and wellness promotion and preventive services through our Fit Together program and a best-in-class pharmacy

		management program.
Carrier 06	**Customer Service**	Providence Health Plan Customer Service and Claims are located in Beaverton, Oregon, hours of operation 8:00 am to 5:00 pm PST, toll free 800 number for members. Customer Service Representatives are trained to answer all calls with 92% of calls answered at the point of service. Translation services available, automated voice response systement and call tracking software for real time an historical activty. The Health Plan has invested heavily in web based tools for members for outside of standard business hours which includes a variety of self service options and tools.
Carrier 06	**District Management of Health Plans**	Providence Health Plan has best-in-class medical and care management services designed to achieve the Triple Aim (better care, better patient satisfaction at a lower cost). Through our care management programs and provider contracting efforts, we have the best regional PPO medical trends per recent surveys conducted by various consulting firms. In addition, our pharmacy management program has been recognized nationally as having the highest generic adoption rate and realizing reduced pharmacy costs and trend through our pharmacy benefit management efforts. Our pharmacy trend has been, and continues to be, the lowest in our regional market for several years. PHP will work with the districts and their producers or consultants to identify benefit design strategies to help meet budget goals and mitigate future cost increases.
Carrier 06	**Part-Time Employee Coverage Protection**	Providence Health Plan will allow districts to offer exend medical benefits to their part-time eligible employees should the district choose to do so.
Carrier 07	**Administrative Cost Reduction**	Continued integration of operational and administrative function into the GHC parent organization eliminates redundancy and controls admistrative costs.
Carrier 07	**Cost Savings**	Pre-authorization requirements and large-case management services
Carrier 07	**Customer Service**	KPS continues to maintain levels of customer service for all customers that consistently earn high ratings from OPM for the KPS FEHB program.

	of Health Plans	All PEBB programs in effect are directed to the entire PEBB population within a community rated risk pool. There are no programs specifically targeted to K-12 district populations.
Carrier 08	**Part-Time Employee Coverage Protection**	Uniform Medical Plan: Eligibility for PEBB benefits, as determined by the PEBB Program, includes eligibility for part-time employees who work an average of at least 80 hours per month with at least eight hours in each month for more than six consecutive months. Eligibility for benefits also includes eligibility for employees who work a recurring season of three or more months.
Carrier 09	**Administrative Cost Reduction**	We are continually exploring innovative ways to help control costs while seeing that our members receive quality care. We have initiated several efforts to better manage our health care costs, as well as our selling, general and administrative (SG&A) expenses. For example, the Executive Management Information System (EMIS) is an automated single source of certain financial, medical cost management, operational reporting, sales and human resources data which fosters a “one-company” view and culture, allowing for greater profit and loss (P&L) accountability. Another key process in managing operating costs is a monthly review of our SG&A expenses by type of spend and business area with a goal of improving discipline, consistency and accountability. Additionally, we have developed a robust forecasting and planning tool to foster accountability, enhance predictability and ultimately reduce SG&A costs.
Carrier 09	**Cost Savings**	Aetna uses a rigorous, dual approach to evaluate medical costs and identify opportunities to manage medical cost and trend. This process allows for proactive development and timely implementation of action plans and initiatives that control medical costs and improve utilization patterns. Examples of initiatives that were implemented to address medical cost opportunities are: (1) Emergency room frequent utilizers, (2) Home health care steerage to efficient and effective providers, (3) Multiple strategies to promote the use of participating providers, (4) High-tech radiology steerage, and others.
Carrier 09	**Customer Service**	At Aetna, we make very deliberate decisions and investments to connect our customers and members with solutions that meet their changing needs. A smarter health plan helps members take charge of their health and health care and to think and act like informed consumers. We offer members a variety of ways to get customer service information through our use of : (1) friendly, knowledgeable and proactive customer service representatives (CSRs), (2) Secure member website, (3) Interactive voice response technology, and (4) Smartphone applications When members call, our CSRs not only answer their questions, they proactively educate callers about their plan of benefits, tell

		them about programs available to them and encourage them to use – and assist them with – our online resources to help them become more informed health care consumers. Our online services are continually monitored and improved to make self-service a pleasant, productive and hassle-free experience.
Carrier 09	**District Management of Health Plans**	With the right tools and technology, school districts can streamline their interactions with us, manage employee benefits, and understand where health care dollars are being spent. We have the technology, tools and expertise to help achieve exactly that. Our Employer Secure Website adds a “single sign-on” site for districts to access Aetna online tools. Districts will see additional eligibility, enrollment, online billing and report capabilities, as well as forms and content as we continue to roll out and develop the Employer Secure Website. Internet-based eligibility transfer solutions enable districts to quickly and efficiently transmit information to us. Through systems such as SecureTransport?, EZLinkTM and EZenroll, districts receive the advantages of e-commerce; eliminating the need to submit paper forms, tapes, cartridges or diskettes
Carrier 09	**Part-Time Employee Coverage Protection**	We typically follow the plan sponsor’s definition of eligible employee as long as the customer’s definition is otherwise consistent with applicable laws. Customers are responsible for confirming eligibility to enroll in coverage. We do not determine eligibility for individuals. We advise customers to seek their own legal counsel concerning the effect of applicable laws on their plans.
Carrier 10	**Administrative Cost Reduction**	We continuously look for ways to reduce administrative costs. We have a team which meets regularly to identify, prioritize and implement efficiencies. We maintain a "green" mentality to protect natural resources and reduce our carbon footprint. Primarily we focus on: ? -streamlining processes -leveraging electronic capabilities -eliminating duplicate work with our providers, groups and members

Washington State Office of the Insurance Commissioner

		-increasing claims auto adjudication rates
Carrier 10	**Cost Savings**	Moda Health (Moda) strives to manage costs while providing the highest quality service and care for our members. Our programs help members meet their health care needs through prevention, wellness and condition specific programs. We are continually looking for opportunities to help members maximize the effectiveness of their health care dollars. ?
		We prioritize member service as our number one strategic initiative because helping members be better is at the essence of our existence. Our priority is to assist members in getting the right care, at the right time, at the right place, at the right cost. To accomplish this, we examine every way and medium, (current and emerging) that members will access information from us. We work on new approaches to improve the member's experience, as well as new ways to be accountable to members. We strongly believe it is our duty to manage benefits within a global budget. Accomplishing this allows for healthcare costs to be more predictable and therefore compete less with member's wages and other benefits. We also work diligently to design benefit plans that promote quality, improve health outcomes and reward members, their families and providers for reaching sustaining health goals. ?
		The world of health insurance is changing and changing rapidly. To accommodate this change and continue to provide plans and benefits that reach the Triple Aim in a comprehensive manner, we've focused much of our time on building new kinds of partnerships. These new partnerships focus on engaging providers and patients in new ways. Instead of focusing on the traditional provider/insurer/payor contracts and employer/payor relationship, we've chosen to focus our time, energy and talents on developing partnerships that are transformational to patient care and provider payments. ?

Calendar Year 2015

Carrier	Category	Efforts and Achievements
		We have a history of innovation in benefit design, predictive modeling, medical management, population health management and coordination of care. We were one of the early pioneers in the Patient Centered Medical Home Pilot program. In addition, we partnered with the Oregon Educators Benefits Board to define, design and implement evidence-based,value-based benefit designs and value tiers which reduce patient barriers to care. Our work also includes the development of unique approaches to address sleep studies and advanced imaging management. Our comprehensive data warehouse, which combines all medical, pharmacy, dental, vision and other data into a single data source, allows us to approach predictive modeling in innovative ways. To aide this initiative, we combined the data warehouse with an analytics department. The primary purpose of this department is to analyze the date, and from the analysis, make suggestions and recommendations regarding benefit designs to achieve the Triple Aim. We also have built a coordinated care organization from the ground up and in a geographical location that has previously not had managed care. On a continual basis, we work to grow and strengthen our innovative regional partnerships. ? Here are a few examples of ongoing cost containment and quality improvement efforts at Moda. ? - Medical Quality Improvement Committee (MQIC) - Comprised of representatives from multiple departments that oversees Moda quality improvement programs. This committee monitors and evaluates the health care services provided to Moda members to ensure that they meet current medical practice and service standards. The MQIC meets at least six times per year and facilitates communication among Moda departments, providers, employer groups and members to ensure the delivery of healthcare services in an efficient management of resources. ? - Pharmacy and Therapeutics Committee - Chaired by a Moda medical director, this multidepartment committee oversees drug formulary decisions to ensure the availability of safe and effective drug choices by: promoting evidence-based standards in the

Carrier	Category	Efforts and Achievements
		formulary decision-making process to ensure clinical efficacy, patient safety, and cost-effective medication options; establishing policies and procedures to educate and inform health care providers, members and clients about drug products and appropriate use; as well as developing protocols and procedures for the ease of and access to non-formulary drugs. ?
		- Case Management and Care Coordination - Our programs use evidence-based medicine and best practice clinical care guidelines. The guidelines are used when prior authorizing inpatient and surgical admissions, durable medical equipment, outpatient therapies and chiropractic care, acupuncture and massage therapy. In addition, evidence based-guidelines are used to assign initial length of stay, continued stay, and to confirm the appropriate level of care for inpatient, acute rehabilitation and skilled nursing facility admissions. ?
		Care coordination nurses follow members through preauthorization of an inpatient admission, inaptient concurrent review, discharge planning, and the recovery phase of an acute condition, when coordination of additional services is needed. The care management programs use nationally recognized clinical care guidelines developed through evidence-based medicine and best practice. This approach supports our readmission prevention program. ?
		Moda has ongoing quality improvement projects for congestive heart failure (CHF), inpatient readmissions, depression screening, and hospice utilization. These efforts also include communication among case managers, health coaches, and behavioral healthcare coordinators to ensure the members receive the appropriate level of care with the appropriate provider. To ensure quality centers of excellence are available for transplant care, specialized cancer care that is nto available locally, kidney dialysis, and complex neonatal case management.
Carrier 10	**Customer**	Moda has consistently recognized that exceptional customer service is a core value. We have taken a "voice of the customer" approach (e.g., survey tools, focus groups) to better understand what is valued by our customers. Our goal is to deliver a consistent

		-After call member surveys. -Implement ePrescribing by 7/15/16.
Carrier 10	**District Management of Health Plans**	Moda works with clients to administer their benefits and assist with benefit design recommendations. We evaluate performance metrics, anticipate utilization trends and recommend changes to support evidence and value-based plan designs. ? Moda applies a consultative approach to client services. We use clinical experts and data analytics to evaluate opportunities for plan enhancements and modifications. ? We have an open forum with our clients, their consultants and ofter other health plans services the same population, to discuss opportunities for improvement in care and the management of health benefits. Collectively, we review utilization trends and evaluate modifications to the plan that will ensure appropriate and cost effective care. Moda shares claims and utilization experience for school districts with 100 or more employees. It is through this active collaboration that we are able to identify opportunities that meet the specific needs of the client.
Carrier 10	**Part-Time Employee Coverage Protection**	Employee eligibility is determined by the employer. Eligibility must be compliant with the Patient Protection and Affordability Care Act regulations.

Aberdeen School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Aberdeen School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc.

District	Category	Efforts and Achievements
		a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled.

District	Category	Efforts and Achievements
		K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Aberdeen School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan

District	Category	Efforts and Achievements
		choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Aberdeen School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Aberdeen School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled.

		On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington state.

		M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
		GROUP HEALTH:
		We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls.
		We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs.
		In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits.
		Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future.

District	Category	Efforts and Achievements
		Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this performance is fewer readmissions and lower total cost of care.
		With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities.
		Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also receive routine reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.)
		The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions,

District	Category	Efforts and Achievements
		assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver.
		We have also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g. depression, anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns.
		In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas.
		The outpatient CM staff work on improving outcomes for members by working with them on improving their health and their self-management skills; navigating the health care system; evaluating and working through barriers to meeting goals; and accessing routine care. All this work is done with the understanding of the patient's benefits and specific needs. Our efforts in

District	Category	Efforts and Achievements
		identifying patients for case management are focused on those individuals with chronic conditions, including diabetes and congestive heart failure, recent hospitalizations, and new diagnoses of serious conditions. By working with these higher risk, higher need patients to improve their outcomes, and assisting them in accessing care more effectively, we are also avoiding additional costs.
		We have one Care Management RN who is dedicated to pediatric and perinatal care. She provides support to families of premature infants and seriously ill infants and children in inpatient and outpatient settings to optimize their outcomes and manage costs. Her responsibilities include utilization management activities associated with facility-based care.
		The efforts of the Emergency Patient Resources and Options (EPRO) physicians and staff also save costs by avoiding unnecessary hospital admissions and providing alternatives, including home health and same or next day appointments with medical and behavioral health providers. We are also supporting the avoidance of unnecessary testing when we can provide results of recent labs, ECG's, and imaging procedures. The social work clinicians in EPRO are trained to complete assessments of patients with chemical dependency concerns to determine if admission or outpatient care is most appropriate, often avoiding an unnecessary admission and coordinating prompt access to outpatient care.
		The CNS program also contributes to the improved outcomes and saving costs for patients and the health plan by offering 24/7 access to advice from registered nurses. In addition to the RN staff, CNS is also staffed with a Physician's Assistant and physician. This allows for RN consultation with the provider and direct treatment of patients by the providers. The CNS MD/PA is also able to assist patients with abnormal lab results after hours to prevent Emergency Department and Urgent Care visits. The CNS program also includes standing physician orders for the RN's to use in the treatment of some common diagnoses. This allows members to begin treatment earlier, avoid additional appointments and costs, and avoid costs for the health plan.

		We have recently started a pilot project to improve the pre-operative planning of patients undergoing elective joint replacement procedures. This project is focused on patients from a contracted orthopedic practice and includes a phone call to patients several days prior to their admission to review the expectations and plans for post-discharge care. We have consistently identified the perception of many members and providers that not having caregiver support following discharge is reason to admit to a skilled nursing facility, which is not a legitimate reason for SNF care according to CMS. By working with the patients prior to admission to help them problem-solve any anticipated issues, plan for help at home, and expect discharge to home, we believe we can improve patient outcomes by avoiding more exposure to infections in facility-based care and also avoid the associated costs.

		including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans. GROUP HEALTH: Group Health's Customer Service Centers in Seattle and Spokane serve as a vital source of quick, accurate information for members, staff, providers, and brokers. Available Monday through Friday, from 8:00 AM to 5:00 PM, they support inquiries for all lines of business and provide support for our health plans and clinics, as well as the self-service tools on our website and mobile app. In addition to taking over 4,000 calls each day, representatives also handle e-mails, written correspondence, and walk-in inquiries. Customer Service Representatives are prepared to answer all manners of health care inquiries, including questions about health plan benefits, enrollment, billing, and accessing care. While striving to resolve questions or concerns on the first contact, they also work with partner departments, care teams, and individuals throughout Group Health to ensure every issue is handled thoroughly and professionally. Whether welcoming a new member, answering a question, or solving a problem for someone in need of help, Customer Service makes it a priority to embody Group Health's mission and values on every contact. Additionally, members can conveniently access customer service 24/7 via our member website, MyGroupHealth, at www.ghc.org, or our mobile app, which is available for download on the iPhone and Android Smartphones. It includes many

District	Category	Efforts and Achievements
		features available on our MyGroupHealth for Members Website and has added features, such as Symptom Checker and clinic locations and wait times. From the website, members can use online forms to order a new ID card, file a claim, view plan information, update their personal information, order prescriptions and have them delivered to their homes, and provide feedback about Group Health. Patients are able to communicate directly with their primary care team – at their convenience – which improves service and builds a stronger provider-patient relationship. Using MyGroupHealth, members receiving care in Group Health medical centers have online access to a shared electronic health record (EHR) consisting of their entire medical record (except chart notes). Features available to them include: • Access to lab/test/radiology results • After-visit summaries • Allergy and immunization records • Medication histories, blood pressure, weight, and current health conditions • Secure messaging with their primary care team

School District	**Coverage Protection**	A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available. DISTRICT: There has been no change in eligibility for part-time employees. Employees have access to coverage when working 17.5 hours per week. These eligibility terms are dictated by collective bargaining agreements. For employees who are eligible for benefits, there are low cost medical plan options for employees to choose from including a QHDHP, a PPO $750 deductible plan and a PPO $1,500 deductible plan.
Arlington School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.

		DISTRICT: Excess pooling funds are allocated to those employees covering dependents instead of to employees who are enrolled in self-only coverage. In order to offer more affordable plans to families, Arlington Public Schools raised the deductible on their $350 deductible plan to a $750 deductible plan. Additionally, they opted to provide up-front benefits on this plan including the first four office visits covered at a $25 copay then covered at 100% (deductible is waived) and the plan covers the first $500 of outpatient lab and X-ray at 100% (deductible is waived). Arlington Public Schools offers two additional lower cost plan options that include a $1,500 deductible PPO plan and a QHDHP with an HSA account option. A self-funded vision plan is offered to employees at a composite rate in order to provide affordable vision coverage to families.

Asotin-Anatone School District	**Part-Time Employee Coverage Protection**	We met the ACA guidelines, in which all employees working 6 hours or more per day are entitled to benefits.
Asotin-Anatone School District	**Premium Differential Reduction**	We only offer Composite rate for employee and ALL Dependants.
Auburn School District	**Administrative Cost Reduction**	ASD purchases medical plans through the WEA benefits program, in addition to one HMO plan purchased through Group Health Cooperative. The WEA program is an efficiently run program with low administrative costs built into the premiums for the management and maintenance of these plans, and the administrative costs on the Group Health plan are below average. In order to reduce ongoing administration expenses, the WEA launched an online enrollment system in January 2013. The annual Open Enrollment was conducted in October, and was completed online, eliminating the need to so many paper enrollment forms. However, ASD was specifically allowed to implement their own internal online enrollment system, and did not move forward with WEA's platform. This allowance has proved to be very successful. ASD can set the open enrollment timeframe in a manner that makes sense administratively, and the system itself has proven to be successful in reducing paper and administrative work for the District. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced

District	Category	Efforts and Achievements
		overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Auburn School District	**Cost Savings**	Both Premera Blue Cross and Group Health continue to evaluate their patient populations for early identification of costly chronic conditions. Group Health is nationally recognized for its' innovative approach to member care through their lifetimes. ASD has made progress by aggressively negotiating lower premiums on the Group Health medical plan, making strategic benefit plan alterations, and by offering an HSA-Qualified High Deductible Health Plan so that employees may cover family members at significantly lower premiums. The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national

District	Category	Efforts and Achievements
		accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate.

District	Category	Efforts and Achievements
		J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. Waiver – employees can waive medical coverage under WEA or Group Health. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums, usually being employees with families.
Auburn School District	**Customer Service**	1. District employees enjoy both a Benefits Website and a Benefits Helpline. The Benefits Website contains information for all the District's benefits plans in one convenient place and is widely accessed by both employees and their family members. It contains summaries, comparisons, calculators, forms, and links to information and resources provided by the insurance carriers. The very popular Benefits Helpline is available for employees and their families when they have questions about their District benefits. During the most recent Open Enrollment period, in a period of 30 workdays, the Benefits Helpline took a large number of phone calls on a wide variety of topics, from the new HSA-qualified HDHP, to LTD claims, vision provider searches, retirement and Medicare. Satisfaction with the Benefits Helpline and website is extremely high.

District	Category	Efforts and Achievements
		In addition, the District's Health Benefits Committee works with Brokers for ASD and the Administrators, to evaluate communication needs, provide surveys, newsletters, meetings, and one on one assistance when necessary.
		Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees.
		B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees.
		C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience.
		D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional

District	Category	Efforts and Achievements
		support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans. Group Health has an award-winning website that allows employees to order prescriptions online, email their doctors, access test results, engage in virtual visits, and see their medical records.
Auburn School District	**Part-Time Employee Coverage Protection**	ASD has not changed part-time employees' access to coverage in recent years. Part-time employees remain eligible for the same benefits as full-time employees when they meet the definition of eligibility under their bargaining agreement. Medical insurance is optional and the district contribution for part-time employees is prorated based on the number of hours worked. Part-time employees can choose to enroll in medical as long as they have sufficient salary each month from which the employee's share of the costs (if applicable) may be deducted from their paycheck.

		C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled.
		D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
		ASD has continued to discuss in detail, various proposals to make progress towards a 3:1 premium sharing ratio for employees. Through meetings and discussions with administrators, it has been noted that any drastic changes in premium shares would cause significant changes in employee enrollment and could cause the district to overspend available funding. We continue to consider all options carefully in an effort to make progress.
Bainbridge Island School District	**Administrative Cost Reduction**	The WEA program is an efficiently run program with low administrative costs built into the premiums for the management and maintenance of these plans. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Premera partners with outside organizations to collaborate on the use of Lean methodology, including several Washington State agencies, local non-profits and varied employer groups. In order to reduce ongoing administrative expenses, the WEA continues to use an secure web-based online enrollment system, eliminating the need for many paper enrollment forms.
Bainbridge Island School District	**Cost Savings**	Both Premera Blue Cross and Group Health continue to evaluate their patient populations for early identification of costly chronic conditions. Group Health is nationally recognized for its innovative approach to member care through their lifetimes. BISD offers an HSA-Qualified High Deductible Health Plan so that employees may cover family members at significantly lower premiums. 1. BlueCard – Premera's national "Blue"network – has negotiated discounts that are the highest within the state and provides

District	Category	Efforts and Achievements
		significant savings to Premera enrollees who travel or reside outside the Premera service area. Group Health is consistently recongnized for its ability to provide care very low medical trend inflation. 2. Evidence-based medical initiatives allow Premera and Group Health to provide efficient and cost-effective care as well as identifying appropriate alternative care based on the member's needs. 3. Consumers have real-time access to resources to help them understand and direct their health care needs. 4. Provider advisory groups for medical and pharmacy continually monitor Premera's policies and procedures and make changes to formularies to ensure they are appropriate and cost and care-efficient. 5. Plans include copayments for emergency room services (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand name and specialty drugs. 6. Programs monitor controlled medical substances to provide protection for members.
Bainbridge Island School District	**Customer Service**	1. District employees enjoy both a Benefits Website and a Benefits Helpline managed by our benefits broker. The Benefits Website contains information for all the District's benefits plans in one convenient place and is widely accessed by both employees and their family members. It contains summaries, comparisons, calculators, forms, and links to information and resources provided by the insurance carriers. The very popular Benefits Helpline is available for employees and their families when they have questions about their District benefits. During the most recent Open Enrollment period the Benefits Helpline took a large number of phone calls on a wide variety of topics, from the HSA-qualified HDHP, to LTD claims, vision provider searches, retirement and Medicare. Satisfaction with the Benefits Helpline and website is extremely high. 2. Premera provides a website with access to information about the employee benefits – this includes a cost estimator which helps them determine what provider may require less out-of-pocket costs for the enrollee or their family. The website provides educational information about wellness programs and their plan benefits.

		3. Group Health has an award-winning website that allows employees to order prescriptons online, email their doctors, access test results, and see their medical records. 4. Premera does independent surveys to measure member satisfaction and then puts a focus on making changes to improve satisfaction.
Bainbridge Island School District	**Part-Time Employee Coverage Protection**	BISD has not changed part-time employees' access to coverage in recent years. Part-time employees remain eligible for the same benefits as full-time employees when they meet the definition of eligibility under their bargaining agreement. Medical insurance is optional and the district contribution for part-time employees is prorated based on the number of hours worked. Part-time employees can choose to enroll in medical as long as they have sufficient salary each month from which the employee's share of the costs (if applicable) may be deducted from their paycheck.
Bainbridge Island School District	**Premium Differential Reduction**	WEA Premera plan applied greater premium increases to the employee-only premiums in order to help offset premium increases for families. Single employees pay a minimum of 1% of the premium cost out-of-pocket in order to increase availability for employees covering their families. Due to a concerted education effort on costs, district enrollment on the inexpensive EasyChoice plans increased significantly in 2015. The district continues to offer the HSA-Qualified High Deductible Health Plan. These changes in enrollment helped make more funding availalbe for employees covering families. Dependents on the Premera/WEA plans continue to be audited to ensure that ineligible dependents are not enrolled on school district plans.
Battle Ground School District	**Administrative Cost Reduction**	Regence uses a process to evaluate and improve internal and external processes to eliminate wasted time and work effort to lower costs. Kaiser uses their own doctors and a referral system to help reduce unnecessary specialty visits. Regence offers the Blue Card which allows members to receive services when out of the area at the in-network costs. Regence has a process in place that allows for auto adjudication, reducing the need for manual intervention, lowering administrative costs. We us online enrollment for employees reducing the amount of time we need to put in for new hires.

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
Battle Ground School District	**Cost Savings**	Because of the number of covered lives Regence has, they are able to negotiate greater discounts. Regence has the highest number of in-network providers with susbtantial provider discounts and allowing for employees to have the lower co-pay at the time of service. Regence offers the BlueCard which allows members to receive services at the in-network cost even when traveling out of the service area. Both Kaiser and Regence have Evidence-based medical initatives allowing them to provide effeiceint and cost-effective care as well as to idenitify appropriate alternative care. Both plans offer decision making support to help enrollees understand and select the health care they need. Both Kaiser andRegence have advisory groups that continually monitor medical and pharmacy policies and procedures and make formulary changes to ensure appropriate level/tiers and cost efficient care. Both plans monitor claims and identify healthcare needs to ensure enrollees are receiving the appropriate services. Both plans require a co-pay for emergencey room visits (waived if admitted). Regence offers a lower child rate for COBRA coverage for over age dependents. Premium rates for dependent children under all plans is the same whether there is one child or more enrolled in the plan. Pre-authorization is required or a referral from PCP before planned medical services or procedures. The district offers 7 Premerra plans and 2 Kaiser plans to allow employees to select the plan that works best for their situation and offers several lower cost options for them. Both Kaiser and Premera as well as union contracts allow for waiver of medical coverage when an employee is covered under another plan, this allows more dollars to be returned to the pool to help employees with out of pocket medical premiums costs.
Battle Ground School District	**Customer Service**	Kaiser and Regence both have websites for members to access plan information, costs and educational information. As well as wellnes information, available discounts for health clubs and programs. Customer satisfaction surveys are conducted. Regence offers on-site staff to come help employees understand benefits and answer questions on claims, giving employees one-on-one face time. Newsletters are sent out and available online.
Battle Ground School District	**Part-Time Employee Coverage Protection**	The district offers benefits to employees working 17.5 for certificated and 20 hours per week for classified staff. We offer several different plan options allow employees to select a plan that works best for them. And we offer the High Deductible plan.
Battle Ground School District	**Premium Differential Reduction**	Kaiser and Regence both have given lower rate increases for dependents than the employee only rates. Added lower cost premuim options such as the Choice plans. Regence offers a child only rate, lower than then employe only rate for COBRA coverage for dependents.

School District	**Service**	all employees to learn the most efficient way to access their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic cosutomer service and support for all members. 4. Having regular Benefits Advisory Committe meetings with representation from all bargaining groups.
Bellingham School District	**Part-Time Employee Coverage Protection**	We have continued to work with all purchasing/bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. We also provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Bellingham School District	**Premium Differential Reduction**	We have done the following: 1. Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents due to pooling from employee only minimum contributions. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 3. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. 4. Worked with employee benefits consultant to evaluate and offer alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. 5. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Bellingham School District ranked 42nd out of 116 districts with more than 100 employees for the 2013-14 school year. Bellingham's equity ratio, multiple was 8.2 compared to an average multiple of 11.3 for the rest of the 116 districts.
Benge School District	**Administrative Cost Reduction**	Administrative cost are low due to the small number of employees.
Benge School District	**Cost Savings**	Provider has high numbers of "in network" providers and an open drug formulary that reduces the cost for the perscribers.

Bremerton School District	**Administrative Cost Reduction**	BSD purchases medical plans through the WEA benefits program, in addition to one HMO plan purchased through Group Health Cooperative. The WEA program is an efficiently run program with low administrative costs built into the premiums for the management and maintenance of these plans, and the administrative costs on the Group Health plan are below average. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs. Group Health has reduced admin costs through the following: In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and

District	Category	Efforts and Achievements
		other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best service to our customers.
		On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition.
		By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.
Bremerton School District	**Cost Savings**	In 2014-2015, Premera Blue Cross, KPS and Group Health continued to evaluate their patient populations for early identification of costly chronic conditions. Group Health is nationally recognized for its' innovative approach to member care through their lifetimes.
		In the fall of 2015 BSD moved to a suite of plans through Group Health Access PPO, HMO and one Premera plan. This was after an RFP process in which other medical carriers plans and rates were evaluated. With assistance from our brokers, SIG negotiated with Group Health, and BSD was able to move to a suite of plans that were competitively priced, while still offering comprehensive coverage. Through effective communication outlined in open enrollment documents, meetings and the Benefits Fair, employees were educated on what plans made the most sense for them based on premium and out-of-pocket

District	Category	Efforts and Achievements
		costs. The District saw a shift in enrollment, with more employees choosing lower cost plans, freeing up more money to be pooled and shifted to employees with dependents.
		The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services.

District	Category	Efforts and Achievements
		F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums. Group Health provides the following:

		Group Health works closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls.
		Group Health offers patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. Group Health empowers employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs.
		In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. Group Health performs pre-payment review of high dollar claims and post-payment audits.
		Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future.
		With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities.

		Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. Group Health also receives routine reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.) The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions, assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver. We have also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g. depression, anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns.

		In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas.
Bremerton School District	**Customer Service**	BSD employees enjoy both a Benefits Website and a Benefits Helpline. The Benefits Website contains information for all the District's benefits plans in one convenient place and is widely accessed by both employees and their family members. It contains summaries, comparisons, calculators, forms, and links to information and resources provided by the insurance carriers. The very popular Benefits Helpline is available for employees and their families when they have questions about their District benefits. The phone calls received range on a wide variety of topics, from the new HSA-qualified HDHP, to LTD claims, vision provider searches, retirement and Medicare. In addition, BSD works with our broker SIG to evaluate communication needs, provide surveys, newsletters, meetings, and one on one assistance when necessary.
		Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them

District	Category	Efforts and Achievements
		determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans. Group Health places a strong emphasis on Customer Service through these services: Group Health's Customer Service Centers in Seattle and Spokane serve as a vital source of quick, accurate information for members, staff, providers, and brokers. Available Monday through Friday, from 8:00 AM to 5:00 PM, they support inquiries for all lines of business and provide support for our health plans and clinics, as well as the self-service tools on our website and mobile app. In addition to taking over 4,000 calls each day, representatives also handle e-mails, written correspondence, and

District	Category	Efforts and Achievements
		walk-in inquiries.
		Customer Service Representatives are prepared to answer all manners of health care inquiries, including questions about health plan benefits, enrollment, billing, and accessing care. While striving to resolve questions or concerns on the first contact, they also work with partner departments, care teams, and individuals throughout Group Health to ensure every issue is handled thoroughly and professionally. Whether welcoming a new member, answering a question, or solving a problem for someone in need of help, Customer Service makes it a priority to embody Group Health's mission and values on every contact.
		Additionally, members can conveniently access customer service 24/7 via our member website, MyGroupHealth, at www.ghc.org, or our mobile app, which is available for download on the iPhone and Android Smartphones. It includes many features available on our MyGroupHealth for Members Website and has added features, such as Symptom Checker and clinic locations and wait times.
		From the website, members can use online forms to order a new ID card, file a claim, view plan information, update their personal information, order prescriptions and have them delivered to their homes, and provide feedback about Group Health. Patients are able to communicate directly with their primary care team – at their convenience – which improves service and builds a stronger provider-patient relationship.
		Using MyGroupHealth, members receiving care in Group Health medical centers have online access to a shared electronic health record (EHR) consisting of their entire medical record (except chart notes). Features available to them include:

District	Category	Efforts and Achievements
		• Access to lab/test/radiology results • After-visit summaries • Allergy and immunization records • Medication histories, blood pressure, weight, and current health conditions • Secure messaging with their primary care team
Bremerton School District	**Part-Time Employee Coverage Protection**	Part-time employees' access to coverage has not changed in recent years. Part-time employees remain eligible for the same benefits as full-time employees when they meet the definition of eligibility under their bargaining agreement. Medical insurance is optional and the district contribution for part-time employees is prorated based on the number of hours worked. BSD and bargaining groups are aware that for part-time employees working 30 hours per week or more, full implementation of the 3:1 premium sharing as required by ESSB 5940 could potentially subject the district to penalties under the Shared Responsibility Provision of the Affordable Care Act. A. This district currently allows part-time employees who have a contract or agreement to work access to health benefits. B. New Group Health plans offered lower cost options in November 2015.

District	Category	Efforts and Achievements
		The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Bremerton School District	**Premium Differential Reduction**	District: Please indicate if your district has done something specific in this area. BSD will continue to examine in detail, various proposals to make progress towards a 3:1 premium sharing ratio for employees. Through insurance committee meetings and discussions with administrators and bargaining groups, it has been noted that any drastic changes in premium shares would cause significant changes in employee enrollment and could cause the district to overspend available funding. The District continues to consider all options carefully. The insurance committee has continued to engage in active discussions about making progress, and intends to review additional methods moving forward. BSD will continue to work with the insurance carriers to offer benefits that meet the criteria outlined in the law. Historically - WEA Select Plans – Passed on lower increases to dependents than to employee only tiers

Burlington-Edison School District	Administrative Cost Reduction	There has been no reduction in administration expenses. The additional reporting requirements and increase in number of insurance plans offered has increased the number of hours spent processing these changes both for Human Resources and Payroll staff. ACA has increased questions regarding health care choices for both new and existing employees. We added additional hours to our payroll assistant to handle the increase in workload.
Burlington-Edison School District	Cost Savings	We offer a variety of plans to employees including QHDHPs that meet the minimum essential requirements. Our insurance brokers negotiate with our vendors for the lowest rates possible. We use Premera, Group Health, Regence and PEBB. The broker has set up an insurance consortium with nearby districts for more negotiating/buying power that our classified bargaining group has joined. These rates have also helped our certificated staff although they have not yet chosen to join the consortium.
Burlington-Edison School District	Customer Service	We have been providing ongoing emails, benefits fairs, employee guide to benefits booklets, additional seminars by benefits broker, prompt responses to employee questions, increased awareness in both HR and payroll of employee needs so more time is spent with new hires and existing employees to improve their experience and alleviate frustrations with the process of selecting benefits.
Burlington-Edison School District	Part-Time Employee Coverage	Employees who work .5 FTE and above qualify for benefits. This equates to 18.75 hours/week qualifies for benefits as opposed to the Federal mandate of 30 hours per week.

	Protection	
Burlington-Edison School District	Premium Differential Reduction	In the past, our certificated staff bargained for the district to pay additional funds toward the pool for employees who covered full family. This was bargained out of the contract last year. Now additional funds add to the total insurance pool -not specifically targeting a small group of employees who cover full family. The insurance companies have worked toward structuring the premiums so full family premium does not increase at as high a rate as the individual plan.
Camas School District	Administrative Cost Reduction	It's been impossible to reduce administrative expenses with all the new reporting requirements.
Camas School District	Cost Savings	Offer lower cost options, such as Premera EasyChoice Plan, Premera Basic Plan and the Premera High Deductible Health Plan These plans offer a range of benefits and rate levels to meet the needs of our employees and their families.The EasyChoice Plan provides two different options at the same rate. Employee have the choice to choose the option that best fits their needs. This plan has copays for office visits and generic drugs are covered in full. With the WEA plans overage dependents pay the lower child rate rather than a subscriber rate when enrolling in COBRA. Employees can waive medical coverage and any left-over state allocation is put back into the insurance pool to help reduce employees paying out-of-pocket each month for medical coverage.
Camas School District	Customer Service	Provide a website with access to information about the employee's benefits, including a cost estimator. Email communications, Employee Benefit Handbook, Benefits Fair
Camas School District	Part-Time Employee Coverage Protection	We have provided access to coverage for certificated part-time employees working 17.5 hours a week and classified staff working 20 hours a week for many years. Currently we are offering two affordable options, the EasyChoice plan that has lower premiums which have many first dollar benefits and a QHDHP Plan.
Camas School District	Premium Differential Reduction	Implemented a mimiumn deduction for all employees enrolled in medical. All employees enrolled in medical coverage are now paying a portion of their premium.
Cape Flattery	Administrative	The WEA Select Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
School District	**Cost Reduction**	improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this mithod, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business - including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Cape Flattery School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage for many large, national accounts, including Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting-Premera has the highest number of providers "in network" in the state (resulting in 98%+ of all paid claims are "in network") Substantial provider discounts result in lower claims cost for the plan and lower out-of-pocket costs for enrollees on a WEA plan. b. Bluecard -(Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plan that include co-payments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate - Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization -Some services require an approval for coverage from Premera before a planned medical

Calendar Year 2015

District	Category	Efforts and Achievements
		service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice - 7 freestanding medical plans available statewide with a broad rands of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver - employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Cape Flattery School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrolees. B. Use "Ulysses Learning" - leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing the enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrolleess or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wleeness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school district which has let to making modifcations to processes or benefit changes to the plans.
Cape Flattery School District	**Part-Time Employee Coverage Protection**	The district offers equal sharing of pooled dollars regardless of hours regularly assigned. The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hour a week for over 30 years. Individual district can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice pland and the Basic plan that have lower premiums. Additionally, QHDHP is available.

Cape Flattery School District	**Premium Differential Reduction**	The distict has met with the bargaining units and have agreed to work together to address this issue. Plans are in the making for bringing these goals to fruition. The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Carbonado School District	**Administrative Cost Reduction**	A. Premera has been a leader in implementing "Lean" thinking since 20005. The goal is to be able to improve quality, improve the member experience while eliminating wasted time and work effort and improving efficiency while lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in "Lean" workshops so they can incorporate them into their own business. - including the state of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8 o/o in 2005 to 6o/o for over 10 years. C. BlueCard provides significant savings to Premera employees traveling or residing outside the Premera service area.
Carbonado School District	**Cost Savings**	A. Premera has the following included in all the WEA medical programs. A. Provider contracting-has the highest number of providers "in network" in the state (98 o/o + of all claims are paid "in network". B. The volume of enrollment in Premera assists in negotiating higher discounts locally and nationally (with over 1.7 million members and over 127,000 of those are enrolled in a WEA medical plan). In addition to the WEA account, Premera provides coverage for many large, national accounts such as Microsoft, Amazon, Starbucks, Weyerhauser, Alaska Air, etc. c. BlueCard-Premera's national "Blue" network-has negotiated discounts that are the highest within the state and provides significant savings to Premera enrollees who travel or reside outside the Premera service area. D. Evidence-based medical initatives that allow Premera to provide efficient and cost-effective care as well as identifying appropriate alternative care based on the member's needs. E. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. F. Provider advisory groups for medical and pharmacy that continually monitor Premera's policies and procedures, and make changes to formularies to ensure they are appropriate and cost and care-efficient. G. Member 360 dashboard -proprietary tool that uses more than just claims to identify members with specific healthcare needs to make sure the enrollee is receiving cost-effective care in an appropriate setting. H. Plans include copayments for Emergency room services (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand name and specialty drugs. I. Programs that monitor controlled medical substances to provide protection for members. J. An open drug formulary that provides choice for members and their

		physicians while being prudent and ensuring the drugs are cost and care effective.
Carbonado School District	**Customer Service**	A. Premera provides a website with access to information about the employee benefits-this included a cost estimator which helps them determine what provider may require less out-of-pocket costs for the enrollee or their family. The website provides educational information about wellness programs and their plan benefits. C. Premera does independent surveys to measure member satisfaction and then puts a focus on making changes to improve satisfaction. D. Premera has "Ulyssess Learning" which leads to first call resolution and a higher level of overall satisfaction from enrollees. E. Premera's "Lean" workshop includes Customer Service, Claim and Billing processes which we continue to focus on in order to improve the member experience. F. WEA Select Plans-The dedicated Premera sales team provides year-round servicing and is available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera will work to resolve claim issues for the enrollees as well. This provides additional support to the district as well as direct support to the employees. G. WEA Select Plans - Semi-annual newsletters are sent to enrollees to educate them on their plans and access to information to help support decision making and healthier lifestyle decisions. H. WEA - has their own separate claim review process that allows enrollees to go before a board of their peers and have the claim upheld, denied or have an administrative allowance made. Enrollee input has assisted the WEA in developing additional benefits or modifications to their plans.
Carbonado School District	**Part-Time Employee Coverage Protection**	A. WEA Select Plans - when a full time employee's hours are deceased, Premera works with the enrollee to review other plan options that allow the individual to remain covered on a medical program. B. WEA Select Plans - added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and the HSHP Plan.
Carbonado School District	**Premium Differential Reduction**	A. WEA Select Plans passed on lower increases to dependents than to employee only tiers for the past two years. B. WEA Select Plans- added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and the HDHP Plan. C. WEA Select Plans- used the projected savings from the dependent eligibility audit to apply toward the dependent tiers to provide additional rate relief for family coverage

Cashmere School District	Premium Differential Reduction	As a member of PEBB, this differential is being addressed at the State level.
Castle Rock School District	Administrative Cost Reduction	We do not have administrative expenses as described in this survey. Although new reporting requirements and ESSB 5940 have contributed to increased costs.
Castle Rock School District	Cost Savings	We meet annually with Kaiser to review costs and look at other health provider company rates. The disctrict committee reviews and chooses the best plans with the lowest premiums for the year.
Castle Rock School District	Customer Service	A benefit fair is held annually, and health newsletters are provided periodically to all employees.
Castle Rock School District	Part-Time Employee Coverage Protection	Board policy and bargaining agreements provide for offers of coverage to all employees who work 17.5 hours or more per week. All plan options, including lower cost plans, are available to all employees.
Castle Rock School District	Premium Differential Reduction	We offer Easy Choice, Basic, and High Deductible plans that provide lower cost options. Also, the plans offered include composite rates for dependents.
Centerville School District	Administrative Cost Reduction	Providence Health Plan has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative cost with medical cost inflation. This has resulted in reduced percentage of premium administrative cost. As such, as much as 90%-91% of premium dollars go towards claims expense costs. PHP is also not required to refund any premiums due to not meeting the MLR (medical loss ratio) requirements of PPACA.
Centerville	Cost Savings	Providence Health Plan (PHP) continues to employ a robust care management program that aims to improve care outcomes for our members, ensuring that the right care is being received in the right place, at the right time. Care managers work in

Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Centralia School District	**Cost Savings**	The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. The premium rate for dependent children is the same whether there is one or more

		enrolled. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Centralia School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees.
Centralia School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Centralia School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Chehalis School District	**Administrative Cost Reduction**	We do not have a broker just the Premera plans and the overall administrative costs were reduced from 8.8% in 2005 to 5.9% in 2015.
Chehalis School District	**Cost Savings**	The premium rate for deendent children is the same whether there is on or more enrolled. Lots of medical choices available through the Blue Cross Pans that allow lower premiums. An open 4-tiered drug formulary that provided choice for enrollees.

District	Category	Efforts and Achievements
Chehalis School District	**Customer Service**	Provide several enrollment sessions for help in enrolling. Provide corresondence for all health care information available. One on one assistance available.
Chehalis School District	**Part-Time Employee Coverage Protection**	Low cost options are available to all employees. Pooling is available in each bargaining group with some individuals gaining a huge avantage based on the selections in the group. District contributes extra dollars to some of the bargaining groups to increase the pooling dollars.
Chehalis School District	**Premium Differential Reduction**	We offer lower cost options, EasyChoice, Basic Plan and QHDHP. All employees pay a minimum to help increase the pooling dollars available.
Cheney School District	**Administrative Cost Reduction**	We worked with our insurance consultant to switch from a % of premium commission to a flat per member per month fee that will limit future increases in commission costs, and not provide an automatic increase in commission every time the premium increases.
Cheney School District	**Cost Savings**	Cheney School District works with a consultant to monitor the health insurance market and available plan options for school districts. Our consultant shops the market for our medical, dental, vision, life, and disability plans on a periodic basis to ensure that we provide the best possible plans, rates, and service for our employees.
Cheney School District	**Customer Service**	Our benefits committee features representatives from each employee group at the district, along with administration and the district's benefit consultant. This group acts as a sounding board for employee needs, and allows for educational communication to be planned. We provide the opportunity for each of our employees to receive one-on-one counselling about the benefit options available to them and offer presentations to groups of employees on changes to plans, rates, and general education on insurance plans. We provide a benefits handbook with contact information for each service provider, along with summaries of each of the plans available to them. Our benefits fair provides employees with an opportunity to interact with benefit carriers and consultants to become more familiar with their plan offerings. We also provide periodic communications on helpful benefit topics, along with wellness topics.
Cheney School	**Part-Time**	We continue to provide coverage to part time employees, with eligibility requirements of .5 FTE for Certificated, Admin, or Non-

District	**Employee Coverage Protection**	represented employees, and 20 hours per week for classified staff. This eligibility requirement is lower than the federal requirement. Part time employees receive benefit allocations from the state, and are also eligible to participate in the pooling process in their respective bargaining groups.
Cheney School District	**Premium Differential Reduction**	See above under Affordability. We removed some of the more expensive plans that had been offered at the district historically for lower cost plans. Carriers are working to shift costs from families to employee only enrollees as well. We also provide group and individual consultations for each of our employees to ensure that each employee is choosing the best plan to meet their needs instead of the richest plan option available.
Chewelah School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Chewelah School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state

		and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective.

		I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Clover Park School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience.

		D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Clover Park School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Clover Park School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more

		enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Colfax School District	**Administrative Cost Reduction**	The District does not contract with a third party broker to provide their insurance. The business manager works with staff on their benefit options with information provided by the insurance companies. The business manager does receive insurance provider quotes and provides that information to union leadership.
Colfax School District	**Cost Savings**	Employees have access to a lot of resources to review to ensure they select the right plan for them. They have access to multiple plans that include lower premium options. The District also performs pooling for each employee group to decrease the amount of out of pocket for staff.
Colfax School District	**Customer Service**	Employees have access to health information on websites that include cost estimators, educational information, plan benefits, and wellness programs. Employees also receive newsletters from insurance companies providing information on a variety of topics. Employees also have access to call and work with insurance representatives.
Colfax School District	**Part-Time Employee Coverage Protection**	The district offers health insurance offers to all employees who work work half-time or 20 hours a week. The district offers a variety of plans to part staff that include lower cost options.
Colfax School District	**Premium Differential Reduction**	The insurance companies have gave lower premium increases to dependents than to employee only tiers. The District also offers lower cost options that include a high deductible plan. The District also requires each employee to pay at least $10 out of pocket for medical insurance regardless if their allocation covers their premium. These addtional funds are pooled together with other allocated funds to help decrease the cost of employees who are covering their dependents.
College Place School District	**Administrative Cost Reduction**	Work with carriers who keep their administrative costs low. Don't charge employees for any school district administrative costs. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in

District	Category	Efforts and Achievements
		Premera's "Lean" workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.6% in 2014. The administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 12 years. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. The percentage of WEA claims paid through auto adjudication remain some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
College Place School District	**Cost Savings**	Compare carriers costs and employee choices. Choose the carriers who best fit our employees requests and work with carriers who have a high number of in network providers. WEA Select Medical Plans through Premera: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Cosmopolis School District	**Part-Time Employee Coverage Protection**	The Disttrict offers all the WEA Plan through Premera.
Cosmopolis School District	**Premium Differential Reduction**	The District offers Pooling employees. The WEA Plains throght Premera, A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for Child(ren), meaning the rate for dependent children is the same whether there is one or more inrolled. D. Offer dependent children election COBRA coverage the child rate and not a subscriber rate.
Coulee-Hartline School District	**Administrative Cost Reduction**	Cost is minimal, district size is very small
Coulee-Hartline School District	**Cost Savings**	The district contracts with the PEBB Program, whose cost-saving measures include: • Managing the medical plans' prescription-drug costs by promoting generic drug use through a lower-cost benefit design. • Purchasing coverage for medical tools and procedures that are evidence based. • Adopting PEBB's dependent verification eligibility processes, to ensure only eligible family members receive benefits.
Coulee-Hartline	**Customer**	PEBB offers disease management, wellness programs, health assessments, etc.

District	Category	Efforts and Achievements
School District	Service	
Coulee-Hartline School District	Part-Time Employee Coverage Protection	District policy is that all half-time employees are eligible for insurance.
Coulee-Hartline School District	Premium Differential Reduction	The District chose the composite rate structure through PEBB which is in line with ESSB 5940. Increase in state dollar allocation for full family coverage would reduce the differential between employee only and a full family coverage.
Coupeville School District	Administrative Cost Reduction	We have worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Coupeville School District	Cost Savings	We have offered a Consumer Driven High Deductible Health Plan with an optional Health Savings Account since 10/1/12. We have established an Health Savings Account employer contribution of $125 per employee per month, resulting in an increase in pooling dollars. We have worked with an employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Coupeville School District	Customer Service	We have worked to provide improved customer service by providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates and vendor contact information. We host an emplyee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. We ensure that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. We also have regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Coupeville School District	Part-Time Employee Coverage Protection	We have continued to work with all purchasing/bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. We have also provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1, 2014

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
Coupeville School District	**Premium Differential Reduction**	We have done the following: Impletemented minimum contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. We have enccouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase in pooling dollars. We have established an HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. Lastly, we have worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents.
Crescent School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following:A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years.B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area.The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Crescent School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to

Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services.F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs.G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees.H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective.I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate.J. The premium rate for dependent children is the same whether there is one or more enrolled.K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services.L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay.M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put

		back into the insurance pool to reduce the cost for those with monthly co-premiums.
Crescent School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams:A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees.B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees.C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees.E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Crescent School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera:A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan.B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Crescent School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera:A. 		back into the insurance pool to reduce the cost for those with monthly co-premiums.
Damman School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Damman School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Damman School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Darrington School District	**Administrative Cost Reduction**	Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout

District	Category	Efforts and Achievements
		the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Darrington School District	**Cost Savings**	A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc.a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient.

District	Category	Efforts and Achievements
		E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Darrington	**Customer**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams:A. Provide a website with access to information about the employee's benefits, including a cost

		including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. Work with enrollees or their provider to address escalated or complex issues. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the Plans.
East Valley School District (Spokane)	**Part-Time Employee Coverage Protection**	Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available.
East Valley School District (Spokane)	**Premium Differential Reduction**	Lower increases were applied to dependents than to employee only tiers for the past four years. Added lower cost options, such as the EasyChoice plans (which have many first dollar benefits) and a HDHP. Dependent children electing COBRA coverage pay a child rate and not a subscriber rate. Each child does not pay a separate premium, as the child premium is a composite rate.
East Valley School District (Yakima)	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera' s Lean workshops so they can incorporate them in their own businesses - including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs. D. The district is utilizing AON Hewitt's online open enrollment process to reduce the amount of time spent processing hard copy forms.
East Valley School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
(Yakima)		and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrolles on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, inlcuding: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting- Premera has the highest number of providers "in network" in the state (resulting in 98% + if all paid claims are "in network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-pocket costs for enrollees on a WEA plan. b. BlueCard - (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care need. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard-Proprietary tool used by Premera Case managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate- Over age dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization - Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice - 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visists and generic drugs are covered with low copay.

		M. Waiver - employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
East Valley School District (Yakima)	**Customer Service**	Premera' s WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs, plan benefits, and house forms commonly used by employers and enrollees. B. Use "Ulysses Learning" - leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their providers to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to plans.
East Valley School District (Yakima)	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours (certificated) and 20.0 hours (classified) a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
East Valley School District	**Premium Differential**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent tiers than to employee only tiers.

Easton School District	**Administrative Cost Reduction**	PARTICIPATE IN HCA PEBB PLAN
Easton School District	**Cost Savings**	PARTICIPATE IN HCA PEBB PLAN
Easton School District	**Customer Service**	PARTICIPATE IN HCA PEBB PLAN
Easton School District	**Part-Time Employee Coverage Protection**	ALL ELIGIBLE EMPLOYEES ARE COVERED THROUGH HCA PEBB, ALL AT THE SAME RATE
Easton School District	**Premium Differential Reduction**	HCA PEBB RATES FULFILL THIS REQUIREMENT
Eatonville School District	**Administrative Cost Reduction**	Eatonville has reduced the cost of paper and additional internal administrative costs by offering an electronic platform that houses communication materials, forms, educational tools for employees and their families to access 24/7. We also negotitated with our Insurance Broker to Maintain their yearly fee for 3 years.
Eatonville School District	**Cost Savings**	Eatonville offers an interactive excel spreadsheet comparison that illustrates a high level side-by-side plan review of the estimated out-of-pocket. expenses that an employee and family will experience based on their estimated utilization of benefits and (pre-pooling) employee premium share. This gives employees and their families a better understanding of which plan could potentially be the best fit for them. In October 2013 we also changed our Medical Insurance from the WEA Premera Plans to Group health First Choice Options/Hmo Plans which saved well over the 17% increase in premiums WEA plans experienced.
Eatonville School District	**Customer Service**	Eatonville School District employees and their families have access to an Employee Service Advocate Programs available through our Employee Benefit Broker/Advisor. We have a benefits Committee that meets regualrly and brings comments/concerns from employees to the table for discussion. We hold educational sessions as necessary to keep our

		employees and their families informed. We hold annual benefits fair and send out monthly newsletters.
Eatonville School District	**Part-Time Employee Coverage Protection**	Our practice is to offer benefits to employees that work 17.5 hours and 20 hours per week depending on employee classification.
Eatonville School District	**Premium Differential Reduction**	Contribution strategy based on core Group Health First Choice Plan 4 plan as discribed on line #5.
Edmonds School District	**Administrative Cost Reduction**	Premera has been aleader in "Lean" thinking since 2005. The goal is to improve quality, enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Through "Lean" Premera had reduced administrative cost from 8.8% in 2005 to 5.9% in 2015. The administratove costs specific to the WEA pland is approximately 5% of the premium and had been under 6% for the last 13 year. The percentage of claims paid through auto adjudication remains some of the highest with Premera and Group Health, which reduces the need for manual intervention.
Edmonds School District	**Cost Savings**	The large number of Premera members helps Premera to negotiate greater discounts locally and nationally. Premera's large provider network results in 98% of claim being paid "in network", which results in lower claims costs. Blue Card (Premera's national network) has negotiated significant discounts which are passed on to Premera enrollees who travel or live outside the Premera service area. Evidenced-based medical initiatives allow Premera to provide cost-effective care as well as identify alternate care based on enrollees' needs. Provider advisory groups continue to monitor Premera's medical pharmacy & policy procedures and make changes to formularies to ensure they are at the appropriate level and tier. Member 360 Dashboard is a tool used to identify enrollees with specific healthcare needs and ensure they are receiving appropriate services. Our plans have instituted co-payment for ER visits & inpatient hospital admissions and higher co-payments for brand, non-preferred, and specialty drugs. Our programs monitor controlled medication substances to insure appropriate use for enrollees. Premera provides a open 4-tier drug formulary that provides choice for enrollees and their physicians while ensuring the drugs are care and cost-effective. Overage dependents pay the lower child rate for their COBRA premiums vs. the subscriber rate. The premium rate for children is the same reagrdless of the number of children covered on the plan. Prior authorization is required on some services before a planned medical service or procedure occurs - this provides financial protection and prevents

District	Category	Efforts and Achievements
		unnecessary services. Employees have the choice of 8 different medical plans within the district, which include lower cost plans such as the Basic Plan, Easy Choice, and and QHDHP. This allows employees to choose a lower cost plan that fits their needs.
Edmonds School District	**Customer Service**	All our carriers provide a website with access to information about employees' benefits. Each website includes tools about wellness, plan benefits, and health risk assessments.
Edmonds School District	**Part-Time Employee Coverage Protection**	The district has a long-time practice of offering and subsidizing coverage for part-time employees who work 17.5 hours per week or more (certificated @ .4 FTE or more per week). Also, the addition of lower cost plans through Premera (Easy Choice, Basic Plan & QHDHP) allows part-time employees a lower cost enrollment option.
Edmonds School District	**Premium Differential Reduction**	In some years we have applied lower increases to dependent tiers, we had added more low cost enrollment options to our menu of plans, we have a compisite rate for child coverage (the cost of coverage is the same if you have 1 child or multiple children) and we offer the dependent COBRA rate to children electing COBRA vs. the requiring the subscriber rate, which is higher.
Ellensburg School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficency while eliminating non- value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evlauate and improve external/ internal processes throughout the orginzation. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business - including the State of Washington, various provifer groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative cost specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard providers siginficant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on

District	Category	Efforts and Achievements
		payments for services and lower administration costs.
		GROUP HEALTH: In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best services to our customers. On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete . The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquistion process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their exsiting health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and captial that will expand our capcaity to care for and attract more people in Washington State.
Ellensburg School District	**Cost Savings**	The WEA Select Medicial Plans throug Premera provide the following cost saving measures: A. The high number of Pemera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110, 000 enrolleed, Premera also provides coverage to enrollees on the state exchange, individual, small and large group accounts. Futhermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Weyerhaeuser, Alaska Air Group, etc. a. Provider Contracting- Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are " in network"). Substantial provider discounts result in lowet claims cost for enrolleed on a WEA plan. b. BlueCard- (Premera's national "BLUE" network) has negotiated siginificant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area.

		B. Evidence - based medical initiatives that allow Premera to provide efficient and cost - effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real - time access to consumer decision - support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensire they are receiving the appropriate services. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees specific healthcare needs and ensure they are recieving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospotal admissions, and higher copayments for brand, non - preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4 - tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care - effective. I. Child COBRA Rate - Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more cancelled. K. Prior Authorization - Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice - 7 freestanding medical plans avaliable statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are avaliable such as the Basic, QHDHP,and the Easychoice Plan. The Easychoice Plan provides several options all at the same rate. It was developed so employees could pick

District	Category	Efforts and Achievements
		the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs covered with low copay. M. Waiver - employees can waive medical coverage under WEA, any left - over state allocation is put back into the insurance pool to reduce the cost fot those with monthly co- premiums. GROUP HEALTH: We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls. We Offer patient - centered care that promotes collaboration between physicians, specialist, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result ina a more productivr workforce and lower overall costs. In order to ensure claims timeliness and accuracy, we have online sustems that catch inappropriate billing, review coding, and identify duplicate billings and COB/ subrogration opportunities. We perform pre-payment review of high dollar claims and post -payment audits. Group Health recently selected OptumRX to handle our pharmacy benefits management (cliams and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry - leading capabilities to better manage the fastest growing component of health care costs into the future. Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able tp achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this preformance is fewer readmissions and lower total cost of care. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and finicial data to track utilization trends, patient outcomes, and provider performance and better manange the total cost of care and identify improvement opportunites. Group Health Care Management uses a number of approaches to identify individuals with utilization of speific services and overall high utilization. Specifically, we use predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also recive routine reports of members with high ultilization of Emergency Department Services. Additionally, we work with one of our purchasers around ED utilization for

		GROUP HEALTH : In addition to the specific innovations listed in the next Section, Group Health offers the following innovative services: a. Health Coaching - Group Health provides Health Coaching to all of our adult members. Coaches are health care professionals who are skilled in movtiational interviewing. These health coaches provide telephonic coaching to our enrolless to improve their readiness to engage in healthier behaviours. Primary areas of focus include nutrition, physical activity, early depression, and tobacco cessation. Depending on their answers to the Health Profile, members may be contacted buy a coach who can help them meet their personal health goals. Patients can also reach out directly to coaches for assistance or be referred to a coach by a member of their care team. b. Share Decision - Making Tools: To help members make decisions related to elective surgical procedures. Group Health is using shared decision making aids for 12 preference - sensitive health conditions. With topics such as knee and hip arthritis, back problems, and heart disease, the videos give members a detailed rundown on their medical condition, the treatment options, and how differing treatments will affect their lives. Through the shared decision making process, members and their physicians can engage in an active, informed discussion about the benefits - and possible downsides - of a surgical procedure. The goal: health care that reflects a member's values amd priorities, rather than only what a medical diagnosis reccommends. Group Health is not only aiming to change our own standards for assuring our patients make well informed decisions, we are also leading public poilcy and clinical collaborative efforts at both the state and national levels to take aim at unwarranted variation, in part through promoting wide scale adoption of shared decision making.
Ellensburg School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage fot part -time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contibuting towards ths cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premuims. Additionally, QHDHP is avaliable.

		GROUP HEALTH: We continue to provide coverage to part time employees, down to 10 hours per week. This eligibility requirement is lowe than the federal requirement. Part time employees receive benefit allocations from the state, and are also eligible to participate in the pooling process in their respective bargaining groups. Group Health allows access for part-time employees working a minimum of 10 hours per week.
Ellensburg School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate teirs than to employee only teirs. B. Offer lower cost options, such as EasyChoice plan and the Basic Plan and QHDHP. C. Includes composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coberage the child rate and not a subscriber rate.
		GROUP HEALTH: According to the Year 3 K - 12 Health Benefits Data Collection Report from OIC to the Washington State Legislature, Ellensburg School District had a 4.536:1 ratio for Year 3, the 2014-2015 plan year, compared to 5.06:1 for Year 2.
Elma School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in

District	Category	Efforts and Achievements
		2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Elma School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient.

		E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Elma School	**Customer**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in

District	Coverage Protection	offer options for all employees needs.
Everett School District	Premium Differential Reduction	1-We continue to meet this requirement with all of our plan offerings for the percentages that the legislature has required of school districts.
Evergreen School District (Clark)	Administrative Cost Reduction	Consolidating our insurance plans under a broker has permitted the District to realize a cost savings related to the management of our insurances offered to our employees, resulting in rates that are lower.
Evergreen School District (Clark)	Cost Savings	District's Insurance Committee has reviewed rate increases and have in some cases made changes to coverages to permit a lower rate increase for our employees.
Evergreen School District (Clark)	Customer Service	All of our medical vendors have websites to assist those with coverage in their plans as well as our broker has specific websites for each of our different union groups that provide specific information related to the coverages offered to their specific union group. The broker also provides customer service via telephone.
Evergreen School District (Clark)	Part-Time Employee Coverage Protection	District provides insurance pooling for all union groups that permit part time employees to have access to additional funds for medical premiums they incur. District also provides some additional dollars for the part time hourly staff in the insurance pooling process.
Evergreen School District (Clark)	Premium Differential Reduction	District has in place a minimum 3% of their medical premium deduction that all employees pay, resulting in a higher amount of dollars available in the insurance pooling for those employees with higher out of pocket expense for their insurance coverage premiums.
Evergreen School District	Administrative Cost Reduction	Due to the small size of Evergreen, we do not have any direct administrative overhead related to providing our employees with benefits.

Washington State Office of the Insurance Commissioner

(Stevens)		
Evergreen School District (Stevens)	Cost Savings	Evergreen continues to use WEA as the primary benefits provider and we rely on them to make sure that we continue to get the best possible rates.
Evergreen School District (Stevens)	Customer Service	Through Aon Hewitt's new employee portal website, employee's now have the ability to see there benefit information as well as make changes during open enrollment.
Evergreen School District (Stevens)	Part-Time Employee Coverage Protection	Evergreen School District has continued to offer benefits to all part time employees that work on a regular basis based upon their FTE. The district plans to continue this practice in the foreseeable future.
Evergreen School District (Stevens)	Premium Differential Reduction	The mix of employee's at Evergreen School District has been such that we do not have any full family coverage, therefore, this has not been a point of focus for our district.
Federal Way School District	Administrative Cost Reduction	FWPS's administrative expenses for health care are nominal.
Federal Way School District	Cost Savings	We continue to review our medical insurance choices to see if there are any areas we can save on or reduce the cost to the employee.
Federal Way School District	Customer Service	A. We continue to struggle with information sharing for our WEA sponsored plans. While customer service has improved there is still an issue with timely reporting which leads to make up payments and / or premium adjustments every month. This not only affects the employer cost but also the employee's out of pocket premium. Between the 10 day hiring rule, the 30 day enrollment period and the weekly information reporting there is no way to prevent these situations but we do work closely with those employees to minimize the impact to their monthly payroll. B. We hold a benefit fair each year in an outreach effort to educate employee on the changes in coverage and what choices they can make to reduce

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		their costs. C. Benefit Booklets are prepared and posted on the District web site. We send a few hard copies to each site. D. In addition to a standing Benefits Committee, District staff are often invited to various union meetings to discuss various benefit offerings.
Federal Way School District	**Part-Time Employee Coverage Protection**	Classified employees working a minimum of 20 hours per week during the school year are eligible for medical coverage. Certificated employees working 1/2 time or more are eligible for medical coverage. While state funding formulas translate the difference between certificated and classified "FTE" (1440 hours vs 2080 hours) as a 1.152 adjustment, classified staff in FWPS for benefit purposes are treated the same way as certificated staff. We added another lower cost plan this year. We are moving to the 3:1 ratio so that those employees with employee only coverage subsidize those covering dependents.
Federal Way School District	**Premium Differential Reduction**	We have a high deductible medical plan along with a medical spending account. We continue to pool the employer benefit dollars allocated to each group. We have worked to educate employees on the impact of their choice of coverage so people do not cover more than they need to. We have included the possible 3:1 ratio in our contract negotiations with our various bargaining units. We are working out a process to implement the 3:1 in our pooling.
Ferndale School District	**Administrative Cost Reduction**	By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible.
Ferndale School District	**Cost Savings**	We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/12. 2. Use of purchasing consortium/interlocal to purchase some benefits at a lower cost across several districts.
Ferndale School District	**Customer Service**	We have worked to provide improved customer service by: 1. Providing a comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. 3. Ensuring that all health plans offered provide a comprehensive nurse line and telephonic customer service and support for all members. 4. Continuing to work with AON Hewitt's online tool for those eligible employees.
Ferndale School District	**Part-Time Employee**	We have continued to work with all bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefit needs.

Washington State Office of the Insurance Commissioner

	Coverage Protection	
Ferndale School District	Premium Differential Reduction	We have done the following: 1.Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. 2. We offer pooling in all bargaining groups. 3.Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 4. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars.
Fife School District	Administrative Cost Reduction	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on

District	Category	Efforts and Achievements
Pierce School District	**Cost Reduction**	Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non value added time work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes. Other organizations participate in Premera's "Lean" workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.6% in 2014. The administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remain some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Franklin Pierce School District	**Cost Savings**	1. Evaluate on a yearly basis which plans may cost less for our empoyees and evaluate if they are worth changing to. 2. WEA A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs.

Grand Coulee Dam School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available.
Grand Coulee Dam School District	**Premium Differential Reduction**	WEA Select Medical Plans through Premera: A. Lower increases were applied to dependents than to employee only tiers for the past four years. B. Added lower cost options, such as the EasyChoice plans (which have many first dollar benefits) and a HDHP. C. Dependent children electing COBRA coverage pay a child rate and not a subscriber rate. D. Each child does not pay a separate premium, as the child premium is a composite rate.
Grandview School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve

District	Category	Efforts and Achievements
		the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Grandview School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs.

		C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay.

		M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Grandview School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.

Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 3-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services.

District	Category	Efforts and Achievements
		L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the HDHP or the EasyChoice Plan. The EasyChoice Plan provides three options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered in full. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Green Mountain School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve satisfaction. C. Use "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Through Field Service staff, provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees.

		F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. G. Work with enrollees or their provider to address escalated or complex issues. H. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the Plans.
Green Mountain School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available.
Green Mountain School District	**Premium Differential Reduction**	WEA Select Medical Plans through Premera: A. Lower increases were applied to dependents than to employee only tiers for the past four years. B. Added lower cost options, such as the EasyChoice plans (which have many first dollar benefits) and a HDHP. C. Dependent children electing COBRA coverage pay a child rate and not a subscriber rate. D. Each child does not pay a separate premium, as the child premium is a composite rate.
Griffin School	**Administrative**	The WEA Select Medical Plans through Premera have reduced admin costs through the following:

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
District	**Cost Reduction**	A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Griffin School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify

District	Category	Efforts and Achievements
		appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. School District	**Reduction**	
Highline School District	**Administrative Cost Reduction**	1. By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Highline School District	**Cost Savings**	… We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012. 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars.

District	Category	Efforts and Achievements

District	Category	Efforts and Achievements
		G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Highline School District	**Part-Time Employee Coverage Protection**	1. We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. 2. Provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014. The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Highline School District	**Premium Differential Reduction**	… We have done the following: 1. Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 3. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums,

District	Category	Efforts and Achievements
		which would increase pooling dollars available to those covering dependents. 5. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Highline School District ranked 45th out of 116 districts with more than 100 employees for the 2013-14 school year. Highline's equity ratio, multiple was 8.4 compared to an average multiple of 11.3 for the rest of the 116 districts. The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Hockinson School District	**Administrative Cost Reduction**	District: 1) We educated our staff on their options. We educated on how to compare plans as a whole not just based on the premium cost. In many instances folks chose plans with higher deductibles which in turn lowered premium costs. What they saved in premium cost would cover worst case scenario of having to meet the maximum out of pocket cost. 2) We created spreadsheets with various plan bundles at each tier level so they could see how much their state dollars would buy them. We paired this with Summary of Benefits so they could compare plan values. We also educate them on using flexible spending and voluntary plans such as accident insurance, critical illness, cancer all of which have hospital indemnity components. We continue to educate on the use of QHDHP paired with an HSA.

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		3) We had an instruction sheet on what paperwork needed to be completed for each plan. 4) We have a website for benefits so all plans, summary of benefits and enrollment forms are in one spot. 5) We held a very well attended Benefits Fair where our carriers attended and provided education to staff. It seemed to streamline the process. REGENCE BCBS: 1) Regence has in place multiple review and audit processes and prcedures in place, including the use of external vendor partners, to limit billing discrepancies saving in the overall administative costs. The negotiated discounts continue to allow Regence to have strong provider pricing that affects our overall administrative costs as well.

		KAISER: Kaiser Permanente Northwest (KPNW) has adopted a Lean Six Sigma management system and has been building the capability since 2006. This innovative approach includes National Labor Management Partnership at the frontline level. This system is based on the attributes of high-performing organizations and incorporates features of quality management systems—including Lean, Six Sigma, and the Institute for Healthcare Improvement's Model for Improvement. KPNW currently has a Greenbelt and Blackbelt program for our leaders and entire organization with 15 certified Blackbelts and 45 certified Greenbelts. In addition our National Improvement Institute program has trained over 400 frontline teams. Annual advanced skill training in process improvement is provided to our frontline teams for continuous development of these skill sets. Our Lean Six Sigma Journey continues in 2013 and includes the following: • Green Belt Certification Program • Rapid Improvement Event Program • Sponsor/Champion Program • Consultant Development Program • Experiential learning in Lean/Six Sigma tools and approaches for Leaders

		A number of managers have become Lean certified through creating systems improvements in scheduling, back office process design, and interdepartmental communication.
		Our Major focus in 2012, 2013, 2014 and 2015 has been to improve the service experience by enabling more care inside our own system and by improving access. We were able to achieve breakthrough performance changes in both areas.
		Specific examples of internalizations that have also improved service are Ventricular Assist Device, Retinal Surgery, Oncology in the Salem area, and Dialysis Access.
Hockinson School District	**Cost Savings**	District:
		The district continues to educate employees on SB5940, Affordable Care Act and Cadillac Tax as well as making thoughtful choices when selecting their insurance plans.
		The district negotiated out Long Term Disability from state allotment to a district expense to help the pool on all certificated and classified employees. This roughly equates to a 1% benefit to the pool.
		The district shares information via email on a regular basis to our employees on ways to stay healthy. Our carriers provide us with information on a monthly basis as does our Director of Food Services. These topics include information on eating health, exercise, healthy habits, flu shot clinics. We view this a preventative measures - keeping the focus on health instead of

District	Category	Efforts and Achievements
		healthcare! The district continually tries to educate staff when making health care elections. We talk about using insurance appropriately i.e. making an appointment vs. urgent care, using urgent care instead of emergency room. We explain how preventative measures can help keep costs down and in turn keep premiums down. EMPLOYEE: Each employee contributes between 9.5% - 13.7% to the pool by keeping dental out of state allotment and agreeing to pay a minimum premium charge (certs). CARRIERS: REGENCE BC/BS Strong proivider discounts result in lower claims cost for the plan and lower out-of-pocket costs for enrollees on the Hockinson School District Regence plan. Regence BCBS of Oregon plan has the largest national and local network of any carrier. The BlueCard program and network has negotiated significant discounts when seeing services outside of our 4 state territory (OR,WA, UT, ID).

		KAISER PERMANENTE: • In 2015, we are building on success and momentum from 2013 -2014 performance to execute over $100m in initiatives through internalization, elimination of waste and care transformation. • Expanded Onsite Wellness Partnerships • The Drug Utilization Action Team is continuing improvement in pharmaceutical costs by effective and timely conversions to generic products, working with providers to ensure appropriate usage and prescribing patterns, and leveraging lower cost formulary products whenever clinically appropriate. Current work also includes providing unblinded data on physician prescribing patterns by provider name, location, and specialty for specific targeted drugs. Individual physicians have access on a protected website with click-through graphics and comparisons. This initiative saved over $30M in 2012. Since the inception of this initiative in 2006, it has saved KPNW over $150M. We have several advantages inherent to our model which facilitate appropriate clinical and financial incentives to optimally manage specialty care, hospital care, ancillary care, and home health care. Our physician payment model is a combination of salary and variable compensation. The variable compensation is based on achieving key service, access, quality, resource stewardship, and productivity targets. Outcomes are tracked, reported and managed regularly using transparent data. We are able to deliver all of the elements listed within the current Kaiser Permanente delivery system. Our “glue” is our electronic medical record that is built around the patient with all elements of the delivery system using this singular tool. Our strength is the integration of our delivery system. We are one entity, so we have solved the financial issue around incentives for coordination and cooperation. Northwest Permanente P.C. (NWP) is an integrated medical group that includes Primary Care and Specialty Care together under

District	Category	Efforts and Achievements
		one organizational umbrella. All providers are salaried with pay for performance incentives which are balanced between Quality/Evidence-Based Medicine, Service, Productivity and Resource Stewardship. This reimbursement model creates appropriate alignment to deliver high-quality affordable care. We do not have an incentive payment model that results in perverse incentives to over-treat and compromise our commitment to evidence based medicine. We not only embed evidence-based guidelines into our electronic medical record, we design our referral process around the proper scope of practice between primary and specialty care. The electronic referral process is mutually worked by both primary and specialty care and uses evidence based medicine, and expert consensus opinion. This process discourages unnecessary variation in care for common conditions.
		We use shared decision making to determine when a specialist or test is needed, but remain focused on the voice of the customer through the process. We ensure through our electronic systems that we do not duplicate tests. We have significantly reduced our re-admission rates through our transitions in care process which connects patients to primary care and pharmacy upon discharge.
		Evidence-based guidelines are embedded into our electronic medical record. We have established agreements on evidence, and indications to allow primary care referrals to specialty care and specialist referrals to outside consultants for unusual circumstances. We track referrals regularly to monitor appropriate utilization and staffing needs. We track imaging utilization down to the individual provider level for critical imaging services in order to support evidence-based ordering.
		The Kaiser Permanente Dental Care Program (KPDCP) has demonstrated with multi?disciplinary clinical teams, care coordination and integration with our medical services, that we are totally committed to fully integrate our dental capability within this total health model. Our Dental Care Program envisions a future where our dental and medical providers work side-by?side at a heightened level to coordinate our members' care. When both medical and dental plans are with Kaiser

District	Category	Efforts and Achievements
		Permanente, members have access to: • Services in one convenient location, or nearby: doctors, dentists, optometrists, pharmacy and lab. • The ability to fill prescriptions at a Kaiser Permanente pharmacy located near, and sometimes, at the same location as the dental office. • An integrated care model with our dental offices having access to pertinent member electronic medical information to help identify preventive screening gaps and provide member reminders for medical tests that are due. • Electronic medical records dentists can access with the most updated list of medications and allergies. This ensures the unparalleled safety for patients that are receiving care in our integrated model • Screenings at dental appointments to check for signs of diabetes, high blood pressure, and oral cancers with direct referrals made to a Kaiser Permanente medical physician when risks are identified. • Use of Kaiser Permanente medical Tumor Registry TRAK electronic system for all oral tissue biopsies performed in the dental care program. This registry records biopsy results and tracks cases to ensure follow?up is appropriate and timely. • Tobacco use screening for patients over the age of 13 at every exam appointment, and offered referral assistance to health coaches for those members who want assistance in quitting smoking. We partner with community providers, including OHSU, Salem Hospital, Providence St. Vincent, and Legacy Salmon Creek Medical Center, along with others to provide care to our members. Our relationships with strategic hospital partners and providers are designed to closely mirror our Kaiser Permanente integrated care model. For example, Northwest Permanente

District	Category	Efforts and Achievements
		hospitalists and specialists are part of the hospitals' medical staff, and retain the responsibility of managing Kaiser Permanente members onsite at the contracted hospitals. Maximum integration of the hospitals' and IT systems to ensure timely exchange of clinical data in support of patient care is an essential component of our relationships with our hospital partners. Northwest Permanente physicians actively collaborate with other physicians and hospital administration on joint quality improvement projects, and routinely share best practices to improve, not just the health of KP members, but the health of the community of patients served by the hospital. Performance-based payment models are included in the contracts with our strategic hospital partners as well as our medical group partner, The Portland Clinic. We collaborate closely to select measures that will positively impact quality, patient satisfaction, and safety, and that have the greatest potential for positively impacting the care of the entire patient population served by the hospital or clinic. Selected hospital metrics include readmission rates, patient falls, surgical site infection rates, and patient satisfaction with care received at that hospital. We set yearly inpatient utilization targets using PDR (patient day rate) and track them regionally and by medical office. We have a focused approach to optimizing inpatient care and utilization which we call IQM (inpatient quality management). The key elements of IQM are: • Ensure patients receive the right care in the right place, at the right time, with the right person. o Hospitalists make all medical admission decisions and determine appropriateness. If the patient needs a specialty admission,

District	Category	Efforts and Achievements
		the specialist makes the decision (this approach contrasts with many systems in which admission decisions are made primarily by ED clinicians). • Systems to ensure an appropriate "pause" to be sure all providers agree on the planned admission. • Systems to ensure exceptional communication between hospitalists, Emergency Department (ED) clinicians, and specialists. • Care coordinators are paired with ED, hospitalist teams and specialty teams. • The admission teams are expected to plan the length of stay. • Formal IQM rounds 3 days/week at Kaiser Sunnyside Medical Center (KSMC) to identify any system issues that are delaying necessary care. • Our Skilled Nursing team is linked in with KSMC care coordinators to optimize timely placement of patients to Skilled Nursing Facilities. • Our IQM rounds focus on the most common issues that delay care and result in lack of optimal care (uncontrolled pain, unidentified palliative care issues, long lengths of stay, family and social issues). We also track short length of stays to determine if there were potential alternatives to admission. The core elements we track and monitor to ensure we deliver excellent inpatient care include: • Patient Day Rate across the region and by medical office building.

District	Category	Efforts and Achievements
		• Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) scores. The HCAHPS survey is a national, standardized, publicly reported survey of patients' perspectives of hospital care. We believe that as we improve communication and patient engagement, our HCAHPS scores improve and IQM improves. HCAHPS scores are individually measured by hospitalists and part of their performance evaluations. We have a dedicated team of physicians who are dedicated to ongoing improvements in physician communication with hospital staff, patients and families. • Readmission rate is tracked overall for all hospitals and down to the individual clinician level when appropriate. We have a Transitions team that reviews all readmissions to identify potentially avoidable readmissions. • Length of Stay is tracked to individual hospitalists and by specialty department and in selected circumstances to the individual specialist. o Hospital acuity adjusted mortality o TJC measures • Our pathology department leads efforts to ensure appropriate laboratory testing utilization. • Productivity targets set against national and local hospital benchmarks and departmental level tracking of performance utilizing Action OI national hospital database (Action OI (operational improvement) from Truven Health Analytics, formerly Thomson Reuters, is a database that contains operational benchmarks for the hospital industry). We have systems in place to ensure that the patients get the appropriate timely follow up in both primary and specialty care. Also, similar to the after-visit summary given to patients after every visit, the patient receives a personalized hospital discharge summary that is part of their global electronic medical record. This includes information about his or her hospital course, instructions, medications, follow-up plans, as well as whom to call.

		Our dedicated preventive approach provides a remarkable combination of lower-cost, higher-quality care. Because we're set up differently, we're aligned to better deliver what matters to you: improved health, better clinical outcomes, more value, and consistent service.
Hockinson School District	**Customer Service**	DISTRICT: We held a fantastic benefits fair with representatives from our carriers where they could learn more about specific plans. We also have a website where employees can go to get information on plans, summary of benefit coverage and enrollment forms. REGENCE BCBS: Regence BCBS of Oregon has the largest national and local network of any carrier. The Regence network has 9,300 of Oregon and SW Washington doctors and 59 Oregon and SW Washington hospitals guaranteeing strong provider discounts. Our pharmacy team, OmedaRx, was recently recognized by ICER for our excellence in health technology assessment. With pharmacy trend costs on the rise, you can be assured that OmedaRx and Regence will be ahead of the curve in our tools, services and pricing. The on-line Treatment Cost Estimator tool on regence.com allows members to research the cost of a specific treatment and shop for the most appropriate provider (via reviews, overall cost and location). There are multiple self-help tools and resources on the regence.com website that all members can access and review. Our Customer Service receives top marks for their commitment to helping provide employees with the most appropriate information. KAISER: Kaiser Foundation Health Plan of the Northwest received the highest numerical score among commercial health plans in the

		Northwest region in the proprietary J.D.Power and Associates 2012 U.S. Member Health Plan Studysm (jdpower.com). Proprietary study results are based on experience and perceptions for members surveyed December 2012 – January 2012. One way we provide better service to Washington School District employees is by providing a variety of clinical access alternatives that make it easy for school employees to access their physicans in a variety of ways. For example, employees can email their physicians, view lab results online, have telephone consultations with their physicians and access a 24 hour nurse advice line all at no additional cost or time away from work. Quality Improvement Practices we are currently undertaking • Reduction of Surgical Site Infections Kaiser Sunnyside Medical Center (KSMC) o In 2010, reduced surgical site infections by 36% overall. o Used a Lean approach to standardize certain surgical tasks, surgical apparel, and body temperature regulation. o As a result, the patients are not exposed to an unnecessary risk of infection and their inpatient stays are not extended due to infection. • Culture of Safety Work including Patient Safety University in the ED o Implemented staff surveys to assess culture at the work-team level. o Added a patient advocate to the hospital's Quality Council, with a commitment to initiate a Patient Advisory Council in 2012.

District	Category	Efforts and Achievements
		o Trained a pilot group of surgeons on specific behaviors designed to improve communication in the operating room. o Implemented surgical checklists and pre- and post-operative briefings. o This work produces higher quality and safer care for each patient that is hospitalized. • Contracted with Pascal to improve safety culture and teamwork in the ED. • Glycemic Control project (across ED and Patient Floors KSMC) o Reduced 30-day readmission rates from 20% to 15% or lower (surpassed target of 18.34%) for diabetic patients in 2011. Since 2008 the organization has achieved a 15% improvement in the percentage of blood sugar tests that result within the targeted range 100% of the time. o Successful pilot demonstrated that a diabetic patient's duration in the hospital is decreased if he or she receives coordinated follow-up following discharge from the hospital. o Integration with Transition and Ambulatory Care and engagement with member, family and care givers contributes to decreased readmission rates • Sepsis and Early Goal Directed Therapy on patient floors at KSMC o Reduced mortality rates from sepsis from 11.6% (2009) to 6.7% (2011). o Oral Health Classification System (OHCS) – the OHCS will be outcome-based and allow us to measure the dental wellness of an employer group. It will:

District	Category	Efforts and Achievements
		o Establish parameters to define the oral health of a member population/subpopulation. o Consist of four Oral Health indicator levels (OHI-1, OHI-2, OHI-3, OHI- • Use the OHI as a monitor to target at-risk groups (requiring emergent periodontal needs, caries control, root canals, extractions etc) and more expeditiously introduce preventive measures by vectoring resources to these populations. o Result in improved and sustained oral and consequently total health for our members and cost savings for employer groups. • Proactive Panel Support o Pharmacist and support staff provide consistent population and evidenced-based proactive care (patient engagement, healthy lifestyles, treat to target, adherence, medication reconciliation, etc.) to all members of eligible populations. Current focus includes Diabetes, Hypertension, and Cardiovascular Risk. • Unit-Based Team Process Improvement to streamline processes and decrease wait time of New Insulin Start Program o RN Case Managers worked on process maps and applied lean principles to streamline work. Wait time decreased from 8 weeks to < 1 week •Piloting Webinar Nutrition and Health Education classes. o Member feedback indicates webinar forums would be favored. Preliminary results indicate good participation. Expanding to other topics and experimenting with delivery formats and times. • RN Complex Case Management which meets NCQA standards o Re-defined populations

District	Category	Efforts and Achievements
		o Re-defined processes, developed HC tools and trained staff to provide consistent, documented complex case management o Enhanced patient engagement, patient-centered goal setting, extensive assessment, assessment of readiness, and consistent documentation of action plans • Diabetes One Stop – Successful pilot, rolled out to all members in all clinics. Provides Navigation support for diabetes members. Includes targeted outreach, in-reach, and provides a robust triage function. oFurther coordinated in-reach and outreach with a focus on healthcare disparities to further improve colorectal cancer screening rates • Preventing Heart Attacks and Strokes Everyday (PHASE) – helping High-risk cardiovascular patients improve blood pressure control rates, lipids, glucose, and advocate tobacco cessation
Hockinson School District	**Part-Time Employee Coverage Protection**	District: The district offers 7 different medical plans to offer a wide variety in plans to meet the needs of different employee groups. We offer benefits to employees working as little as 17.5 hours per week so it was important to have plans such as the QHDHP and the $1,000 deductible plans by both Regence and Kaiser to havea affordable premiums for those working less hours and have a reduced income. Carriers: Worked diligently to ensure we had affordable plan offerings for our lower income earners.

School District	Differential Reduction	District is paying for LTD instead of state allotment dollars so that more can go towards medical and this helps the pool. Employees: All employees of the district have eliminated dental insurance from the state allotment funds which equates to a 9-10% contribution to the pool. Certificated staff contribute a minimum premium charge of $10 per month to help the pool. Regence BCBS: Regence looked at all plans as a whole and changed benefit levels based on participation in plans to keep premium costs down. This enabled them to reduce renewal rates form their initial proposal. Kaiser Permanente: Rather than lowering cost differentials to favor family coverage, Kaiser used cost saving efforts to keep total rate package affordable. On average we had a 2.5% REDUCTION in premiums for the 15/16 school year.

Hood Canal School District	**Administrative Cost Reduction**	WEA's administrative costs have been under 6% for over 11 years.
Hood Canal School District	**Cost Savings**	Provider contracting - Premera has the hightest number of providers "in network" in the state.
Hood Canal School District	**Customer Service**	Provides a website with access to information about the employee's benefits which inclues a cost estimator to help the employee determine which plan has less out-of-pocket expenses.
Hood Canal School District	**Part-Time Employee Coverage Protection**	Added lower cost options, such as the EasyChoice and Basic plan that have lower premiums and many first dollar benefits, and also added the HDHP Plan.
Hood Canal School District	**Premium Differential Reduction**	Added lower cost options, such as the EasyChoice and Basic plan that have lower premiums and many first dollar benefits, and also added the HDHP Plan.
Hoquiam School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduces admin costs through the following: A. Premera has been the leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve the enrollee experience, and improve effeciency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them into their own business- including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative

		costs.
Hoquiam School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The night number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,00 enrolees, Premera also provides coverage to enrollees on state Exchange, individual, small and large group accounts. Furthermore, Premera also provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a- Provider contracting- Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in network"). Substantial provider discounts result in lower out-of-pocket costs for enrollees on a WEA plan. b- BlueCard- (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical incentives that allow Premera to provide effecient and cost-effecient care as well as to identify appropriate alternative care based on the enrollee needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard- Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for impatient hospital admissions, and high copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered grug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drug are cost and care-effective. I. Child COBRA Rate- Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization- Some services require an approval for coverage from Premera before a planned medical serviceor procedure occurs, which provides financial protection and prevens unnecessary services. L. Choice- 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver- employees can waive medical coverage under WEA. Any leftover state allocation is put back into the insurance pool to

		reduce the cost for those with monthly co=premiums.
Hoquiam School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs, plan benefits, and house forms commonly used by employers and enrollees. B. Use "Ulysses Learning" - leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefits and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to make modifications to processes or benefit changes to the plans.
Hoquiam School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as EashChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Hoquiam School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meansing the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.

Keller School District	**Administrative Cost Reduction**	Due to the small size of Keller School District we are fortunate to no have any direct administrative costs relating to benefits. All time spent on managing benefits is absorbed into the Business Management Contract that Keller has with the local ESD.
Keller School District	**Cost Savings**	We always encourage our staff to make healthy life choices and strive to support healthy lifesyles that will in turn keep health care costs down. We currently have a walking group at lunch (as weather permits) and many employee's that are participating in a friendlyweightloss compitetion between co-workers.
Keller School District	**Customer Service**	We have ensured the employee's have access to assistance for logging into the Aon Hewitt site. From this site they can review their beenfits and make changesg during open enrollment.
Keller School District	**Part-Time Employee Coverage Protection**	Keller School District Continues to offer benefits to all part time employees based upon their FTE.
Keller School District	**Premium Differential Reduction**	We have been reliant in the area on the premiums that are set by Premera. As a small District with a couple of employee's that waive medical we have been able to help subsidize full family coverage with our pooling efforts.
Kelso School District	**Administrative Cost Reduction**	The district has a broker to assist with benefits instead of having an employee dedicated to benefits. The cost is much less and the responsibilities in the district are spread among staff. The WEA Select Medical Plans through Premera have reduced admin costs through the following:

District	Category	Efforts and Achievements
		A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Kelso School District	**Cost Savings**	The District bids and compares rates every year by our brokers. The district has representatives from each bargaining group that is part of the benefits committee. Together they decide which options the district will choose. The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera

District	Category	Efforts and Achievements
		enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse

District	Category	Efforts and Achievements
		needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Kelso School District	**Customer Service**	The District sends out constant communication about changes and open enrollment via email, flyers, post cards, newsletters, and the benefits fair. Benefit information is discussed during new employee orientation. Our website has a benefits page for where employees can go and get information about each of the available benefits. All of the HR/Payroll staff are trained on benefits and able to assist employees with questions or direct them appropriately. Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics

		including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Kelso School District	**Part-Time Employee Coverage Protection**	The District's bargaining units have medical benefits bargained into their bargaining agreements. We also have a benefits committee made up fo members from each bargaining unit. The committee makes the decisions on options for the plans. The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Kelso School District	**Premium Differential Reduction**	The District offeres multiple plans with a variety of choices. Bargained with each of our bargaining groups for a 3.5% minimum premium payment for each employee. Employees that normally wouldn't pay out of pocket now pay 3.5% of the premium. This helps the pooling amount that is spread to fully family coverage employees. The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled.

Kennewick School District	**Part-Time Employee Coverage Protection**	A) Part time emploee working in a contracted position are protected for benefits per their Negociated Bargaining Agreement. Here is also what Premera is doing to assist part with part employees: B) WEA Select Plans - when a full time employee's hours are decreased, Premera works with the enrollee to review other plan options that allow the individual to remain covered on a medical program. C) WEA Select Plans - added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar

District	Category	Efforts and Achievements
		benefits and the HDHP Plan.
Kennewick School District	**Premium Differential Reduction**	The KSD District started charging a minimum fee of 1% to all employees with zero out of pocket towards medical plans. Amount collected is used to lower premiums for Full Family Coverage. The KEA bargaining unit already distributes it's pooled dollars proportionally by type of coverage to help the family in their unit. Example: Employee only coverage is only eligible for $16.00 from pool and full family coverage is eligible for up to 184.17 from pool. Here is what WEA Premera has been doing. Here is also what Premera is doing: The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Kent School District	**Administrative Cost Reduction**	Kent School District has taken the following steps: 1. By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums. Please note, that there are some carriers such as Premera Blue Cross that don't provide the district with a summary of administrative costs so it is not possible to have an impact on those plans. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes

	Reduction	need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 3. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. (If Applicable) 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. 5. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Kent School District ranked 114th out of 116 districts with more than 100 employees for the 2013-14 school year. Kent's equity ratio, multiple was 42.9 compared to an average multiple of 11.3 for the rest of the 116 districts. *We strongly believe a more accurate reflection of true cost reduction would have been achieved by measuring the average monthly costs for an employee to purchase full family medical coverage expressed in raw dollars. Based on that metric, the Kent School District ranked 44th out those same 116 districts for the 2013-14 school year. Kent's average monthly cost to for an employee purchasing full family health insurance was $477 compared to an average of $518 for the rest of the group. The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child (ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Kettle Falls School District	**Administrative Cost Reduction**	The district currently does not charge employees for any district expenses associated with their health care premiums.A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout

Kiona-Benton City School District	**Premium Differential Reduction**	Pooling and start a mandatory contribution
Kittitas School District	**Administrative Cost Reduction**	District contracts solely with HCA PEBB for all employee coverage.
Kittitas School District	**Cost Savings**	District contracts with HCA PEBB to provide affordable health coverage for all eligible staff.
Kittitas School District	**Customer Service**	District contracts with HCA PEBB to deliver services.
Kittitas School District	**Part-Time Employee Coverage Protection**	District contracts with HCA PEBB to deliver services.
Kittitas School District	**Premium Differential Reduction**	District contracts with HCA PEBB to deliver services.
Klickitat School District	**Administrative Cost Reduction**	Providence has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative costs with medical cost inflation. This has resulted in reduced percentage of premium administrative cost. As such, as much as 90%-91% of premium dollars go towards claims expense costs. PHP is also not required to refund any premiums due to not meeting the medical loss ration requirements of PPACA.
Klickitat School District	**Cost Savings**	Providence Health Plan (PHP) continues to employ a robust care management program that aims to improve care outcomes for our members, ensuring that the right care is being received in the right place, at the right time. Care managers work in collarboration with providers, health professionals, and health plan medical directors to provide a coordinated approach for members with complex care needs. This approach aims to educate and assist members in utilizing health care resources

		managment program.
Klickitat School District	**Customer Service**	Providence Health Plan Customer and Claims are located in Beaverton, Oregon with hours of operation 8:00 a.m. to 5:00 p.m. PST. A toll free 800 number is available for members. Customer service representatives are trained to answer all calls, with 92% of calls answered at the point of service. Translation services are available, as is automated voice response systems and call tracking software for real time and historical activity. The health plan has invested heavily in web based tools fro members for outside of standard business hours which includes a variety of self service options and tools.
Klickitat School District	**Part-Time Employee Coverage Protection**	We allow coverage for part-time employees.
Klickitat School District	**Premium Differential Reduction**	We are working with our benefit consultants . We negotiate with our health carrier and periodically complete a bid process to maintain competitive prices.
La Center School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business - including the Sate of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs. Kaiser Permanente - As a non-profit health plan, our focus is on reinvesting premiums to care for our members - not generating shareholder returns. Our margin is used exclusively to reinvest in the employees and resources that make it possible for us to maintain our leadership in health care

District	Category	Efforts and Achievements
		research and connectivity. We play a role in improving environmental health and to deliver the best possible care to our members.
La Center School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts. a. Provider contracting - Premera has the highest number of provider "in network" in the state (resulting in 98% + of all paid claims are 'in network"). Substantial provider discounts result in lower claims cost for the plan and lower out of pocket costs for enrollees on a WEA Plan. b. BlueCard - (Premera's national "Blue network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost efficient and cost effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real time access to consumer decision support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care efficient. E. Member 360 dashboard - proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. Kaiser Permanente - Kaiser focuses on affordability by integrating all medical services within our system rather than delivering disconnected or fragmented care. Our focus is on delivering high quality care to employees so they're healthier and costs are lower. Because we're all part of one organization, we carefully coordinate care, sharing information among primary care and specialty physicians, pharmacies, and laboratories through to our hospitals and specialty care centers. It enables us to improve quality, reduce costs and drive innovation. Our integrated electronic medical records system promotes care , access and convenience for members.
La Center School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning" - leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "lean" workshops which improve policies and processes for all area within the company that support WEA enrollees. Premera places a

District	Category	Efforts and Achievements
		high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. Kaiser Permanente - Access to care is enhanced through open scheduling, expanded hours and new options for communication with the health plan or providers. Patients not only communicate with the care team through secure email, but they can also see openings in the doctor's schedules and make appointments online, review lab results refill prescriptions, identify and take steps to close care gaps through their personal action plan. One of the innovations is IT tool call OpQ. Through this system, we know in real-time how many patients are in the waiting room, how long they've been awaiting, and how many referrals we have sent to each specialty that day. We also monitor the success of our office staff in closing care gaps as well as other performance indicators. This enable us to monitor and remediate potential service, quality or cost challengers in real time to ensure customer satisfaction.
La Center School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part time smployees working 17.5 hours a week for over 30 years. Kaiser Permanente - We allow coverage for part time employees
La Center School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QGDHP. C. Includes a composite rate for child(ren) , meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children elcting COBRA coverage the child rate and not the subscriber rate. Kaiser Permanente - We analyze our pooling to make it fair for all.
La Conner School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business-including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8%

District	Category	Efforts and Achievements
		in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service are. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
La Conner School District	**Cost Savings**	The WEA Select Medical Plans through Premeral provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting-Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost of the plan and lower out-of-pocket costs for enrollees on a WEA Plan. b. BlueCard-(Premera's national"Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard-Propriertary tool used by Premera Case Managers to identify enrollees with specific healthcare needs ad ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate-Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K Prior Authorization-Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice-7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan.

		The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are coverd with low copay. M. Waiver-employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
La Conner School District	**Customer Service**	Premera's WEA claims, customer services and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employer's benefits, including a cost estimator. This tool helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning"-leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources provider updates, and benefits and rate changes. F. Work with enrollees or their providers to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modiications to processes or benefit changes to the plans.
La Conner School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that ave lower premiums. Additionally, QHDHP is available.
La Conner School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.

LaCrosse School District	**Administrative Cost Reduction**	A Select Medical Plans through Premera: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in Premera's "Lean" workshops so they can incorporate them in their own business – including the state of Washington, various provide groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.3% in 2013. WEA's administrative costs have been under 6% for over 11 years. B. BlueCard provides significant savings to Premera enrollees traveling or residing outside the Premera service area. C. WEA Specific – the WEA Plan's auto adjudication rates remain some of the highest within Premera, which reduces the need for manual intervention and provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services.
LaCrosse School District	**Cost Savings**	WEA Select Medical Plans through Premera: A. Provider contracting - Premera has the highest number of providers "in network" in the state (98% + of all claims paid are "in-network"). B. The volume of enrollment in Premera assists in negotiating higher discounts locally and nationally. (In addition to Premera's Exchange, Individual, small and large group accounts, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc.) C. BlueCard – (Premera's national "Blue" network) has negotiated discounts that are at the highest level within the state and provides significant savings to Premera enrollees who travel or reside outside the Premera service area.

		D. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. E. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. F. Provider advisory groups for medical and pharmacy that continually monitor Premera's policies and procedures, and make changes to formularies to ensure they are appropriate, and cost and care-efficient. G. Member 360 dashboard - Proprietary tool that uses more than claims to identify enrollees with specific healthcare needs. H. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. I. Programs that monitor controlled medication substances to provide protection for enrollees. J. An open drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective.
LaCrosse School District	**Customer Service**	WEA Select Medical Plans through Premera: A. Provides a website with access to information about the employee's benefits which includes a cost estimator which helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs and their plan benefits. B. Does independent surveys to measure enrollee satisfaction and then puts a focus on making changes to improve satisfaction.

District	Category	Efforts and Achievements
		C. "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Premera's "Lean" workshops include Customer Service, Claims and Billing processes – which we continue to focus on improving the enrollee experience. E. The dedicated Premera Sales team provides year-round servicing and is available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Semi-annual newsletters to enrollees to educate them on their plans and provide access to information to help support decision making and healthier lifestyle decisions. G. Dedicated staff in Customer Service and in Sales who work to address escalated or complex issues with the enrollees/designated representative and/or their provider. Input from the enrollee can often help in making adjustments or benefit changes to the Plans.
LaCrosse School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees with even fewer hours worked, providing that the employer is contributing towards the cost of the medical plan. B. Premera works with the enrollees to review other plan options that allow the individual to remain covered on a medical plan. C. Added lower cost options, such as the EasyChoice plan, that have lower premiums and many first dollar benefits and also

District	Category	Efforts and Achievements
		added the HDHP Plan.
LaCrosse School District	**Premium Differential Reduction**	WEA Select Medical Plans through Premera: A. Gave lower increases to dependents than to employee only tiers for the past three years. B. Added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and also added the HDHP Plan.
Lake Chelan School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business - including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Lake Chelan School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower

District	Category	Efforts and Achievements
		claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. BlueCard - (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. Child COBRA Rate - Overage dependents pay the lower child rate rather than a subscriber rate. The premium rate for dependent children is the same whether there is one or more enrolled. Prior Authorization - Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. Freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. Waiver - employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Lake Chelan School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. Use "Ulysses Learning™" - leading to first call resolution and a higher level of satisfaction from enrollees. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. Provide year-round servicing and are available to work directly

District	Category	Efforts and Achievements
		with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. Work with enrollees or their provider to address escalated or complex issues. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Lake Chelan School District	**Part-Time Employee Coverage Protection**	Part time employees are offered the same plans as a full time employee
Lake Chelan School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Lake Quinault School District	**Administrative Cost Reduction**	Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, the enrollee experience, and efficiency while eliminating non-value added time and work effort and lowering expenses. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention.
Lake Quinault School District	**Cost Savings**	High Number of Premera members allows them to negotiate greater provider discounts. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. School District	Reduction	premium options.
Lake Washington School District	Administrative Cost Reduction	Premera has institutied an online enrollment system to enhance efficiency and reduce paperwork. We have reduced administrative expenses: 1) By Working with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Lake Washington School District	Cost Savings	We have implemented the following steps: 1) per requirements of SB 5940 we are offering a HDHP/HSA as of 10/01/2012; 2) annually we evaluate alternative carrier and plan designs for all health plans; and 3) worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums and changed four Premera Blue Cross plans to five new Group Health Access PPO plans for cost savings.
Lake Washington School District	Customer Service	We have worked to provide improved customer services by: 1) Providing a comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information and links on the District portal for more information and forms; 2) hosting an employee benefits and wellness fair which allows all employees to learn the most efficient way to access their benefits and learn how to stay healthy; 3) ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members; 4) providing articles in employee newsletter notifying employees of changes in plans, enrollment processes, and links to information on-line on the staff portal; and 5) having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Lake Washington School District	Part-Time Employee Coverage Protection	Our current bargaining contracts provide coverage to all employees who are at least .5 FTE (20 hours per week for classified and 17.5 hours for certificated). Certificated substitutes are offered benefit coverage after working at least 6 months consistently for a minimum of 70 hours a month. We have provided all existing and new employees with the required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1, 2014.
Lake Washington School District	Premium Differential Reduction	We have done the following: 1) implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents; 2) evaluated alternative carrier and plan designs for all health plans that could reduce premiums, which may increase pooling dollars available to those covering dependents.
Lakewood School District	Administrative Cost Reduction	By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. We worked with our employee benefits consultant to evaluate alternative carriers

District	Category	Efforts and Achievements
		for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums. Please note, that there are some carriers such as Premera Blue Cross that don't provide the district with a summary of administrative costs so it is not possible to have an impact on those plans.
Lakewood School District	**Cost Savings**	We have implemented the following steps: Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012; established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars; use of purchasing consortium / Interlocal to purchase some benefits at a lower cost across several districts (applicable for districts purchasing some benefits through an interlocal); worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Lakewood School District	**Customer Service**	We have worked to provide improved customer service by: Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information; hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits; ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members; having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Lakewood School District	**Part-Time Employee Coverage Protection**	We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. Provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Lakewood School District	**Premium Differential Reduction**	We have done the following: Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents; encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars; worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents.
Lamont School District	**Administrative Cost Reduction**	Administrative costs specific to WEA Plans have been under 6% for over 13 years

In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. Child COBRA Rate – Overage dependents pay the lower child rate rather than a

District	Category	Efforts and Achievements
		subscriber rate. The premium rate for dependent children is the same whether there is one or more enrolled. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Lopez School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. Work with enrollees or their provider to address escalated or complex issues. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Lopez School District	**Part-Time Employee Coverage**	The WEA Select Medical Plans through Premera: Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. Offer lower cost options, such as the EasyChoice plan

District	Category	Efforts and Achievements
	Protection	and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Lopez School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Lyle School District	**Administrative Cost Reduction**	Providence Health Plan has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative cost with medical cost inflation. This has resulted in reduced percentage of premium administrative cost. As such, as much as 90%-91% of premium dollars go towards claims expense costs. PHP is also not required to refund any premiums due to not meeting the MLR (medical loss ratio) requirements of PPACA.
Lyle School District	**Cost Savings**	Providence Health Plan (PHP) continues to employ a robust care management program that aims to improve care outcomes for our members, ensuring that the right care is being received in the right place, at the right time. Care managers work in collaboration with providers, health professionals, and health plan medical directors to provide a coordinated approach for members with complex care needs. This approach aims to educate and assist members in utilizing health care resources appropriately.
		PHP has implemented interventions to prevent inpatient hospital readmissions and initiatives to reduce complaints and potential medical errors. PHP provides a comprehensive array of health and wellness promotion and preventive services through our Fit Together program and a best-in-class pharmacy management program. Providence Health Plan has invested in preventive care and chronic Case and Disease Management Programs to improve on heath care outcomes, implementation of inteventions to prevent inpatient hospital readmissions, early adoption of voluntary patient safety reporting, inititatives in place to reduce complaints and potential medical errors, the Health Plan includes a comprehensive array of health and wellness promotion and preventive services through our Fit Together program and a best-in-class pharmacy management program.
Lyle School	**Customer**	Providence Health Plan Customer Service and Claims are located in Beaverton, Oregon, hours of operation 8:00 am to 5:00 pm PST, toll free 800 number for members. Customer Service Representatives are trained to answer all calls with 92% of calls

District	**Service**	answered at the point of service. Translation services available, automated voice response systement and call tracking software for real time an historical activty. The Health Plan has invested heavily in web based tools for members for outside of standard business hours which includes a variety of self service options and tools.
Lyle School District	**Part-Time Employee Coverage Protection**	We allow coverage for part time employees.
Lyle School District	**Premium Differential Reduction**	We analyze our pooling to make it fair for all.
Lynden School District	**Administrative Cost Reduction**	1. By working with our employee benefits consultant, we've negotiated with fully-insured and self-insured plans to reduce administrative expenses wherever possible. 2. Worked with our employees benefits consultant to evaluate alternative carrriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Lynden School District	**Cost Savings**	We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional HSA offered as of 10/1/2012; 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars.; 3. Use of purchasing consortium/interlocal to purchase some benefits at a lower cost across several districts.; 4. Worked with employee benefits consultant to evaluate alternative carries for all benefit plans that could reduce premuims.
Lynden School District	**Customer Service**	We have worked to provide improved customer service by: 1. Providing comprehensive benefits handbook that encompasses all benefit summaries, rates, and vendor contact information; 2. Hosting an employee benefits fair with hours allowing for a all employees to learn the most efficient wy to access their benefits.; 3. Ensuring that all health plans offered provide comrehensive nurse line and telephonic customer service and support for all members.; 4. Having regular Benefits Advisory Committee meetings with representtion from all bargaining groups.
Lynden School District	**Part-Time Employee**	We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefit needs. 2. Provided all existing and new employees with required notifications regarding

District	Category	Efforts and Achievements
	Coverage Protection	availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Lynden School District	**Premium Differential Reduction**	We have done the following: 1. Implemented minimum premuim contribution for most employees, effectively increasing the employee only cost and reducing the cost for covering dependents; 2. Encouraged employees that do not need health coverage to waive off of the district offered plan, resulting in an increase to pooling dollars.; 3. Established HSA employer contribution of $125 employee per month, resulting in increase to pooling dollars.; 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents.; 5. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric the Lynden Schhol District ranked 69th out of 116 districts with more than 100 employees for the 2013-14 school year. Lynden's equity ration, multiple was 10.8 compared to an average multiple of 11.3 for the rest of the 116 districts. *Despite being better than the average , we strongly believe a more accurate reflection of true cost reduction would have been achieved by measuring the average monthly costs for an employee to purchase full family medical coverage expressed in raw dollars. Based on that metric, the Lynden School District ranked 21st out of those same 116 districts for the 2013-14 school year. Lynden's average monthly cost for an employee purchasing full family health insurance was $394 compared to an average of $518 for the rest of the group.
Mabton School District	**Administrative Cost Reduction**	A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area.

District	Category	Efforts and Achievements
		C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Mabton School District	**Cost Savings**	A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Marysville School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
McCleary School District	**Administrative Cost Reduction**	Implemented the Lean processes
McCleary School District	**Cost Savings**	Premium rate for dependent children is the same whether there is one or more enrolled
McCleary School District	**Customer Service**	Web site for employee information
McCleary School District	**Part-Time Employee Coverage Protection**	Offer lower cost options, such as EasyChoice pland and Basic plan
McCleary School District	**Premium Differential**	Offer lower cost options, such as EasyChoice pland and Basic plan

District	Category	Efforts and Achievements
	Reduction	
Mead School District	Administrative Cost Reduction	Progress is limited in this area. While the carriers may claim they are making progress, from the district aspect we are continuing to deal with increasing cost and increasing requirements which drives up administrative expenses at the district level.
Mead School District	Cost Savings	Continue to offer a variety of plans with mutiple tier options to provide savings opportunities to our employees.
Mead School District	Customer Service	Continue to offer a variety of plans with different service levels so employees can select the plans that provide the service that best fit their needs.
Mead School District	Part-Time Employee Coverage Protection	Offer coverage to employees who work a .5 FTE or more with multiple plan options as defined in 5 above.
Mead School District	Premium Differential Reduction	Instituted Mandatory Minimums in most groups and utilize pooling to offset the cost to families when available.
Medical Lake School District	Administrative Cost Reduction	Utilizing software to process enrollments and to provide information to staff.
Medical Lake School District	Cost Savings	We offer an array of benefit plan options that intends to meet all employees needs related to both cost and benefits. We offer opportunities for our employees to meet one-on-one with benefits specialists prior to enrollment to ensure that employees are making the most cost effective decision to meet their needs.
Medical Lake School District	Customer Service	Have downloaded all materials to the district's website.

Medical Lake School District	**Part-Time Employee Coverage Protection**	We continue to provide coverage to part time employees, with eligibility prorated according to their FTE. Part time employees receive benefit allocations from the state, and are also eligible to participate in the pooling process in their respective bargaining groups.
Medical Lake School District	**Premium Differential Reduction**	We have initiated a mandatory cost share.
Mercer Island School District	**Administrative Cost Reduction**	The District currently has no administrative expenses so no progress is required. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Mercer Island School District	**Cost Savings**	District - See response on affordability. The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc.

District	Category	Efforts and Achievements
		a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate.

District	Category	Efforts and Achievements
		J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.

Mercer Island School District	**Customer Service**	The district has implemented a web interface for employees to sign up for medical plans. We hold an annual benefits fair. Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
Mercer Island School District	**Part-Time Employee Coverage Protection**	All employees who work over a .500 FTE are offered by medical insurance plans. The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Mercer Island School District	**Premium Differential Reduction**	The District has fully implemented all non-union employees groups and all collective bargaining agreements will be fully implemented at the time of their next opening. The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Meridian School District	**Administrative Cost Reduction**	1.) By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. 2.) Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Meridian School District	**Cost Savings**	We have taken the following Steps: 1.) Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012 2.) Established an HSA employer contribution of

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project
Exhibit A19b
Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		$125 per employee per month. 3.) Use of purchasing consortium/Interlocal to purchase some benefits at a lower cost across several districts. 4.) Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Meridian School District	**Customer Service**	We have worked to provide improved customer service by: 1.) Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2.) Hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. 3.) Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. 4.) Having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Meridian School District	**Part-Time Employee Coverage Protection**	1.) We have continued to work with all purchasing/bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. 2.) Provided all existing and new emplyees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014
Meridian School District	**Premium Differential Reduction**	We have done the following: 1.) Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. 2.) Established HAS employer contribution of $125 per employee per month. 3.) Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. 4.) The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on the metric, the Meridian School District ranked 107th out of 116 districts with more than 100 employees for the 2013-14 school year. Meridian's equity ratio, mulitiple was 20.1 compared to an average multiple of 11.3 for the rest of the 116 districts.
Methow Valley School	**Administrative Cost Reduction**	We have reduced administrative expenses by contracting with PEBB.

Washington State Office of the Insurance Commissioner

District	Category	Efforts and Achievements
District		
Methow Valley School District	**Cost Savings**	The District contracts with the PEBB program, whose cost saving measures include: managing the medical plans' prescription-drug costs by promoting generic drug use through a lower-cost benefit design; purchasing coverage for medical tools and procedures that are evidence based; adopting PEBB's dependent verification eligibility processes, to ensure family members receive benefits.
Methow Valley School District	**Customer Service**	The district follows the PEBB Program's guidelines for determining employee eligibility and enrollment procedures to ensure consistency. As required by the PEBB Program, the district is also required to verify eligibility for each employee's dependents through valid documentation before the employer enrolls the dependents in PEBB coverage.
Methow Valley School District	**Part-Time Employee Coverage Protection**	We offer insurance benefits to our part-time employees.
Methow Valley School District	**Premium Differential Reduction**	As a member of PEBB, this differential is being addressed at the State level.
Mill A School District	**Administrative Cost Reduction**	Providence Health Plan has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative cost with medical cost inflation. This has resulted in reduced percentag
Mill A School District	**Cost Savings**	Providence Health Plan has invested in preventive care and chronic Case and Disease Management Programs to improve on heath care outcomes, implementation of inteventions to prevent inpatient hospital readmissions, early adoption of voluntary patient safet
Mill A School District	**Customer Service**	Providence Health Plan Customer Service and Claims are located in Beaverton, Oregon, hours of operation 8:00 am to 5:00 pm PST, toll free 800 number for members. Customer Service Representatives are trained to answer all calls with 92% of calls answered

		On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington state.
Monroe School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. District	Category	Efforts and Achievements
		The Group Health Medical Plan provides the following cost saving measures: We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls.
		We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs.
		In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits.
		Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future.
		Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this performance is fewer

District	Category	Efforts and Achievements
		readmissions and lower total cost of care. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also receive routine reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.) The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions, assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver. We have also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and

District	Category	Efforts and Achievements
		Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g. depression, anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns.
		In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas.
		The outpatient CM staff work on improving outcomes for members by working with them on improving their health and their self-management skills; navigating the health care system; evaluating and working through barriers to meeting goals; and accessing routine care. All this work is done with the understanding of the patient's benefits and specific needs. Our efforts in identifying patients for case management are focused on those individuals with chronic conditions, including diabetes and congestive heart failure, recent hospitalizations, and new diagnoses of serious conditions. By working with these higher risk, higher need patients to improve their outcomes, and assisting them in accessing care more effectively, we are also avoiding additional costs.

Exhibit A19b
Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		We have one Care Management RN who is dedicated to pediatric and perinatal care. She provides support to families of premature infants and seriously ill infants and children in inpatient and outpatient settings to optimize their outcomes and manage costs. Her responsibilities include utilization management activities associated with facility-based care.
		The efforts of the Emergency Patient Resources and Options (EPRO) physicians and staff also save costs by avoiding unnecessary hospital admissions and providing alternatives, including home health and same or next day appointments with medical and behavioral health providers. We are also supporting the avoidance of unnecessary testing when we can provide results of recent labs, ECG's, and imaging procedures. The social work clinicians in EPRO are trained to complete assessments of patients with chemical dependency concerns to determine if admission or outpatient care is most appropriate, often avoiding an unnecessary admission and coordinating prompt access to outpatient care.
		The CNS program also contributes to the improved outcomes and saving costs for patients and the health plan by offering 24/7 access to advice from registered nurses. In addition to the RN staff, CNS is also staffed with a Physician's Assistant and physician. This allows for RN consultation with the provider and direct treatment of patients by the providers. The CNS MD/PA is also able to assist patients with abnormal lab results after hours to prevent Emergency Department and Urgent Care visits. The CNS program also includes standing physician orders for the RN's to use in the treatment of some common diagnoses. This allows members to begin treatment earlier, avoid additional appointments and costs, and avoid costs for the health plan.
		We have recently started a pilot project to improve the pre-operative planning of patients undergoing elective joint replacement procedures. This project is focused on patients from a contracted orthopedic practice and includes a phone call to patients several days prior to their admission to review the expectations and plans for post-discharge care. We have consistently identified the perception of many members and providers that not having caregiver support following discharge is reason to admit to a skilled nursing facility, which is not a legitimate reason for SNF care according to CMS. By working with the

District	Category	Efforts and Achievements
		patients prior to admission to help them problem-solve any anticipated issues, plan for help at home, and expect discharge to home, we believe we can improve patient outcomes by avoiding more exposure to infections in facility-based care and also avoid the associated costs.
Monroe School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans. Group Health's Customer Service Centers in Seattle and Spokane serve as a vital source of quick, accurate information for

District	Category	Efforts and Achievements
		members, staff, providers, and brokers. Available Monday through Friday, from 8:00 AM to 5:00 PM, they support inquiries for all lines of business and provide support for our health plans and clinics, as well as the self-service tools on our website and mobile app. In addition to taking over 4,000 calls each day, representatives also handle e-mails, written correspondence, and walk-in inquiries. Customer Service Representatives are prepared to answer all manners of health care inquiries, including questions about health plan benefits, enrollment, billing, and accessing care. While striving to resolve questions or concerns on the first contact, they also work with partner departments, care teams, and individuals throughout Group Health to ensure every issue is handled thoroughly and professionally. Whether welcoming a new member, answering a question, or solving a problem for someone in need of help, Customer Service makes it a priority to embody Group Health's mission and values on every contact. Additionally, members can conveniently access customer service 24/7 via our member website, MyGroupHealth, at www.ghc.org, or our mobile app, which is available for download on the iPhone and Android Smartphones. It includes many features available on our MyGroupHealth for Members Website and has added features, such as Symptom Checker and clinic locations and wait times. From the website, members can use online forms to order a new ID card, file a claim, view plan information, update their personal information, order prescriptions and have them delivered to their homes, and provide feedback about Group Health. Patients are able to communicate directly with their primary care team – at their convenience – which improves service and builds a stronger provider-patient relationship.

District	Category	Efforts and Achievements
		Using MyGroupHealth, members receiving care in Group Health medical centers have online access to a shared electronic health record (EHR) consisting of their entire medical record (except chart notes). Features available to them include: • Access to lab/test/radiology results • After-visit summaries • Allergy and immunization records • Medication histories, blood pressure, weight, and current health conditions • Secure messaging with their primary care team
Monroe School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Monroe School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more

District	Category	Efforts and Achievements
		enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Montesano School District	**Administrative Cost Reduction**	Describe progress on reducing administrative expenses. 1. By working with our employee benefits consultant, we've negotiated with fully-insured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Montesano School District	**Cost Savings**	We have implemented the following steps:

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project
Exhibit A19b
Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars.
Montesano School District	**Customer Service**	We have worked to provide improved customer service by: 1. Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting an employee benefits fair with hours allowing for all employees to learn the

District	Category	Efforts and Achievements
		most efficient way to access their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. 4. Having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Montesano School District	**Part-Time Employee Coverage Protection**	1. We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. 2. Provided all existing and new employees with required notifications regarding

Washington State Office of the Insurance Commissioner

		availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Montesano School District	**Premium Differential Reduction**	We have done the following: 1. Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars.

Washington State Office of the Insurance Commissioner

		3. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents.
Morton School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve qulaity, improve the enrollee experience, and improve efficiency while eliminating on-value added time and work effort an dlowering expneses. Premera uses this method , on an ongoing basis, to continue to evaluate and improve internal/external processes thorughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business - including the state of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been udner 6% for over 13 years. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest wihtin Premera, which reduces the need for manaul intervention. This provides peace of mind for providers as well as for enrollees

		with quick turnaround on payments for services and lower administrative costs.
Morton School District	**Cost Savings**	A. The High number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA;s over 110,000 enrollees, Premera also proivdes coverage to enrollees on the state Exhange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. B. Evidenc-based medical initiatives that allow Premera to provide efficient and cost effective carea as well as to identify appropritate alternatie care based on the enrollees needs. C. Real-time access to consuemr decision support resources to help enrollees understand and direct their health care needs. D Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Mermber 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healtchare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room serive (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tired drug formulary that provides choice for enrollees and their physicians while being purudent and ensuring the durgs are cost and care effective. I. Child COBRA RAte -Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent childres is the same whethere there is one or more enrolled. K. Prior Authorization- Some services requre an approval for coverage from Premera before a planned medical service or procedure occurs, which provides finanacial protection and prevents unnecessary services. L. Choice - 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are avialable such as the Basic, QHDHP and the EASYChoice plan. The EasyChoice Plan provides several ooptions all at the same rate. it was developed so employees could pick the plan most appropriate for their needs and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver-employees can waive medical coverage under WEA. Any left-over state allocation is put back intothe insurance pool to reduce the cost for those with monthly co-premiums.
Morton School District	**Customer Service**	Premera's WEA cl;aims, customer service and field service teams are all dedicated to the WEA account and are based in Washington.

The percentage of WEA claims paid through auto adjudication remain some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Naches Valley School District	**Cost Savings**	WEA Select Medical Plans through Premera: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs.

		C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 3-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the HDHP or the EasyChoice Plan. The EasyChoice Plan provides three options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered in full.

		M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Naches Valley School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve satisfaction. C. Use "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Through Field Service staff, provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. G. Work with enrollees or their provider to address escalated or complex issues.

Nespelem School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Nespelem School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. School District	Reduction	
Nine Mile Falls School District	Administrative Cost Reduction	We've reduced administrative costs by continuint to self insure our dental and vision insurance plans.
Nine Mile Falls School District	Cost Savings	We bid insurance plans and our insurance committee which is comprised of equal representation of certificated and classified staff make the decisions which best suit our employees.
Nine Mile Falls School District	Customer Service	We have a broker that does advocate on behalf of each individual employee. We do annual review and selection of providers.
Nine Mile Falls School District	Part-Time Employee Coverage Protection	All employees who work 17.5 hours per week and have enough state allocation to cover their mandatory benefits are eligible for medical coverage. Almost all classified employees who select insurance have their premiums heavily subsidized with pooling dollars.
Nine Mile Falls School District	Premium Differential Reduction	We have composite rates available for all of our certificated staff.
Nooksack Valley School District	Administrative Cost Reduction	1. By working with our employee benefits consultant, we've negotiated with both fully-insured and selfinsured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Nooksack Valley School District	Cost Savings	we have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/1/2012 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars. (If Applicable) 3. Use of purchasing consortium / Interlocal to purchase some benefits at a lower cost across several districts (applicable for districts purchasing some benefits through an interlocal) 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Nooksack	Customer	we have worked to provide improved customer services by: 1. Providing comprehensive employee benefits handbook that

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
Valley School District	**Service**	encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. 4. Having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Nooksack Valley School District	**Part-Time Employee Coverage Protection**	1. We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs.2. Provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014
Nooksack Valley School District	**Premium Differential Reduction**	We have done the following: Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Nooksack Valley School District ranked 113th out of 116 districts with more than 100 employees for the 2013-14 school year. Nooksack Valley's equity ratio, multiple was 35.7 compared to an average multiple of 11.3 for the rest of the 116 districts.*We strongly believe a more accurate reflection of true cost reduction would have been achieved by measuring the average monthly costs for an employee to purchase full family medical coverage expressed in raw dollars. Based on that metric, the Nooksack Valley School District ranked 27th out those same 116 districts for the 2013-14 school year. Nooksack Valley's average monthly cost to for an employee purchasing full family health insurance was $427 compared to an average of $518 for the rest of the group.
North Beach School District	**Administrative Cost Reduction**	We offer many levels of medical plans and we have mandatory 1% of cost of chosen plan for all employess.
North Beach	**Cost Savings**	The offering of 5 levels of plans available and a mandatory 1% of plan cost paid by all employees.

	Reduction	
North Kitsap School District	**Administrative Cost Reduction**	NKSD purchases medical plans through the WEA benefits program, in addition to one HMO plan purchased through Group Health Cooperative. The WEA program is an efficiently run program with low administrative costs built into the premiums for the management and maintenance of these plans, and the administrative costs on the Group Health plan are below average. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs. Group Health has reduced admin costs through the following: In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and

District	Category	Efforts and Achievements
		other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best service to our customers.
		On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition.
		By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.
North Kitsap School District	**Cost Savings**	Both Premera Blue Cross and Group Health continue to evaluate their patient populations for early identification of costly chronic conditions. Group Health is nationally recognized for its' innovative approach to member care through their lifetimes.
		NKSD has made progress by negotiating lower premiums on the Group Health medical plan, making strategic benefit plan alterations, and by offering an HSA-Qualified High Deductible Health Plan so that employees may cover family members at significantly lower premiums.

District	Category	Efforts and Achievements
		Group Health offers patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. Group Health empowers employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs.
		In order to ensure claims timeliness and accuracy, GH has online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. Group Health performs pre-payment review of high dollar claims and post-payment audits.
		Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from the current vendor, MedImpact, to OptumRx, GH will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future.
		With Group Health's Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities.
		Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. Group Health also receives routine reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including

District	Category	Efforts and Achievements
		registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.) The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions, assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver. GH has also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g. depression, anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns. In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication

District	Category	Efforts and Achievements
		reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas. Both Premera Blue Cross and Group Health continue to evaluate their patient populations for early identification of costly chronic conditions. Group Health is nationally recognized for its' innovative approach to member care through their lifetimes. NKSD has made progress by negotiating lower premiums on the Group Health medical plan, making strategic benefit plan alterations, and by offering an HSA-Qualified High Deductible Health Plan so that employees may cover family members at significantly lower premiums. The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify

District	Category	Efforts and Achievements
		appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and

District	Category	Efforts and Achievements
		generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums. Group Health provides the following: Group Health works closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls. Group Health offers patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. Group Health empowers employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs. In order to ensure claims timeliness and accuracy, GH has online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. Group Health performs pre-payment review of high dollar claims and post-payment audits. Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from the current vendor, MedImpact, to OptumRx, GH will achieve significant savings and

District	Category	Efforts and Achievements
		industry-leading capabilities to better manage the fastest growing component of health care costs into the future. With Group Health's Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. Group Health also receives routine reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.) The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions, assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver. GH has also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and

District	Category	Efforts and Achievements
		Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g. depression, anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns.
		In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas.
North Kitsap School District	**Customer Service**	NKSD employees enjoy both a Benefits Website and a Benefits Helpline. The Benefits Website contains information for all the District's benefits plans in one convenient place and is widely accessed by both employees and their family members. It contains summaries, comparisons, calculators, forms, and links to information and resources provided by the insurance carriers.
		The very popular Benefits Helpline is available for employees and their families when they have questions about their District benefits. The phone calls received range on a wide variety of topics, from the new HSA-qualified HDHP, to LTD claims, vision provider searches, retirement and Medicare.

District	Category	Efforts and Achievements
		In addition, NKSD works with insurance brokers to evaluate communication needs, provide surveys, newsletters, meetings, and one on one assistance when necessary.
		Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.

		Group Health places a strong emphasis on Customer Service through these services: Group Health's Customer Service Centers in Seattle and Spokane serve as a vital source of quick, accurate information for members, staff, providers, and brokers. Available Monday through Friday, from 8:00 AM to 5:00 PM, they support inquiries for all lines of business and provide support for our health plans and clinics, as well as the self-service tools on our website and mobile app. In addition to taking over 4,000 calls each day, representatives also handle e-mails, written correspondence, and walk-in inquiries. Customer Service Representatives are prepared to answer all manners of health care inquiries, including questions about health plan benefits, enrollment, billing, and accessing care. While striving to resolve questions or concerns on the first contact, they also work with partner departments, care teams, and individuals throughout Group Health to ensure every issue is handled thoroughly and professionally. Whether welcoming a new member, answering a question, or solving a problem for someone in need of help, Customer Service makes it a priority to embody Group Health's mission and values on every contact. Additionally, members can conveniently access customer service 24/7 via our member website, MyGroupHealth, at www.ghc.org, or our mobile app, which is available for download on the iPhone and Android Smartphones. It includes many features available on our MyGroupHealth for Members Website and has added features, such as Symptom Checker and clinic locations and wait times. From the website, members can use online forms to order a new ID card, file a claim, view plan information, update their

District	Category	Efforts and Achievements
		personal information, order prescriptions and have them delivered to their homes, and provide feedback about Group Health. Patients are able to communicate directly with their primary care team – at their convenience – which improves service and builds a stronger provider-patient relationship. Using MyGroupHealth, members receiving care in Group Health medical centers have online access to a shared electronic health record (EHR) consisting of their entire medical record (except chart notes). Features available to them include: • Access to lab/test/radiology results • After-visit summaries • Allergy and immunization records • Medication histories, blood pressure, weight, and current health conditions • Secure messaging with their primary care team
North Kitsap School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled.

North River School District	**Premium Differential Reduction**	Added lower cost options, such as EasyChoice plan that have lowered premiums and also have added HDHP.
North Thurston Public Schools	**Administrative Cost Reduction**	The District utilizes Propel Insurance Brokerage services to leverage both health care value and reduce administrative costs which are less than the overhead necessary to manage these programs within the district.
North Thurston Public Schools	**Cost Savings**	The District has made progress by aggressively negotiating lower premiums on their Group Health and made a decision to drop WEA Premera plans, and offered Aetna medical as a total replacement, and by offering Qualified High Deductible plan with Health Savings Account. Aetna's premium rate for 2015-16 sy came in lower than WEA's rate for 2014-15 sy.
North Thurston Public Schools	**Customer Service**	We have available the Benefits website which contains information on all the District's benefit plans and is widely accessed by both employee and family members. The website provides a cost estimator (which helps them determine cost), educational information, wellness programs and benefit plan summaries.
North Thurston Public Schools	**Part-Time Employee Coverage Protection**	The District maintains an eligibility threshold of 20 hours/week (minimum) which exceeds the new federal standard for access to health care.
North Thurston Public Schools	**Premium Differential Reduction**	The District and Propel will continue to review various plans and proposals to make progress toward a 3:1 premium ratio for employees. For the 2015-16 school year, the District made a decision to drop WEA Premera medical and offer Aetna medical as a total replacement for Premera and KPS plans.
Northport School District	**Administrative Cost Reduction**	The District Administrators & teachers switched to PEBB starting in November 2014.
Northport School District	**Cost Savings**	The District actively promotes wellness, fitness and exercise throughout the school. We have walking or running charts to post the mileage.

Northport School District	**Customer Service**	We have had meetings displaying spreadsheets to inform the employee's of the costs.
Northport School District	**Part-Time Employee Coverage Protection**	Part-time employee's are offered insurance.
Northport School District	**Premium Differential Reduction**	Premiums changes have increased. Most people have had to drop down a plan. We are working towards the 3 to 1 ratio to help with family coverage.
Northshore School District	**Administrative Cost Reduction**	As part of our annual review process, our broker benchmarks and negotiates plan cost to ensure maximum value. Dental and vision administration rates were renewed without an increase for calendar year 2015. Medical administration through Regence had a minimal increase of 2%.
Northshore School District	**Cost Savings**	Benefits on Value plan were enhanced to cover first $1,000 of outpatient lab & X-ray with the deductible waived, plan formerly covered first $500 in calendar year 2014. Continual education of plan offerings were provided through an annual benefits fair, individual consultations at the district, and through our broker employees have access to a HIPAA compliant Benefit Resource Center. Education focused on finding affordable plans for employees with benefits that provide comprehensive coverage for individual situations that are not necessarily the highest cost plan option. Transparency tool available through Regence enhances consumer engagement and allows for employees to identify where quality and affordable health care can be received. The Northshore wellness program provides employees with an opportunity to earn a $15 monthly premium discount if they receive an annual preventive care exam.
Northshore	**Customer**	Through Regence.com, members have access to a dashboard that allows them to view claims, benefits, live chat with customer

School District	**Service**	service, take a general Health Assessment, access a monthly Wellness Wire newsletter, use the Treatment Cost Estimator tool, and find am in-network doctor or facility. Additionally, online wellness workshops allow employees to obtain support through articles and videos regarding tobacco cessation, stress management, depression and many other common health issues. During open enrollment, promotion of Benefit Resource Center and individual consultations assist employees in selecting coverage that is affordable and comprehensive for themselves and their families. Northshore benefits web site contains applicable forms, plan summaries, resources and is continually updated with carrier alerts.
Northshore School District	**Part-Time Employee Coverage Protection**	No change. Dictated by Collective Bargaining Agreements. There is no pro-ration of state allocation for employees with a 0.50 FTE – 0.99 FTE.
Northshore School District	**Premium Differential Reduction**	Increased the cost for individual subscribers at a greater percentage than for families as well as increased the funds available for pooling. Both of these factors reduced the family cost share. Offer low cost plan options such as the Value plan and Qualified High Deductible Health Plan (QHDHP) that gives families a place to transition to if they are looking for a more affordable plan.
Oak Harbor School District	**Administrative Cost Reduction**	1. By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums. Please note, that there are some carriers such as Premera Blue Cross that don't provide the district with a summary of administrative costs so it is not possible to have an impact on those plans.
Oak Harbor School District	**Cost Savings**	We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars. (If

District	Category	Efforts and Achievements
		Applicable) 3. Use of purchasing consortium / Interlocal to purchase some benefits at a lower cost across several districts (applicable for districts purchasing some benefits through an interlocal) 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Oak Harbor School District	**Customer Service**	We have worked to provide improved customer service by: 1. Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. 4. Having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Oak Harbor School District	**Part-Time Employee Coverage Protection**	1. We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. 2. Provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Oak Harbor School District	**Premium Differential**	We have done the following: 1. Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project
Exhibit A19b
Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
	Reduction	the cost for covering dependents. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 3. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. (If Applicable) 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. 5. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Oak Harbor School District ranked 102nd out of 116 districts with more than 100 employees for the 2013-14 school year. Oak Harbor's equity ratio, multiple was 16.1 compared to an average multiple of 11.3 for the rest of the 116 districts. *We strongly believe a more accurate reflection of true cost reduction would have been achieved by measuring the average monthly costs for an employee to purchase full family medical coverage expressed in raw dollars. Based on that metric, the Oak Harbor School District ranked 25th out those same 116 districts for the 2013-14 school year. Oak Harbor's average monthly cost to for an employee purchasing full family health insurance was just $415 compared to an average of $518 for the rest of the group.

		at the child rate and not a subscriber rate.
Ocosta School District	**Administrative Cost Reduction**	District manages own insurance reconcilliation and plan enrollment
Ocosta School District	**Cost Savings**	Searching for providers that can save the District and employees money by offering lower premiums.
Ocosta School District	**Customer Service**	Employees have access to WEA/Aon Hewitt for questions via internet or phone
Ocosta School District	**Part-Time Employee Coverage Protection**	Offerred EasyChoice , Basic and QHDHP Plans
Ocosta School District	**Premium Differential Reduction**	Offerred EasyChoice , Basic and QHDHP Plans
Odessa School District	**Administrative Cost Reduction**	Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, in an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs to the WEA plans remain approximately 5% of premium and have been under 6% for over 13 years.
Odessa School District	**Cost Savings**	The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverge to enrollees on the state exchange, individual, small and large group accounts. Other measures include evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. There are provider advisory groups that continually monitor Premera's medical and pharmacy policies and procedures, and make

Washington State Office of the Insurance Commissioner

		changes to formularies to ensure they are appropriate lever/tier, and cost and care-efficient. Premera has an open 4-tiered formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. The over-age dependents pay the lower child rate rather than a subscriber rate while on COBRA. The premium for dependent children is the same whether there is one or more enrolled. Employees can waive medical coverage under WEA -- any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Odessa School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are dedicated to the WEA account and are based in Washington. These teams provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. The Premera team provides year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees, and additional support to the district as well as direct support to their employees. WEA enrollees receive a newsletter twice a year which provides information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes.
Odessa School District	**Part-Time Employee Coverage Protection**	Part-time employees have access to coverage if they work 17.5 hours per week through the Premera plans; however, our district required 20 hours. Premera has had this option for over 30 years. By offering the EasyChoice and Basic plans since they have lower premiums, this allows part-time employees affordable coverage.
Odessa School District	**Premium Differential Reduction**	The WEA plans through Premera offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums as well as the QHDHP. In some years lower increases have been applied to dependent rate tiers than to employee only rate tiers. The composite rate for children is the same whether there is one or more enrolled. Dependent children electing COBRA coverage are enrolled at the child rate and not a subscriber rate.

Olympia School District	Premium Differential Reduction	increase mandatory out of pocket for employee only coverage.
Omak School District	Administrative Cost Reduction	WEA Select Medical Plans through Premera, Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in Premera's "Lean" workshops so they can incorporate them in their own business--including the state of Washington, various provide groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.3% in 2013. WEA's administrative costs have been under 6% for over 11 years. BlueCard provides significant savings to Premera enrollees traveling or residing outside the Premera service area. WEA Specific-- the WEA Plan's auto adjudication rates remain some of the highest within Premera, which reduces the need for manual intervention and provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services.
Omak School District	Cost Savings	WEA Select Medical Plans through Premera have provider contracting with the highest number of providers "in network" in the state (98% + of all claims pair are "in-network"). The volume of enrollment in Premera assists in negotiating higher discounts locally and national. (In addition to Premera's Exchange, Individual, small and large group accounts, Premera provides coverage for many large, national accounts, including Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc.). BlueCard, Premera's national blue network, has negotiated discounts that are at the highest level withing the state and provides significant savings to Premera enrollees who travel or reside outside the Premera service area. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. Provider advisory groups for medical and pharmacy that continually monitor Premera's policies and procedures and make changes to formularies to ensure they are appropriate, and cost and care-efficient. Member 360 dashboard--proprietary tool that uses more than claims to identify enrollees with specific healthcare needs. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions and higher copayments for bran, non-preferred and specialty drugs. Programs that monitor controlled medication substances t provide

District	Category	Efforts and Achievements
		protection for enrollees. An open drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective.
Omak School District	**Customer Service**	WEA Select Medical Plans through Premera provides a website with access to information about the employee's benefits which includes a cost estimator which helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs and their plan benefits. Does independent surveys to measure enrollee satisfaction and then puts a focus on making changes to improve satisfaction. "Ulyssess Learning" leading to first call resolution and a higher level of satisfaction from enrollees. Premera's "Lean" workshops include customer service, claims and billing processes--which we continue to focus on improving the enrollee experience. The dedicated Premera Sales team provides year-round servicing and is available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. Semi-annual newsletters to enrollees to educate them on their plans and provide access to information to help support decision making and healthier lifestyle decisions. Dedicated staff in Customer Service and in Sales who work to address escalated or complex issues with the enrollees/designated representative and/or their provider. Input from the enrollee can often help in making adjustments or benefit changes to the Plans.
Omak School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans through Premera have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees with even fewer hours worked, providing that the employer is contributing towards the cost of the medical plan. Premera works with the enrollees to review other plan options that allow the individual to remain covered on a medical plan. Added lower cost options such as EasyChoice plan, that have lower premiums and many first dollar benefits and also added HDHP.
Omak School District	**Premium Differential Reduction**	WEA Select Medical Plans through Premera gave lower increases to dependents than to employee only tiers for the past three years and added lower cost options such as the EasyChoice plan that have lower premiums and many first dollar benefits and also add
Onalaska School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to improve quality, improve the enrollee experience, and to improve efficiency while eliminating non-value added time and work. Through Lean, Premera has reduced overall administrative costs

District	Category	Efforts and Achievements
		from 8.8-percent in 2005 to 5.9-percent in 2015. The administrative costs specific to the WEA Plans remains approximately 5-percent of the premium and have been under 6-percent for over 13-years.
Onalaska School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. With the high number of Premera members they are able to negotiate greater provider discounts locally and nationally. Substantial provider discounts result in lower claims cost for the plan and lower out-of-pocket costs for enrollees on a WEA Plan. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. There are seven freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP, and the EasyChoice plan. The EasyChoice plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. D. Employees can also waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Onalaska School District	**Customer Service**	Our district offers an annual benefits fair; a health care benefits specialist is available to educate employees on saving money by choosing the best plan to fit their individual needs. Aon Hewitt's online benefits website provides a cost estimator for comparing insurance plans based on an employee's projected health care needs. For employees without computer access, we have many computers available to them to utilize the access to the online benefits site. Employees may also contact Aon Hewitt and Premera via their telephone customer support line. Aon Hewitt is also launching a new site layout that will make it easier for employees to research and compare their options.
Onalaska School District	**Part-Time Employee Coverage Protection**	All part-time employees working 20 or more hours per week are eligible for benefits and allotted on a pro-rated share of the insurance benefit allocation from the state. They are also eligible to participate in insurance pooling as defined by the individual bargaining units. We offer the same plans to part-time employees as full-time employees. They have access to the lower cost options as well. We are also closely following guidelines with the new Affordable Care Act for variable hours employees with the "Look Back Measurement Method" and plan on offering coverage to those eligible variable hours employees.
Onalaska School District	**Premium Differential**	The WEA Select Medical Plans through Premera have in some years applied lower increases to dependent rate tiers than to employee only rate tiers. They have lower cost options, such as the EasyChoice plan, the Basic plan, and the QHDHP. They also offer dependent children electing COBRA coverage the child rate and not a subscriber rate. As a district we have bargained with

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
	Reduction	our union groups to have a minimum percentage out-of-pocket medical premium contribution required of all employees who elect coverage. The minimum medical premium paid by the employee is added to the insurance pool for their respective union group and then is distributed to its members. This benefits the employees who choose coverage levels above employee only.
Onion Creek School District	**Administrative Cost Reduction**	The district has cut from a part time administrator to one day a week administrator. However, this model is not sufficient.
Onion Creek School District	**Cost Savings**	The district contracts with the PEBB program, whose cost-saving measures include: Managing the medical plans' prescription-drug costs by promoting generic drug use through a lower-cost benefit design, Purchasing coverage for medical tools and procedures that are evidence based, Adopting PEBB's dependent verification eligibility processes, to ensure only eligible family members receive benefits.
Onion Creek School District	**Customer Service**	The district follows the PEBB Program's guidelines for determining employee eligibility and enrollment procedures to ensure consistency. As required by the PEBB Program, the district is also required to verify eligibility for each employee's dependents through valid documentation before the employer enrolls the dependents in PEBB coverage.
Onion Creek School District	**Part-Time Employee Coverage Protection**	The district has been paying for all eligible employees. The employee only pays for the employee contribution and any amount above the state reimbursement rate.
Onion Creek School District	**Premium Differential Reduction**	The district pays a composite rate for all eligible employees.
Orcas Island School District	**Administrative Cost Reduction**	By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Orcas Island	**Cost Savings**	We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account has been offered as of 10/01/2012. 2. Use of purchasing consortium/Interlocal to purchase some benefits at a lower

Washington State Office of the Insurance Commissioner

District	Category	Efforts and Achievements
School District		cost across several districts. 3. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums. 4. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Orcas Island School District	**Customer Service**	We have worked to provide improved customer service by: 1. Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting our employee benefits consultant onsite during open enrollment allowing all employees to learn the most efficient way to access and manage their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. 4. Employees have access to provider websites with information about the employee's benefits. Websites typically provide education information about wellness programs and benefits. 5. All providers will work with enrollees to address escalated or complex issues.
Orcas Island School District	**Part-Time Employee Coverage Protection**	We have continued to work with all purchasing/bargaining groups to determine the appropriate eligibility requirement to meet their specific group's benefits needs. We have provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1, 2014. We have provided access to medical coverage for part-time employees working a minimum of ten (10) hours/week (Group Health Medical) and to employees working a minimum of 17.5 hours/week (Regence and Premera Medical).
Orcas Island School District	**Premium Differential Reduction**	We have done the following: 1. Implemented minimum premium contribution for all employees, effectively increasing the employye only cost and reducing the cost for covering dependents. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 3. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. 4. Each dependent child does not pay a separate premium – the child premiums rate for all medical providers is a composite rate. 5. Premera Blue Cross dependent children electing COBRA coverage pay a child rate and not a subscriber rate.

Orondo School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Orondo School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket

		costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or

District	Category	Efforts and Achievements
		procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Orondo School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics

Pateros School District	**Customer Service**	Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of-pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees.
Pateros School District	**Part-Time Employee Coverage Protection**	Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Pateros School District	**Premium Differential Reduction**	Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP.
Paterson School District	**Administrative Cost Reduction**	WEA Select Medical Plans through Premera: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in Premera’s “Lean” workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.6% in 2014. The administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 12 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remain some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.

Paterson School District	**Cost Savings**	WEA Select Medical Plans through Premera: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees.

		H. An open 3-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the HDHP or the EasyChoice Plan. The EasyChoice Plan provides three options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered in full. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Paterson School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve satisfaction.

		C. Use "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Through Field Service staff, provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. G. Work with enrollees or their provider to address escalated or complex issues. H. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the Plans.
Paterson School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available.

School District	**Reduction**	A. Gave lower increases to dependents than to employee only tiers for the past three years. B. Added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and also added the HDHP Plan.
Prosser School District	**Administrative Cost Reduction**	In addition to the specific innovations listed in the next Section, Group Health offers the following innovative services: ~Health Coaching ~ Group Health provides a Health Coaching to all of our adult members. Coaches are health care professionals who are skilled in motivational interviewing. These health coaches provide telephonic coaching to our enrollees to improve their readiness to engage in healthier behaviors. ~ Primary areas of focus include nutrition, physical activity, early depression, and tabacco cessation. Depending on thier answers to the Health Profile, members may be contacted by a coach who can help them meet their personal health goals. Patients can also reach out directly to coaches for assistance or be referred to a coach by a member of their care team. ~ Shared Decision-Making Tools ~ To help members make decisions related to elective surgical procedures. Group Health is using shared decision making aids for 12 preference-sensitive health conditions. With topics such as knee and hip arthritis, back problems, and heart disease, the videos give members a detailed rundown on their medical condition, the treatmetn options, and how differing treatments will affect their lives. ~ Through the shared decision making process, members and their physicians can engage in an active, informed discussion about the benefits - and possible downsides- of a surgical procedure. The goal: health care that reflects a member's values and priorities, rather than only what a medical diagnosis recommends. Group Health is not only aiming to change our own standards for assuring our patients make well informed decisions, we are also leading public policy and clinical collaborative efforts at both the state and national levels to take aim at unwarranted variation, in part through promoting wide scale adoption of shared decision making.
Prosser School District	**Cost Savings**	In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and other legacy systems in order to meet federa, state, and other industry guidelines and continue to provide the best service to our customers. On December 4, 2015, Group Health Cooperative announced that it signed an agreemetn to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquistion may take up to a year or more to complete. The acquistion was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. upon the completion of the acquistition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing

Washington State Office of the Insurance Commissioner

		health plan contracts with employer group purchasers and other purchasers at the close of the the qcquistions. By joining with the lager Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.
Prosser School District	**Customer Service**	We work closely with the employees to find the right benefit designs and network optiona dn integrate them with our own delivery system to ensure that the group can maximiz cost controls. We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improvehealth through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs. In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, and identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits. Group Health recently selected OptumPx to handle our pharmacy benefits management (claims and related network administration.) As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significat savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future. Optimizing and actively managing transittions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO an dHMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower cost and fewer days in the hospital. The most apparent objective measure of this performance is fewer readmissions and lower total cost of care. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool- the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and hig ristk of hospitalization or high cost. We also received routine reports of members with hish utilization of Emergency Department Services. Additionally, we work with one of our purchasers around ED utilization for their enrollees.
Prosser School	**Part-Time Employee**	We continue to provide coverage to part time employees, down to 20 hours per week. This eligibility requirement is lower than the federal requirement. Part time employees receive benefit allocations from the state, and are also eligible to participate in

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
Puyallup School District	**Cost Savings**	Our school district continues to offer a low cost medical plan option that passes the Minimum Value and Affordable test as required by ESSB 5940. Our Benefits Committee is currently exploring and reviewing various lower cost alternatives to potentially replace some of the high cost plans currently offered.
Puyallup School District	**Customer Service**	We are moving more fully to electronic media by continually revising and updating the delivery of information available to employees through our district website. As a district practice, we are driving employees to more fully use the district's electronic resources. Additionally, we've added weekly meetings to review benefits options with new hires or newly eligible employees. During open enrollment, we hold numerous benefit depots allowing employees the opportunity to meet one on one with representatives from the benefits office and insurance brokers for the sole purpose of counseling employees about their benefit options and costs. Further, through a benefits fair format during open enrollment, vendor representatives provide formal presentations to every interested employee regarding their plan options. Wellness newsletters, broker information, and other general information regarding benefit options are routinely and regularly uploaded to our district website.
Puyallup School District	**Part-Time Employee Coverage Protection**	It has been our district's policy to provide medical benefit eligibility for anyone who works 20+ hours/week for many years. This is more proactive towards availability for part time employees than the state's requirement.
Puyallup School District	**Premium Differential Reduction**	Our progress toward full implementation has stalled. In spite of communication with leaders of our various bargaining groups and member representatives through the benefits advisory committee, two groups have made progress, all others have moved in the opposite direction of the legislation. In some cases, because of bargaining agreements, the cost for full family coverage is now higher than before the legislation was passed. Current breakdown is as follows: 3:1=1 bargaining group; 6:1=4 bargaining groups; 9:1=2 bargaining groups; 15:1=5 bargaining groups
Queets-Clearwater School District	**Administrative Cost Reduction**	Online enrollment reduces staff hours for data entry and therefore provides a cost savings
Queets-Clearwater	**Cost Savings**	Provide Premera only plans to receive 10% premium discount.

School District		
Queets-Clearwater School District	Customer Service	Provide on-line access to healthcare information including service providers
Queets-Clearwater School District	Part-Time Employee Coverage Protection	All employess are offered access to health insurance.
Queets-Clearwater School District	Premium Differential Reduction	Implemented a minimum deduction for all employees
Quilcene School District	Administrative Cost Reduction	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Quilcene School District	Cost Savings	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large

District	Category	Efforts and Achievements
		group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Quilcene School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use

		"Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Quilcene School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Quilcene School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Quillayute Valley School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the

District	Category	Efforts and Achievements
		Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Quillayute Valley School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. 		A. Gave lower increases to dependents than to employee only tiers for the past three years. B. Added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and also added the HDHP Plan.
Reardan-Edwall School District	**Administrative Cost Reduction**	The district does not incur administrative expenses that are passed along to employee premium costs. Premera's administrative costs are approximately 5% of the premium cost and is currently looking at making additional changes as it relates to the ACA "Cadillac" tax that is coming. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Reardan-Edwall School District	**Cost Savings**	The district insurer is offering a new Basic Plan in the Premera Blue Cross offerings to ensure the lowest cost available plan still meets the Affordable Care Act minimum values. Premera has the highest number of In-Network providers which allows for nearly 98% of all claims paid are in-network. Evidence based medical initiatives, provider advisory groups, an open three-tiered drug offering, and a Member 360 Dashboard that allows Case Managers to identify enrollees with specific healthcare needs. The WEA Select Medical Plans through Premera provide the following cost saving measures:

Washington State Office of the Insurance Commissioner

		A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees.

District	Category	Efforts and Achievements
		H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Reardan-Edwall School District	**Customer Service**	Premera provides website access for employees to estimate costs and also offers wellness programs, plan benefits, and necessary forms for processing. Field staff offer direct one-on-one service to employees who may need additional assistance. Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees.

District	Category	Efforts and Achievements
		C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Reardan-Edwall School District	**Part-Time Employee Coverage Protection**	Part-time employees are eligible for insurance coverage. Notice also given concerning the Washington State Marketplace offerings if they choose to waive coverage. The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available
Reardan-Edwall School	**Premium Differential**	Certificated staff agreed to a minimum out-of-pocket of 3% of the lowest cost employee only medical premium offered by the district. Classified have not bargained for any minimum out-of-pocket. The current certificated bargaining contract is up for

District	**Reduction**	renewal this year and discussions will take into consideration any changes to the minimum deduction. The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Renton School District	**Administrative Cost Reduction**	RSD purchases medical plans through the WEA benefits program, in addition to one HMO plan purchased through Group Health Cooperative. The WEA program is an efficiently run program with low administrative costs built into the premiums for the management and maintenance of these plans, and the administrative costs on the Group Health plan are below average. The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area.

		C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
		Group Health has reduced admin costs through the following:
		In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best service to our customers.
		On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition.
		By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.

Renton School District	**Cost Savings**	Both Premera Blue Cross and Group Health continue to evaluate their patient populations for early identification of costly chronic conditions. Group Health is nationally recognized for its' innovative approach to member care through their lifetimes. RSD has made progress by negotiating lower premiums on the Group Health medical plan, making strategic benefit plan alterations, and by offering an HSA-Qualified High Deductible Health Plan so that employees may cover family members at significantly lower premiums. The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs.

		D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance

		pool to reduce the cost for those with monthly co-premiums.
		Group Health provides the following:
		Group Health works closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls.
		Group Health offers patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. Group Health empowers employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs.
		In order to ensure claims timeliness and accuracy, GH has online systems that catch inappropriate billing, review coding, identify duplicate billings and COB/subrogation opportunities. Group Health performs pre-payment review of high dollar claims and post-payment audits.
		Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from the current vendor, MedImpact, to OptumRx, GH will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future.

		With Group Health's Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities.
		Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. Group Health also receives routine reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes. The key concepts in working with these members are to support identification of and bonding with a primary care provider, to offer education regarding ways to access same day care through their provider, urgent care centers, and the use of our Consulting Nurse Service (CNS.)
		The work with members identified by the ACG focuses on supporting the medical treatment plan for any chronic conditions, assisting the member in improving their self-management skills and offering various organizational and community resources. This work may include focus on improved compliance with medications, routine care, and preventive care; management of sick days, education tailored to each individual and resolving any barriers to success that are identified by the patient or caregiver.
		GH has also implemented a collaborative process between the Consulting Nurse Service, Behavioral Health Access (BHA) and Care Management (CM) areas. This process identifies individuals with high utilization of CNS and includes a review by CNS managers to determine if the calls were appropriate for the CNS program to manage. When it appears that members are accessing CNS for support with behavioral health concerns or because a behavioral health concern is driving frequent calls, e.g.

District	Category	Efforts and Achievements
		depression, anxiety; BHA reviews and reaches out to the individuals or forwards the referrals to the CM case managers, who then reach out to the patients directly. If appropriate, the behavioral health and CM clinicians will collaborate on the care offered to members with co-occurring behavioral health and medical concerns. In addition to the utilization management activities discussed above, Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. The CM staff working with hospitalized patients and following recently discharged patients are also focused on effective transition management to provide patients with a plan for a safe transition that includes post-discharge telephone calls, follow up appointments, confirmation that home health, etc. is in place, and medication reconciliation. These efforts are planned to mitigate the risk of readmission, thereby improving outcomes for patients and avoiding additional costs. Care Management staff track financial savings associated with working with patients in all areas.
Renton School District	**Customer Service**	RSD employees enjoy both a Benefits Website and a Benefits Helpline. The Benefits Website contains information for all the District's benefits plans in one convenient place and is widely accessed by both employees and their family members. It contains summaries, comparisons, calculators, forms, and links to information and resources provided by the insurance carriers. The very popular Benefits Helpline is available for employees and their families when they have questions about their District benefits. The phone calls received range on a wide variety of topics, from the new HSA-qualified HDHP, to LTD claims, vision provider searches, retirement and Medicare. In addition, RSD works with insurance brokers to evaluate communication needs, provide surveys, newsletters, meetings, and one on one assistance when necessary.

		Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.

		Group Health places a strong emphasis on Customer Service through these services: Group Health's Customer Service Centers in Seattle and Spokane serve as a vital source of quick, accurate information for members, staff, providers, and brokers. Available Monday through Friday, from 8:00 AM to 5:00 PM, they support inquiries for all lines of business and provide support for our health plans and clinics, as well as the self-service tools on our website and mobile app. In addition to taking over 4,000 calls each day, representatives also handle e-mails, written correspondence, and walk-in inquiries. Customer Service Representatives are prepared to answer all manners of health care inquiries, including questions about health plan benefits, enrollment, billing, and accessing care. While striving to resolve questions or concerns on the first contact, they also work with partner departments, care teams, and individuals throughout Group Health to ensure every issue is handled thoroughly and professionally. Whether welcoming a new member, answering a question, or solving a problem for someone in need of help, Customer Service makes it a priority to embody Group Health's mission and values on every contact. Additionally, members can conveniently access customer service 24/7 via our member website, MyGroupHealth, at www.ghc.org, or our mobile app, which is available for download on the iPhone and Android Smartphones. It includes many features available on our MyGroupHealth for Members Website and has added features, such as Symptom Checker and clinic locations and wait times. From the website, members can use online forms to order a new ID card, file a claim, view plan information, update their personal information, order prescriptions and have them delivered to their homes, and provide feedback about Group Health. Patients are able to communicate directly with their primary care team – at their convenience – which improves service and builds a stronger provider-patient relationship.

		Using MyGroupHealth, members receiving care in Group Health medical centers have online access to a shared electronic health record (EHR) consisting of their entire medical record (except chart notes). Features available to them include: • Access to lab/test/radiology results • After-visit summaries • Allergy and immunization records • Medication histories, blood pressure, weight, and current health conditions • Secure messaging with their primary care team
Renton School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		RSD has not changed part-time employees' access to coverage in recent years. Part-time employees remain eligible for the same benefits as full-time employees when they meet the definition of eligibility under their bargaining agreement. Medical insurance is optional and the district contribution for part-time employees is prorated based on the number of hours worked.
		RSD and bargaining groups are aware that for part-time employees working 30 hours per week or more, full implementation of the 3:1 premium sharing as required by ESSB 5940 may subject the district to penalties under the Shared Responsibility Provision of the Affordable Care Act.
Renton School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
		RSD has continued to discuss various proposals to make progress towards a 3:1 premium sharing ratio for employees. Through meetings and discussions with administrators, it has been noted that any drastic changes in premium shares would cause significant changes in employee enrollment and could cause the district to overspend available funding. We continue to consider all options carefully in an effort to make progress.
Republic	**Administrative**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A: Premera has been a

		health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.
Riverside School District	**Cost Savings**	We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls. We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs. In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, and identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits. Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future. Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this performance is fewer readmissions and lower total cost of care. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also receive routine reports of members with high utilization of Emergency Department Services. Additionally, we work with one of our purchasers around ED utilization for their enrollees.
Riverside	**Customer**	In addition to the specific innovations listed in the next Section, Group Health offers the following innovative services: Health Coaching - Group Health provides Health Coaching to all of our adult members. Coaches are health care professionals who are

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
School District	**Service**	skilled in motivational interviewing. These health coaches provide telephonic coaching to our enrollees to improve their readiness to engage in healthier behaviors. Primary areas of focus include nutrition, physical activity, early depression, and tobacco cessation. Depending on their answers to the Health Profile, members may be contacted by a coach who can help them meet their personal health goals. Patients can also reach out directly to coaches for assistance or be referred to a coach by a member of their care team. Shared Decision-Making Tools - To help members make decisions related to elective surgical procedures. Group Health is using shared decision making aids for 12 preference-sensitive health conditions. With topics such as knee and hip arthritis, back problems, and heart disease, the videos give members a detailed rundown on their medical condition, the treatment options, and how differing treatments will affect their lives. Through the shared decision making process, members and their physicians can engage in an active, informed discussion about the benefits—and possible downsides—of a surgical procedure. The goal: health care that reflects a member's values and priorities, rather than only what a medical diagnosis recommends. Group Health is not only aiming to change our own standards for assuring our patients make well informed decisions, we are also leading public policy and clinical collaborative efforts at both the state and national levels to take aim at unwarranted variation, in part through promoting wide scale adoption of shared decision making.
Riverside School District	**Part-Time Employee Coverage Protection**	We continue to provide coverage to part time employees, down to 10 hours per week. This eligibility requirement is lower than the federal requirement. Part time employees receive benefit allocations from the state, and are also eligible to participate in the pooling process in their respective bargaining groups. Group Health allows access for part-time employees working a minimum of 10 hours per week.
Riverside School District	**Premium Differential Reduction**	See #1 above.
Riverview School District	**Administrative Cost Reduction**	The Riverview School District has addressed the cost of administrative expenses by working with our employee benefits consultant in negotiating with both fully insured and self insured plans to reduce administrative expense wherever possible and to evaluate alternative carriers for all benefits plans that acould result in either lower administrative expenses or simply reduce total premiums.
Riverview	**Cost Savings**	The Riverview School District has taken the following steps: offered a consumer driven High deductible helath plan with an optional health savings account, offered as of 10/01/2012 and worked with our employee benefits consultant to evaluate

School District		altenative carriers for all benefit plans that could reduce premiums.
Riverview School District	Customer Service	The Riverview School District has worked to provide improved customer service by providing comprehensive employee benefits handbooks that encompass all benefit summaries, rates and vensor contact information, hostinan employee benefits fair with hours that allow for all employees to learn the most efficient way to access their benefits, ensuring thata all health plans offered provide comprehensive nurse lines and telephonic customer service and support for all members and finally by holding Benefits Advisory Committee meetings.
Riverview School District	Part-Time Employee Coverage Protection	The Riverview School District has continued to work with purchsing and bargaining groups to determin the appropriate eleigibility requirements to meet specific bargaining group needs and has provided all existing and new employees with required notifications regarding availability of health coverage through the Washington Health Plan FInder as of January 1, 2014.
Riverview School District	Premium Differential Reduction	The Riverview School District has made the efforts to reduce the differentail between employee only and full family coverage: implemented minimum premium contribution for all employees, effectively increasing employee only cost and reducing the cost for covering dependents, worked with the district's employee benefits consultant to evaluate alternative carriers for all benefit pland that coulcd reduce premiums, which would increase pooling dollars availablae to those covering dependents and finally, the JLARC K-12 Report, released in January of htis year, ranked all Washington State School District based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Riverview School District ranked 12th out of 116 district with more than 100 employees for hte 2013-2014 school year. Riverview's equity ratio multiple was 5.3 compared to an average multipl of 11.3 for the rests of 116 districts.
Rochester School District	Administrative Cost Reduction	Due to the fact that we are not a large district, our administrative costs are minimal. We have one employee who works in this area; however, if she were not working in this area she would still have a full time job so no costs savings would be realized.
Rochester School District	Cost Savings	All insurance plans are bargained through local bargaining agreements
Rochester	Customer	At the start of each school year, a benefits fair is held in which insurance providors are present and all employees have the

School District	**Service**	ability to ask specific questions. In addition, we work with Propel Insurance to provide a benefits website that summarizes all our benefit information as well as provides newsletters and other health information. Since we are a smaller size district, we have one person managing benefits. She is in constant contact with providers to stay up-to-date with any changes and quickly communicates updates to employees through email or newsletters.
Rochester School District	**Part-Time Employee Coverage Protection**	Employees working 20 hours per week or more in permanent positions are eligible for benefits.
Rochester School District	**Premium Differential Reduction**	Bargaining language in place for certificated staff allowing pooling dollars to be received only if covering a dependent
Roosevelt School District	**Administrative Cost Reduction**	Premera has been a leader in implementing "Lean" thinking. The goal is to be able to imrprove quality, employee experience, and efficiency while eliminating non-value added time and work effort lowering expenses. The percentage of WEA claims paid through auto adjunction remains some of the highest within Premera, which reduces the need for intervention.
Roosevelt School District	**Cost Savings**	Premera has the hightest number of providers "in network" in the state (resulting in 98%+ claims are paid "in-network"). Significant discounts which are passed on to WEA Premera enrolles who travel or reside outside the Premera service area. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrolees needs. Member 360 dashboard is a tool used by Premera Case Managers to identify enrolles with specific healthcare needs and ensure they're receiving the appropriate services. Plans that include co-payments for ER services (waived it admitted), copyments for inpatient hospital admissions, and higher copayments for brand, non-preferred and speciality drugs. Programs that monitor controlled medication substances to ensure appropriate user for enrollees. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. Child COBRA Rate- Overage dependents pay the lower child care rate rather than the subscriber rate. The premium rate for dedpendent children is the same whether there is one or more enrolled. Prior Authorization- Some services require an approval fro coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. There are 7 freestanding medical plans available

		statewide with a broad range of benefits and rate levles to meet the diverse needs of school district employees and their families. Employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Roosevelt School District	**Customer Service**	Provide website with access to information about the employee's benefits, including cost estimator. Provides educational infomration about wellness programs, plan benefits, and houses forms commonly used for employers and enrollees. Sue Ulysses Learning- leading to first call resolution and a higher level of satisfaction from enrolless. Conduct "Lean" workshops which improve policies and processess for all areas within the company that support WEA enrollees. Provide year round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Create newsletters on topics that maiximize enrollees benefits, wellness resources, provider updates, and benefit/rate changes.
Roosevelt School District	**Part-Time Employee Coverage Protection**	Have provided access to coverage for part-time employeess working 17.5 hours a week for over 30 years. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums.
Roosevelt School District	**Premium Differential Reduction**	Applied lower increases to dependent rate tiers than to employee only rate tiers. Offer lower cost options, such as the Easy Choice plan and the Basic plan and QHDHP. Composite rate for children, meaning the rate for dependent children is the same whether there is on or more enrolled. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Rosalia School District	**Administrative Cost Reduction**	The Premeral Plans offer Lean workshops to provider groups to improve efficiency and lowering expenses.
Rosalia School District	**Cost Savings**	Lower cost savings through the Basic, QHDHP and EasyChoice Plans. The Easy Choice Plan provides several options all at the same rate.
Rosalia School District	**Customer Service**	Provide a website with access to information about the employee's benefits including a cost estimator. The website provides education information about wellness programs and benefits.

Rosalia School District	**Part-Time Employee Coverage Protection**	All employees offered Health Care
Rosalia School District	**Premium Differential Reduction**	Offer lower cost options such as the EasyChoice, Basic, and QHDHP Plans.
Royal School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Royal School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the

District	Category	Efforts and Achievements
		Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Royal School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera

		provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Royal School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Royal School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate
San Juan Island School District	**Administrative Cost Reduction**	1) By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible 2) Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums
San Juan Island School District	**Cost Savings**	We have implemented the following steps: 1) Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012 2) Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars 3) Use of purchasing consortium / Interlocal to purchase some benefits at a lower cost across several districts (applicable for districts purchasing some benefits through an interlocal) 4) Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.

District	Category	Efforts and Achievements
	Protection	
Satsop School District	Premium Differential Reduction	Offer lower cost options such as EasyChoice Plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). A High Deductable Health Plan (HDHP) is available.
Seattle Public Schools	Administrative Cost Reduction	In 2014, SPS vetted current brokerage and benefits administration services with a thorough competitive bidding process. As a result of this competitive bidding process, the District enjoyed significantly reduced administrative expenses in 2015. For the November 2015 plan year, SPS piloted online enrollment for a sample group of District employees through the District's Human Resources Information System. This pilot group's successful enrollment resulted in faster and more efficient data transfer to the insurance carriers, and a reduction in administrative and mailing costs. SPS plans to expand this online Open Enrollment to additional groups of employees in 2016.
Seattle Public Schools	Cost Savings	SPS has made progress by aggressively negotiating lower premiums, making strategic benefit plan alterations, and by offering an HSA-Qualified High Deductible Health Plan so that employees may cover family members at significantly lower premiums. For the plan year beginning November 1, 2015, the District reviewed competitive bids from multiple insurers and replaced the

District	Category	Efforts and Achievements
		two plans offered by KPS Health Plans with competitive PPO plans offered by Group Health Options, Inc.
		Once again this year, the Joint Insurance Committee met with a Group Health Medical Director and the Senior Wellness Consultant to review claims experience and utilization for the medical plans offered to SPS employees. Having access to experience and utilization has enabled SPS to make decisions regarding targeted benefit designs and changes to copays or coinsurance in order to increase the number of employees affiliated with primary care physicians so as to improve network utilization, to incentivize usage of generic drugs for chronic conditions, and to take advantage of the wellness opportunities available to enrollees.
		The District's primary insurer, Group Health Options Inc., has developed highly effective Care Management systems in order to identify and categorize individuals with high plan utilization. Group Health uses predictive modeling tools to identify members with specific conditions and high risk of hospitalization or other high cost health care services, and monitors reports of members with high utilization of Emergency Department Services. Care Management clinical staff (including registered nurses and licensed independent clinical social workers) reach out to individuals identified through these processes.
		Group Health recently selected OptumRx to handle their pharmacy benefits management (claims and related network administration). By switching from MedImpact to OptumRx, they expect to achieve significant savings and industry-leading capabilities to better manage this fastest growing component of health care costs into the future.
		Group Health Care Management has recently implemented a strategy to further ensure that short hospital stays are appropriately coded as observation stays, which is anticipated to yield significant savings. Through their transition management

District	Category	Efforts and Achievements
		program, the Care Management staff works with hospitalized patients and follows recently discharged patients to provide safe transition, which includes, for example, post-discharge telephone calls, follow-up appointments, confirmation that home health services are in place, and medication management. These efforts are planned to reduce the risk of readmission, thereby improving outcomes for patients and avoiding additional costs.
		All of these strategies are expected to result in cost savings that will benefit SPS employees and their families.
Seattle Public Schools	**Customer Service**	In 2014, SPS vetted current brokerage and benefits administration services with a thorough competitive bidding process. Evaluation of competitive proposals included experience with school district employees, performance metrics, educational tools, and regular communication.
		The current benefits broker/benefits administrator was maintained. District employees enjoy a Benefits Website and a Benefits Helpline - two very popular and well-received services that enable District employees to become knowledgeable health care consumers. Compared to the previous year, the number of benefits website hits increased by 20% from 2014 to 2015, and the number of Helpline calls taken during the annual Open Enrollment period increased by 8%.
		In addition, SPS employees enjoy access to enhanced information about their benefits by logging into Delta Dental, Group Health and the Premera websites to access, among other things, cost comparisons, wellness tools, and prescription drug information.
		Using MyGroupHealth, members have online access to their electronic health records. Features available include:

District	Category	Efforts and Achievements
		• Access to lab/test/radiology results • After-visit summaries • Allergy and immunization records • Medication histories, blood pressure, weight, and current health conditions • Secure messaging with their primary care team
Seattle Public Schools	**Part-Time Employee Coverage Protection**	Part-time employees' access to coverage has not changed in recent years. Part-time employees remain eligible for the same benefits as full-time employees when they work at least 0.50 FTE for their position. At 0.50 FTE, most employees receive a pro-rated district contribution for their benefits based on their FTE. SPS has also evaluated eligibility rules for substitutes and other variable-hour employees who average 30 hours per week, but who are currently not offered coverage. In order to avoid penalties under the Employer Shared Responsibility Provision of the Affordable Care Act, the District may choose to change eligibility rules to allow coverage to be offered to these employees.
Seattle Public Schools	**Premium Differential Reduction**	Recognizing that premiums for the mandatory benefits (dental, vision, life, LTD) are deducted from the District Contribution before the medical insurance premiums, in 2013 SPS introduced a new lower-cost dental insurance plan. The lower premium for this new plan provides employees with families additional funds for medical coverage, and it adds funds to the insurance pools.

District	Category	Efforts and Achievements
		For the 2015-2016 plan year, SPS underweighted dependent premiums for the two most popular PPO plans to make them more affordable.
		SPS continues to evaluate various proposals to make progress towards a 3:1 premium sharing ratio for employees. The District and bargaining groups have added language to their agreements that acknowledges that states that they will work together toward this goal. SPS and bargaining groups recognize that an incremental approach is best, because any large changes in premium shares would cause significant and unpredictable enrollment shifts and likely cause the district significant financial loss.

		H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums. A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan.

District	**Reduction**	B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Selkirk School District	**Administrative Cost Reduction**	A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the member experience while eliminating wasted time and work effort, and improving efficiency while lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in "Lean" workshops so they can incorporate them into their own business. – including the state of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.3% in 2012. WEA's administrative costs have been under 6% for over 10 years. B. BlueCard provides significant savings to Premera employees traveling or residing outside the Premera service area.
Selkirk School District	**Cost Savings**	A. Premera has the following included in all the WEA medical programs a. Provider contracting – has the highest number of providers "in network" in the state (98%+ of all claims are paid "in network"). b. The volume of enrollment in Premera assists in negotiating higher discounts locally and nationally (with over 1.7 million members and over 127,000 of those are enrolled in a WEA medical plan). In addition to the WEA account, Premera provides coverage for many large, national accounts such as Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air, etc. c. BlueCard – Premera's national "Blue"network – has negotiated discounts that are the highest within the state and provides significant savings to Premera enrollees who travel or reside outside the Premera service area. d. Selkirk School District	**Customer Service**	A. Premera provides a website with access to information about the employee benefits – this includes a cost estimator which helps them determine what provider may require less out-of-pocket costs for the enrollee or their family. The website provides educational information about wellness programs and their plan benefits. B. Premera does independent surveys to measure member satisfaction and then puts a focus on making changes to improve satisfaction. C. Premera has "Ulyssess Learning" which leads to first call resolution and a higher level of overall satisfaction from enrollees.

District	Category	Efforts and Achievements
		D. Premera's "Lean" workshops include Customer Service, Claims and Billing processes which we continue to focus on in order to improve the member experience. E. WEA Select Plans –The dedicated Premera sales team provides year-round servicing and is available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera will work to resolve claim issues for the enrollees as well. This provides additional support to the district as well as direct support to the employees. F. WEA Select Plans - semi-annual newsletters are sent to enrollees to educate them on their plans and access to information to help support decision making and healthier lifestyle decisions. G. WEA – has their own separate claim review process that allows enrollees to go before a board of their peers and have the claim upheld, denied or have an administrative allowance made. Enrollee input has assisted the WEA in developing additional benefits or modifications to their plans.
Selkirk School District	**Part-Time Employee Coverage Protection**	A. Some of the innovative programs Premera has made available have consisted of: a. Patient-centered medical home program enabled members to select a clinic at which they received their non-emergent health care without having a copayment. b. Palliative care program was specifically designed to coordinate all care for patients identified to be terminally ill. B. Global Outcomes Contracting – Premera's efforts have been acknowledged by the Robert Woods Johnson Foundation and by Forbes Magazine. This has also drawn interest from the National Institute of Health Care Management (NIHCM) and Premera has been asked to present information on this to the NIHCM May Board meeting. (Forbes article can be found at: http://www.forbes.com/sites/davechase/2013/03/17/div-health-reform-proof-of-how-easy-it-is-to-slay-the-healthcare-cost-beast/) C. WEA Select Plans - offers surviving dependents medical coverage for up to 12 months following the employees death, at no

		cost.
Selkirk School District	**Premium Differential Reduction**	A. WEA Select Plans – Passed on lower increases to dependents than to employee only tiers for the past two years. B. WEA Select Plans - added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and the HDHP Plan. C. WEA Select Plans – used the projected savings from the dependent eligibility audit to apply toward the dependent tiers to provide additional rate relief for family coverage.
Sequim School District	**Administrative Cost Reduction**	1. By working with our employee benefits consultant, we've negotiated with both fully insured and self insured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Sequim School District	**Cost Savings**	We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savigns Account offered as of 10/01/2012. 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars. 3. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Sequim School District	**Customer Service**	Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. Hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. Having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Sequim School District	**Part-Time Employee Coverage Protection**	We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. Provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Sequim School	**Premium**	We have done the following: Implemented minimum premium contribution for all employees, effectively increasing the

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
District	**Differential Reduction**	employee only cost and reducing the cost for covering dependents. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Sequim School District ranked 1st out of 116 districts with more than 100 employees for the 2013-14 school year. Sequim's equity ratio, multiple was just 2.1 compared to an average multiple of 11.3 for the rest of the 116 districts. *Despite being ranked 1st in the state, we believe a more accurate reflection of true cost reduction would have been achieved by measuring the average monthly costs for an employee to purchase full family medical coverage expressed in raw dollars. Based on that metric, the Sequim School District ranked 4th out those same 116 districts for the 2013-14 school year. Sequim's average monthly cost to for an employee purchasing full family health insurance was just $185 compared to an average of $518 for the rest of the group.
Shaw Island School District	**Administrative Cost Reduction**	We are a very small district with only one admin person who does a variety of jobs
Shaw Island School District	**Cost Savings**	The following steps taken by WEA have benefitted our district: Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums
Shaw Island School District	**Customer Service**	We are a very small district with only 3 employees with health benefits. We were able to meet and review plans
Shaw Island School District	**Part-Time Employee Coverage Protection**	Part-time, year-round employess over .4 receive health benefits
Shaw Island	**Premium Differential**	The following steps taken by WEA have benefited our district: Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents; worked with employee benefits

Washington State Office of the Insurance Commissioner

Calendar Year 2015

District	Category	Efforts and Achievements
School District	Reduction	consutlatn to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. As a district, the three covered employees carefully reviewed plans. The two employees without dependents were able to choose lower premium plans that met their needs leaving more pooling dollars for the one employee with dependents.
Shelton School District	Administrative Cost Reduction	Currently no direct costs are associated to benefit administration with the district.
Shelton School District	Cost Savings	We are continuing to review our premiums and look for other carriers that may have more affordable prices. At this point will receive a 10% discount from Premera because we only offer only Premera plans and one HMO choice. We do offer the full range of Premera plans including the basic and high deductible plans that have lower premiums.
Shelton School District	Customer Service	We are continuing to work to provide employees with insurance information and options on the district web site. Links are provided for our carriers who offer additional resources on their websites. The providers are offering a wide range of information and plan comparisons on-line.
Shelton School District	Part-Time Employee Coverage Protection	Regular employees working at least half time qualify to receive medical insurance benefits and are included in the pooling process. We offer a range of options with lower premium rates so part time employees have an affordable choice.
Shelton School District	Premium Differential Reduction	By having a minimum payment for individuals, more of the districts insurance dollars have been able to be pooled to help cover the cost of family coverage. By offering the high deductible plan and the lower premium plans, family insurance is more affordable. Premera has applied lower increases to dependent tiers of their premiums that last few years.
Shoreline School District	Administrative Cost Reduction	Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in Premera’s “Lean” workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. 		administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 12 years. Group Health has reduced administrative costs through a continued effort on existing technology and making needed improvements in order to meet federal, state and iindustry guidelines and continue to provide the best service to our customers.
Shoreline School District	**Cost Savings**	Our health plan renewalls continue to include changes to deductibles and other cost sharing.
Shoreline School District	**Customer Service**	HR Staffing continues to provide support staff available to provide information and support to staff seeking benefits questions during and after the school work day. The District hosts an annual Benefits Fair to provide information and materials to staff regarding benefits options and choices. Our employees have access to The Benefits Website and The Benefits Helpline. These websites contain information for all the District's benefit plans in one convenient place and is widely accessed by both employees and their families. The helpline is available for employees and their families when they have questions about their available benefits. There is also access to a cost estimator, which helps employees determine which plans require less out-of-pocket costs.
Shoreline School District	**Part-Time Employee Coverage Protection**	Shoreline School District continues to offer benefit packages to part time employees (Classified staff working as little as 3.5 hrs per day; Certificated staff working a minimum .4 FTE). They include; medical, dental, vision, long term disability, and life insurance.
Shoreline School District	**Premium Differential Reduction**	Shoreline SD continues to provide better education to increase enrollment on the lower-premium plans in order to reduce the premiums paid by employees with families.
Skamania School District	**Administrative Cost Reduction**	As we have regularly completed a competitive bid process, and have reviewed and negotiated lower administrative costs. Our selected health carrier, Providence Health Plan, has significantly reduced administrative costs over the last few years. We have t
Skamania	**Cost Savings**	We have annually negotiated with our health carrier on benefits and rates. This negotiation has successfully reduced the rates.

This provides additional support to the district as well as direct support to their employees.
Snohomish School District	**Part-Time Employee Coverage Protection**	A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available.
Snohomish School District	**Premium Differential Reduction**	A. Lower increases were applied to dependents than to employee only tiers for the past four years. B. Added lower cost options, such as the EasyChoice plans (which have many first dollar benefits) and a HDHP. C. Dependent children electing COBRA coverage pay a child rate and not a subscriber rate. D. Each child does not pay a separate premium, as the child premium is a composite rate.
Snoqualmie Valley School District	**Administrative Cost Reduction**	By working with our employee benefit consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. We worked with our employee benefit consultant to evaluate alternative carriers for all benefit plans that could result in either lower adminstrative expenses or simply reduce total premiums.
Snoqualmie Valley School	**Cost Savings**	We have Implemented the following steps: 1.) Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/1/2012. 2.) Established an HSA employer contribution of $125 per employee per month, resulting in

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
District		an increase to pooling dollars. 3.) Worked with employee benefit consultant to evaluate alternative carries for all benefit plans that could reduce premiums. 4.) Added a new lower cost Basic Plan.
Snoqualmie Valley School District	Customer Service	We have worked to improve customer service by providing comprehensive employee benefit handbook that encompasses all benefit summaries, rates and vendor contact information. We host an employee benefit fair with hours allowing for all employees to learn the most efficient way to access their benefits. We ensure that all health plans offered provide comprehensive nurse line and telephonic customer serivice and support for all members. We have regular Benefit Advisory Committee meetings with representation from all bargaining groups. We provide a benefit website page on our district website that has detailed information regarding all plans and carriers, including phone numbers and website links.
Snoqualmie Valley School District	Part-Time Employee Coverage Protection	We have continued to work with all purchasing/bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefit needs. We have provided all existing and new employees with required notification regarding availablity of health coverage through Washington Health Plan Finder as of January 1st, 2015.
Snoqualmie Valley School District	Premium Differential Reduction	We have implemented a minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. We have encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in and increase to pooling dollars. Worked with employee benefit consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. The JLARC K-12 Report, released in January this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only costs). Based on that metric, the Snoqualmie Valley School District ranked 56th out of 116 districts with more than 100 employees for the 2013-2014 year. Snoqualmie Valley's equity ratio, multiple was 9.3 compared to an average multiple of 11.3 for the rest of the 116 districts.
Soap Lake School District	Administrative Cost Reduction	The WEA Select Medical Plans through Premera have reduced admin costs through the following: Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State

District	Category	Efforts and Achievements
		of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Soap Lake School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. The premium rate for dependent children is the same whether there is one or more enrolled. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their

District	Category	Efforts and Achievements
		families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Soap Lake School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. Work with enrollees or their provider to address escalated or complex issues. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Soap Lake School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Soap Lake School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled.

		Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
South Bend School District	**Administrative Cost Reduction**	The percentage of WEA claims paid through adjudication remains some of the highest in Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as enrollees with quick turnaround on payments for services and lower administative costs.
South Bend School District	**Cost Savings**	The premium rate for dependent children is the same whether there is one or more enrolled. Seven medical plans to choose from with wide range of benefits and rate levels. Employees can waive insurance and leftover state allocation is pooled to reduce the cost for those with monthly co-premiums
South Bend School District	**Customer Service**	Premera's WEA claims, customer service and field service teams provide website access to information about the employee's benefits, a cost estimator and educational information about wellness programs, plan benefits, commonly used enrolle and employer forms.
South Bend School District	**Part-Time Employee Coverage Protection**	District offers lower cost options: EasyChoice, Basic, QHDHP
South Bend School District	**Premium Differential Reduction**	Lower cost WEA Select Medical plan options are offered. Medical plans include a composite rate for children whether there is one or more enrolled. Dependent children are offered COBRA coverage at the child rate and not a subscriber rate.
South Kitsap School District	**Administrative Cost Reduction**	SKSD purchases medical plans through the WEA benefits program, in addition to one HMO plan purchased through Group Health Cooperative. The WEA program is an efficiently run program with low administrative costs built into the premiums for the management and maintenance of these plans, and the administrative costs on the Group Health plan are below average.
South Kitsap School District	**Cost Savings**	Both Premera Blude Cross and Group Health continue to evaluate their patient populations for early indentification of costly chronic conditions. Group Health is nationally recognized for its' innovative approach to member care through their lifetimes. SKSD has made progress by negotiating lower premiums on the Group health medical plan, making strategic benefit plan alterations, and by offering an HSA-Qualified High Deductible Health Plan so that employees may cover family members at

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		significantly lower premiums.
South Kitsap School District	**Customer Service**	Some SKSD employees enjoy both a Benefits Website and a Benefits Helpline. The Benefits Website contains information for all the District's benefits plans in one convenient place and is widely accessed by both employees and their family members. It contains summaries, comparisons, calculators, forms, and links to information and resources provided by the insurance carriers. The very popular Benefits Helpline is available for employees and their families when they have questions about their District benefits. The phone calls received range on a wide variety of topics, from the new HSA-qualified HDHP, to LTD claims, vision provider searches, retirement and Medicare. In addition, Classified Employee Representatives and Administrators works with Brokers for SKSD to evaluate communication needs, provide surveys, newsletters, meetings, and one on one assistance when necessary.
South Kitsap School District	**Part-Time Employee Coverage Protection**	SKSD did not change part-time employees' access to coverage in the 2014-2015 plan year. Part-time employees remain eligible for the same benefits as full-time employees when they meet the definition of eligibility under their bargaining agreement. Medical insurance is optional and the district contribution for part-time employees is prorated based on the number of hours worked. SKSD and bargaining groups are aware that for part-time employees working 30 hours per week or more, full implementation of the 3:1 premium sharing as required by ESSB 5940 may subject the district to penalties under the Shared Responsibility Provision of the Affordable Care Act.
South Kitsap School District	**Premium Differential Reduction**	SKSD has continued to discuss various proposals to make progress towards a 3:1 premium sharing ratio for employees. Through meetings and discussions with administrators, it has been noted that any drastic changes in premium shares would cause significant changes in employee enrollment and could cause the district to overspend available funding. We continue to consider all options carefully in an effort to make progress.
South Whidbey School District	**Administrative Cost Reduction**	1. By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses whenever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative fees or simply reduce total premiums.
South Whidbey	**Cost Savings**	We have implemented the following steps: 1. Consumer driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012. 2. Worked with employee benefits consultant to evaluate alternative carriers for all benefit

School District		plans that could reduce premiums.
South Whidbey School District	Customer Service	We have worked to proved improved customer service by: 1. Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting an employee beenfits fair with hours allowing for all employees to learn the most efficient way to access their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members.
South Whidbey School District	Part-Time Employee Coverage Protection	1. We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibilty requirements to meet their specific group's benefit needs. 2. Providing all existing and new employees with required notifications regarding availibility of health coverage through Washington Health Plan Finder as of January 1st, 2014.
South Whidbey School District	Premium Differential Reduction	We have done the following: 1. Implemented miniumum premium contribution for all employees, effectively increase the employee only cost and reducing the cost for covering dependents. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase in pooling dollars. 3. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents. 4. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the South Whidbey Island School District ranked 82nd out of 116 districts with more than 100 employees for the 2013-14 school year. South Whidbey's equity ratio, multiple was 11.9 compared to an average multiple of 11.3 for the rest of the 116 districts.

School District	**Cost Reduction**	
Steptoe School District	**Cost Savings**	The district contracts with the PEBB Program, whose cost-saving measures include: Managing the medical plans'prescripton-drug costs by promoting generic drug use through a lower-cost benefit design. Purchasing coverage for medical tools and procedures that are evidence based. Adopting PEBB's dependent verification eligibility processes, to ensure only eligible family members receive benefits.
Steptoe School District	**Customer Service**	The district follows the PEBB Program's guidelines for determining employee eligibility and enrollment procedures to ensure consistency. As required by the PEBB Program, the district is also required to verify eligibility for each employee's dependents through valid documentation before the employer enrolls the dependents in PEBB coverage.
Steptoe School District	**Part-Time Employee Coverage Protection**	District does its best to offer half time ee at prorated amount
Steptoe School District	**Premium Differential Reduction**	Defer to PEBB value for premium differential
Stevenson-Carson School District	**Administrative Cost Reduction**	Providence Health Plan has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative cost with medical cost inflation. This has resulted in reduced percentage of premium administrative cost. As such, as much as 90%-91% of premium dollars go towards claims expense costs. PHP is also not required to refund any premiums due to not meeting the MLR (medical loss ratio) requirements of PPACA.
		As a non-profit health plan, our focus is on reinvesting premiums to care for our members--not generating shareholder returns. Our margin is used exclusively to reinvest in the employees and resources that make it possible for us to maintain our leadersh

District	Category	Efforts and Achievements
Stevenson-Carson School District	**Cost Savings**	Providence Health Plan (PHP) continues to employ a robust care management program that aims to improve care outcomes for our members, ensuring that the right care is being received in the right place, at the right time. Care managers work in collaboration
		Kaiser focuses on affordability by intergrating all medical services within our system rather than delivering disconnected or fragmented care. Our focus in on delivering high-quality care to employees so they're healthier and costs are lower. Because we're all part of one organization, we carefully coordinate care, sharing information among primary care and specialty physicians, pharmacies, and laboratories through to our hospitals and specialty care centers. It enables us to improve qualtity, reduce costs and drive innovation. Our integrated electronic medical records system promotes care, access and convenience for members.
Stevenson-Carson School District	**Customer Service**	Providence Health Plan Customer Service and Claims are located in Beaverton, Oregon, hours of operation 8:00 am to 5:00 pm PST, toll free 800 number for members. Customer Service Representatives are trained to answer all calls with 92% of calls answered
		Access to care is enhanced through open scheduling, expanded hours and new options for communication with the health plan or providers. Patients not only commnicate with the care team through secure email, but they can also see openings in their doctor's schedules and make appointments online, review lab results, refill prescriptions, identify and take steps to close care gaps through their personal action plan. One of the innovations is IT tool called OpQ. Through this system, we know in real-time how many patients are in the waiting room, how long they've been waiting, and how many referrals we have sent to each specialty that day. We also monitor the success of our office staff in closing care gaps as well as other performance indicators. This enables us to monitor and remediate potential service, quality or cost challengers in real time to ensure customer satisfaction.

Stevenson-Carson School District	**Part-Time Employee Coverage Protection**	We allow coverage for part time employees.
Stevenson-Carson School District	**Premium Differential Reduction**	We analyze our pooling to make it fair for all.
Sultan School District	**Administrative Cost Reduction**	By working with our employee benefit consultant we have negotiated both fully insured and self insured plans to reduce administrative costs wherever possible. Worked with employee benefit consultant to evaluate alternative carriers for all benefit plans that could result in lower administrative costs or total premiums.
Sultan School District	**Cost Savings**	Implemented consumer driven high deductible health plan with an optional HSA offered as of 10/01/2012. Established an HSA employer contribution of $125 per employee per month resulting in an increase to pooling. Worked with employee benefits consultant to evaluate carriers for all benefit plans that could reduce premiums.
Sultan School District	**Customer Service**	We are working to provide customer service by providing comprehensive employee benefits handbooks that encompasses all benefit summaries, rates, and vendor contact information. We host an annual benefits fair allowing employees the opportunity to ask questions and learn the most efficient way to access their benefits. Ensuring all helath plans offered provide a comprehensive nurse line and telephonic customer service and support for all memebers.
Sultan School District	**Part-Time Employee Coverage Protection**	We continue to work with all bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefit needs. We provide all existing and new employees with the required notifications regarding availability of health coverage through Washington State Health Finder as of January 1, 2014.
Sultan School District	**Premium Differential Reduction**	Implemented minimum premium contribution for all employees, effectively increasing employee only cost and reducing cost of dependent coverage. Encouraged employees that do not need health plan coverage to waive district offered plan resulting in an increase of pooling dollars. Established HSA contribution of $125 per employee per month, resulting in an increase to

Sumner School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera’s Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced

District	Category	Efforts and Achievements
		overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Sumner School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes

District	Category	Efforts and Achievements
		to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.

Sumner School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Sumner School District	**Part-Time Employee Coverage**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the

		D. Group Health - In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best service to our customers. On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.
Sunnyside School District	**Cost Savings**	A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. 		N. Group Health - We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls. We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs. In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, and identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits. Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future. Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this performance is fewer readmissions and lower total cost of care. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also receive routine reports of members with high utilization of Emergency Department Services. Additionally, we work with one of our purchasers around ED utilization for their enrollees.
Sunnyside School District	**Customer Service**	A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve

District	Category	Efforts and Achievements
		satisfaction. C. Use "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Through Field Service staff, provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. G. Work with enrollees or their provider to address escalated or complex issues. H. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the Plans. I. Group Health - In addition to the specific innovations listed in the next Section, Group Health offers the following innovative services: Health Coaching Group Health provides Health Coaching to all of our adult members. Coaches are health care professionals who are skilled in motivational interviewing. These health coaches provide telephonic coaching to our enrollees to improve their readiness to engage in healthier behaviors.

		Primary areas of focus include nutrition, physical activity, early depression, and tobacco cessation. Depending on their answers to the Health Profile, members may be contacted by a coach who can help them meet their personal health goals. Patients can also reach out directly to coaches for assistance or be referred to a coach by a member of their care team. Shared Decision-Making Tools To help members make decisions related to elective surgical procedures. Group Health is using shared decision making aids for 12 preference-sensitive health conditions. With topics such as knee and hip arthritis, back problems, and heart disease, the videos give members a detailed rundown on their medical condition, the treatment options, and how differing treatments will affect their lives. Through the shared decision making process, members and their physicians can engage in an active, informed discussion about the benefits—and possible downsides—of a surgical procedure. The goal: health care that reflects a member's values and priorities, rather than only what a medical diagnosis recommends. Group Health is not only aiming to change our own standards for assuring our patients make well informed decisions, we are also leading public policy and clinical collaborative efforts at both the state and national levels to take aim at unwarranted variation, in part through promoting wide scale adoption of shared decision making.

District	Category	Efforts and Achievements
School District	**Cost Reduction**	
		A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality,improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort andlowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improveinternal/external processes throughout the organization. Other organizations participate in Premera's Leanworkshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years.
		B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera servicearea.
		C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, whichreduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees withquick turnaround on payments for services and lower administrative costs.
Tukwila School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures:
		A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts

District	Category	Efforts and Achievements
		locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of- of pocket costs for enrollees on a WEA Plan. WEA Premera enrollees who travel or reside outside the Premera service area. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to

District	Category	Efforts and Achievements
		B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific

Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the

		EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Valley School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues.

		G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Valley School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Valley School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Vancouver School District	**Administrative Cost Reduction**	Administration expenses at the District level are a very small portion of total insurance costs. New state and federal regulations have required us to add staff.
Vancouver School District	**Cost Savings**	The WEA/Premera online enrollment system allows employees to compare the previous years expenses with estimated coverage under alternate WEA/Premera plans. Benefit staff also work closely with employees asking questions and highlighting benefits of lower cost plans to help employees discover their true health insurance needs. The two highest cost plans, Plans 5

		and 2, had an enrollment decrease of 55% and 29% respectively.
Vancouver School District	**Customer Service**	We strive to offer our new employees the highest level of customer service by providing benefit orientations individually or in small groups. We devote multiple days in August to new educator benefit processing. Our comprehensive Benefit Guide is distributed each year at open enrollment and is available 24/7 via our staff portal. The staff portal also includes contacts, education pieces, monthly health topic newsletters, and forms. We host weekly benefit help sessions during open enrollment and a large benefit fair with all vendors in attendance. Employees may meet with a Premera representative at any of seven monthly Premera Assistance Days to gather information to assist them in making proactive decisions regarding their health care.
Vancouver School District	**Part-Time Employee Coverage Protection**	Employees that work 17.5 hours or more per week are eligible to participate in health benefits. Our district offers a wide range of plans and premiums to all employees.
Vancouver School District	**Premium Differential Reduction**	Signed Memorandum of Understanding with all bargaining groups that both parties agree to explore options for making progress toward a 3:1 ratio between family and employee only rates. Held multiple insurance oversight committee meetings to discuss necessary changes to premium rate structure. The district collaborated with unions to look at adding a minimum premium charge at the end of their collective bargaining agreement.
Vashon Island School District	**Administrative Cost Reduction**	Admimistrative costs continue on a downward trend and are under 6%. High claims paid through auto adjudication reduces need for manual intervention which lowers administration costs.
Vashon Island School District	**Cost Savings**	Provider contracting and volume of enrollment help negotiate higher discounts. We offer plans that include copayments for Emergency Room service (waived if admited). Copayments for inpatient hospital admissions and higher copayments for brand, non-preferred and speciality drugs. Some services require prior authorization which provides financial protection against unnecessary serives. Overage dependents pay the lower child rate rather than subscriber for COBRA. BlueCard program offers enrollees discounts if traveling outside Premera service area. If employee waives medical coverage, any leftover state allocation is put back into te insurance pool to reduce the cost for those with monthly co-premiums.

Wahluke School District	**Administrative Cost Reduction**	Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization.
Wahluke School District	**Cost Savings**	The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA’s over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts.
Wahluke School District	**Customer Service**	A. Provide a website with access to information about the employee’s benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees.
Wahluke School District	**Part-Time Employee Coverage Protection**	A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan.
Wahluke School District	**Premium Differential Reduction**	A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers.
Waitsburg School District	**Administrative Cost Reduction**	Premera has been a leader in implementing "lean" thinking sice 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Premera has reduced overall administrative costs from 8.8% in 2005 to 6.3% in 2013. WEA's admin costs have been under 6% for over 11 years. The reduction have been passed on to our District. Premera's BlueCard provides significant saving to Premera enrollees traveling or residing outside the Premera service area.

District	Category	Efforts and Achievements
Waitsburg School District	**Cost Savings**	Districts provider Premera provided a plan that has the highest number of providers "in network" in the state. Providers' volume of enrollment assists in negotiating high discounts locally and nationally. Provider has negotiated discounts that are at the highest level within the state and provides significant savings to Premera enrollees who travel or reside outside the Premera service area. Provider has evidence-based medical initiatives that allow them to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. Provider has advisory groups for medical and pharmacy that continually monitor its policy and procedures and make changes to formularies to ensure they are appropriate, and cost and care-efficient. Premera's member 360 dashboard, a proprietary tool that uses more than claims to identify enrollees with specific healthcare needs. Premera provides plans that include copayments for Emergency Room service waived if admitted, copayments for inpaitient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. Premera's has programs that monitor controlled medication substances to provide protection for enrollees. Premera has an open drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective.
Waitsburg School District	**Customer Service**	Premera offers a website with access to information about the employee's benefiswich includes a cost estimator which helps them determine which providers require less-out-of-pocket costs. The website providdes educational information about wellness programs and their plan benefits. Premera does independent surveys to measure enrolee satisfaction and then puts a focus on making changes to improve enrollees satisfaction. Premera's Sales team provides year-round servicing and is availabletowork directly with enrolleees or family members who may need additional assistance with their plans. Premera provides an array of services from education about benefits and plan chocies to when a plan can be made. Working to help resolve claim issues. Carrier provides a semi-annual newsleters to enrollees to educate them on their plans and provide access to infomation to help support decision making and healthier lifestyle decisions.
Waitsburg School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans offered through Premera provided access to coverage for part-time employees working 17.5 hours a week. Added lower cost options, such as the EasyChoice Plan, that have lower premiums and many first dollar benefits and also added the HDHP Plan.
Waitsburg School District	**Premium Differential**	District provider gave lower increases to dependents than to employee only tiers for the past three years. Added lower cost options, such as the EasyChoice plan that have lower premiums and many first dollar benefits and also added HDHP Plan.

District	Category	Efforts and Achievements
	Reduction	
Walla Walla Public Schools	Administrative Cost Reduction	With the ability to access our census/utilization data this allows our broker to better negotiate and minimize premium increases and administrative costs - these savings are passed onto employees
Walla Walla Public Schools	Cost Savings	Working directly with our broker we have local control over plan design and receive guidance on how plan design changes can have a positive impact on costs while also engaging employees for better decision making and utilization of their plan. In addition we eliminate WEA Vision coverage @ $31.2 in exchange for MetLife-same VSP network with better coverage @ $19.97. Premium savings of $11.28 back to pooling to help with medical premiums.
Walla Walla Public Schools	Customer Service	Increased communication to employees regarding health and wellness tools available via their health plan as well as on site health plan representative to answer questions
Walla Walla Public Schools	Part-Time Employee Coverage Protection	Since we direct negotiate our health plan we were able to establish lower minimum work hours for employee participation
Walla Walla Public Schools	Premium Differential Reduction	We eliminated our "Platinum" plan and restructured deductibles on lower premium plans to encourage enrollment on those plans which as a ration are more affordable
Wapato School District	Administrative Cost Reduction	For Premera: A. Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in Premera’s “Lean” workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.6% in 2014. The administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 12 years.

District	Category	Efforts and Achievements
		B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remain some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs. For Group Health: In 2015, Group Health continued to focus our efforts on existing technology, making needed improvements to Premier and other legacy systems in order to meet federal, state, and industry guidelines and continue to provide the best service to our customers. On December 4, 2015, Group Health Cooperative announced that it signed an agreement to be acquired by Kaiser Foundation Health Plan of Washington. The approval process for the acquisition may take up to a year or more to complete. The acquisition was approved by Group Health's voting membership and is pending regulatory approval. Group Health's operations will not change right away. Upon the completion of the acquisition process, Kaiser Foundation Health Plan of Washington will become the parent company of Group Health Cooperative, Group Health Options, Inc., and certain other current Group Health subsidiaries. Group Health Cooperative and Group Health Options, Inc. will continue to hold their existing health plan contracts with employer group purchasers and other purchasers at the close of the acquisition. By joining with the larger Kaiser Permanente organization, Group Health will have access to greater resources and capital that will expand our capacity to care for and attract more people in Washington State.
Wapato School District	**Cost Savings**	For Premera: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area.

District	Category	Efforts and Achievements
		B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 3-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the HDHP or the EasyChoice Plan.

District	Category	Efforts and Achievements
		The EasyChoice Plan provides three options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered in full. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums. For Group Health: 2. We work closely with the client to find the right benefit designs and network options and integrate them with our own delivery system to ensure that the group can maximize cost controls. We offer patient-centered care that promotes collaboration between physicians, specialists, and other members of the health care team. We empower employees to improve health through cost effective care management, wellness solutions, and occupational health services. All of these can result in a more productive workforce and lower overall costs. In order to ensure claims timeliness and accuracy, we have online systems that catch inappropriate billing, review coding, and identify duplicate billings and COB/subrogation opportunities. We perform pre-payment review of high dollar claims and post-payment audits. Group Health recently selected OptumRx to handle our pharmacy benefits management (claims and related network administration). As part of our continuing focus on cost savings across the enterprise, we identified our PBM relationship as a potential opportunity. By switching from our current vendor, MedImpact, to OptumRx, we will achieve significant savings and industry-leading capabilities to better manage the fastest growing component of health care costs into the future. Optimizing and actively managing transitions of care is a core competency and differentiator for Group Health. With onsite hospitalists and CMLNs to assist with transitions of care from one site to another and referrals to specialty programs or services, for both PPO and HMO members, Group Health is able to achieve better outcomes and lower costs. Coordinating these "hand-offs" results in lower costs and fewer days in the hospital. The most apparent objective measure of this performance is fewer readmissions and lower total cost of care. With our Optum Impact Intelligence tool, Group Health is able to analyze and dissect clinical and financial data to track utilization trends, patient outcomes, and provider performance and better manage the total cost of care and identify improvement opportunities. Group Health Care Management uses a number of approaches to identify individuals with high utilization of specific services and overall high utilization. Specifically, we use a predictive modeling tool - the Johns Hopkins Adjusted Clinical Groups (ACG) system - to identify members with specific conditions and high risk of hospitalization or high cost. We also receive routine reports of members with high utilization of Emergency Department Services. Additionally, we work with one of our

District	Category	Efforts and Achievements
		purchasers around ED utilization for their enrollees.
Wapato School District	**Customer Service**	For Premera: Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve satisfaction. C. Use "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Through Field Service staff, provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. G. Work with enrollees or their provider to address escalated or complex issues. H. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the Plans.

		For Group Health: In addition to the specific innovations listed in the next Section, Group Health offers the following innovative services: Health Coaching Group Health provides Health Coaching to all of our adult members. Coaches are health care professionals who are skilled in motivational interviewing. These health coaches provide telephonic coaching to our enrollees to improve their readiness to engage in healthier behaviors. Primary areas of focus include nutrition, physical activity, early depression, and tobacco cessation. Depending on their answers to the Health Profile, members may be contacted by a coach who can help them meet their personal health goals. Patients can also reach out directly to coaches for assistance or be referred to a coach by a member of their care team. Shared Decision-Making Tools To help members make decisions related to elective surgical procedures. Group Health is using shared decision making aids for 12 preference-sensitive health conditions. With topics such as knee and hip arthritis, back problems, and heart disease, the videos give members a detailed rundown on their medical condition, the treatment options, and how differing treatments will affect their lives. Through the shared decision making process, members and their physicians can engage in an active, informed discussion about the benefits—and possible downsides—of a surgical procedure. The goal: health care that reflects a member's values and priorities, rather than only what a medical diagnosis recommends. Group Health is not only aiming to change our own standards for assuring our patients make well informed decisions, we are also leading public policy and clinical collaborative efforts at both the state and national levels to take aim at unwarranted variation, in part through promoting wide scale adoption of shared decision making.
Wapato	**Part-Time**	For Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years.

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project
Exhibit A19b
Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
School District	**Employee Coverage Protection**	Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available. For Group Health: We continue to provide coverage to part time employees, down to 10 hours per week. This eligibility requirement is lower than the federal requirement. Part time employees receive benefit allocations from the state, and are also eligible to participate in the pooling process in their respective bargaining groups. Group Health allows access for part-time employees working a minimum of 10 hours per week.
Wapato School District	**Premium Differential Reduction**	For: Premera: A. Lower increases were applied to dependents than to employee only tiers for the past four years. B. Added lower cost options, such as the EasyChoice plans (which have many first dollar benefits) and a HDHP. C. Dependent children electing COBRA coverage pay a child rate and not a subscriber rate. D. Each child does not pay a separate premium, as the child premium is a composite rate. For Group Health: See affordability response.
Warden School District	**Administrative Cost Reduction**	Using a FTE based system reduces some administrative costs as employees with a lower FTE would contribute to their offered benefits.
Warden School District	**Cost Savings**	PEBB offers a Health Savings Account which the employer as well as employees contribute to. The HSA has a high deductible and contributions can be banked for when they are needed. This account can build over time and is not lost at the end of the

Washington State Office of the Insurance Commissioner
K–12 School District Data Collection Project

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
		year like a flex plan. PEBB offered lower rates than other insurance plans which allows for a lower cost to employees. Many in-network providers available to our employees with PEBB offer lower out of pocket costs.
Warden School District	**Customer Service**	We communicate questions or concerns between our employees and the insurance provider. Payroll/Personnel assists employees with issues that arise with their insurance, upload and submit documents such as enrollment changes, and communicates with insurance provider representatives to clarify questions as well as resolve issues.
Warden School District	**Part-Time Employee Coverage Protection**	Part time employees are offered insurance based on their FTE. Calculating premium costs using an employee's FTE allows for the employee to receive a percentage of the district/state contribution amount, this increases the amount the employee contributes towards the premium and decreases the amount the district/state contributes towards the premium.
Warden School District	**Premium Differential Reduction**	Our district uses Health Care Authority/PEBB as our insurance provider. For a full time employee the premium is only $301.00 for full family coverage as the district/state contributes up to a set amount to offset the cost for full coverage to employees.
Washougal School District	**Administrative Cost Reduction**	1. By working with our employee benefits consultant, we've negotiated with both fully-insured and self-insured plans to reduce administrative expenses wherever possible. 2. Worked with our employee benefits consultant to evaluate alternative carriers for all benefit plans that could result in either lower administrative expenses or simply reduce total premiums.
Washougal School District	**Cost Savings**	We have implemented the following steps: 1. Consumer Driven High Deductible Health Plan with an optional Health Savings Account offered as of 10/01/2012 2. Established an HSA employer contribution of $125 per employee per month, resulting in an increase to pooling dollars. (If Applicable) 3. Use of purchasing consortium / Interlocal to purchase some benefits at a lower cost across several districts (applicable for districts purchasing some benefits through an interlocal) 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums.
Washougal	**Customer**	We have worked to provide improved customer service by:

Washington State Office of the Insurance Commissioner

Efforts and Achievements by District
Calendar Year 2015

District	Category	Efforts and Achievements
School District	**Service**	1. Providing comprehensive employee benefits handbook that encompasses all benefit summaries, rates, and vendor contact information. 2. Hosting an employee benefits fair with hours allowing for all employees to learn the most efficient way to access their benefits. 3. Ensuring that all health plans offered provide comprehensive nurse line and telephonic customer service and support for all members. 4. Having regular Benefits Advisory Committee meetings with representation from all bargaining groups.
Washougal School District	**Part-Time Employee Coverage Protection**	1. We have continued to work with all purchasing / bargaining groups to determine the appropriate eligibility requirements to meet their specific group's benefits needs. 2. Provided all existing and new employees with required notifications regarding availability of health coverage through Washington Health Plan Finder as of January 1st, 2014.
Washougal School District	**Premium Differential Reduction**	1. Implemented minimum premium contribution for all employees, effectively increasing the employee only cost and reducing the cost for covering dependents. 2. Encouraged employees that do not need health plan coverage to waive off of the district offered plan, resulting in an increase to pooling dollars. 3. Established HSA employer contribution of $125 per employee per month, resulting in increase to pooling dollars. (If Applicable) 4. Worked with employee benefits consultant to evaluate alternative carriers for all benefit plans that could reduce premiums, which would increase pooling dollars available to those covering dependents.

		5. The JLARC K-12 Report, released in January of this year, ranked all Washington State School Districts based on the dependent equity ratio, (differential between full family coverage costs and employee only costs, expressed as a multiple of the employee only cost). Based on that metric, the Washougal School District ranked 48th out of 116 districts with more than 100 employees for the 2013-14 school year. Washougal's equity ratio, multiple was 8.6 compared to an average multiple of 11.3 for the rest of the 116 districts.
Washtucna School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating non-value added time and work effort and lowering expenses. Premera uses this method, on an ongoing basis, to continue to evaluate and improve internal/external processes throughout the organization. Other organizations participate in Premera's Lean workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean, Premera has reduced overall administrative costs from 8.8% in 2005 to 5.9% in 2015. The administrative costs specific to the WEA Plans remain approximately 5% of premium and have been under 6% for over 13 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remains some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs.
Washtucna School District	**Cost Savings**	The WEA Select Medical Plans through Premera provide the following cost saving measures: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater provider discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket

District	Category	Efforts and Achievements
		costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees. H. An open 4-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled. K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or

District	Category	Efforts and Achievements
		procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the Basic, QHDHP and the EasyChoice Plan. The EasyChoice Plan provides several options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered with low copay. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Washtucna School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Use "Ulysses Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. C. Internally, conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. D. Provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. E. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics

District	Category	Efforts and Achievements
		including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. F. Work with enrollees or their provider to address escalated or complex issues. G. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the plans.
Washtucna School District	**Part-Time Employee Coverage Protection**	The WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan that have lower premiums. Additionally, QHDHP is available.
Washtucna School District	**Premium Differential Reduction**	The WEA Select Medical Plans through Premera: A. In some years have applied lower increases to dependent rate tiers than to employee only rate tiers. B. Offer lower cost options, such as the EasyChoice plan and the Basic plan and a QHDHP. C. Includes a composite rate for child(ren), meaning the rate for dependent children is the same whether there is one or more enrolled. D. Offer dependent children electing COBRA coverage the child rate and not a subscriber rate.
Waterville School District	**Administrative Cost Reduction**	The WEA Select Medical Plans through Premera have reduced admin costs through the following: Premera has been a leader in implementing “Lean” thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and

West Valley School District (Spokane)	**Administrative Cost Reduction**	Again, looking at and seeing where health benefit dollars can be saved. Still want to make sure we receive service for the costs expended.
West Valley School District (Spokane)	**Cost Savings**	The District is working continually looking at plans that offer good coverage but are affordable for employees of all groups.
West Valley School District (Spokane)	**Customer Service**	The District works closely with all collective bargaining groups. We hold an annual benefit fair (attendance is not mandatory) with our medical vendors present to answer questions and explain coverages in detail. Our bargaining groups may also ask a vendor to come to a union meeting to answer questions from their group. We supply each employee with a folder containing information on all plans offered to their group. We are available for questions also.
West Valley School District (Spokane)	**Part-Time Employee Coverage Protection**	We offer medical to all of our employees. Whether they are 1.5 hours a day up to 8 hours. They understand that their position may not generate a lot of benefit dollars and that their out of pocket will be higher.
West Valley School District (Spokane)	**Premium Differential Reduction**	This is ongoing and we have employees who are only working for benefits for their family. Generally it is due to a spouse being self employed, etc. Some of our groups have pooling (left over $$ if another employee doesn't take medical benefits) and those $$ help those who have a higher out of pocket.

District	Category	Efforts and Achievements
White River School District	**Premium Differential Reduction**	The district has imposed a 5% minimum employee paid cost for all medical plans. The 5% goes into a pool to reduce the out of pocket cost for employees on family plans.
White Salmon Valley School District	**Administrative Cost Reduction**	Providence Health Plan has significantly reduced administrative costs over the last few years. We have targeted cost increases closer to CPI, rather than associating administrative cost with medical cost inflation. This has resulted in reduced percentage of premium administrative cost. As such, as much as 90%-91% of premium dollars go towards claims expense costs. PHP is also not required to refund any premiums due to not meeting the MLR (medical loss ratio) requirements of PPACA.
White Salmon Valley School District	**Cost Savings**	Providence Health Plan (PHP) continues to employ a robust care management program that aims to improve care outcomes for our members, ensuring that the right care is being received in the right place, at the right time. Care managers work in collaboration with providers, health professionals, and health plan medical directors to provide a coordinated approach for members with complex care needs. This approach aims to educate and assist members in utilizing health care resources appropriately. PHP has implemented interventions to prevent inpatient hospital readmissions and initiatives to reduce complaints and potential medical errors. PHP provides a comprehensive array of health and wellness promotion and preventive services through our Fit Together program and a best-in-class pharmacy management program. Providence Health Plan has invested in preventive care and chronic Case and Disease Management Programs to improve on heath care outcomes, implementation of inteventions to prevent inpatient hospital readmissions, early adoption of voluntary patient safety reporting, inititatives in place to reduce complaints and potential medical errors, the Health Plan includes a comprehensive array of health and wellness promotion and preventive services through our Fit Together program and a best-in-class pharmacy management program.
White Salmon Valley School District	**Customer Service**	Providence Health Plan Customer Service and Claims are located in Beaverton, Oregon, hours of operation 8:00 am to 5:00 pm PST, toll free 800 number for members. Customer Service Representatives are trained to answer all calls with 92% of calls answered at the point of service. Translation services available, automated voice response systement and call tracking software for real time an historical activty. The Health Plan has invested heavily in web based tools for members for outside of standard

Wishkah Valley School District	Part-Time Employee Coverage Protection	Employees are offered several choices of low cost low premium coverage
Wishkah Valley School District	Premium Differential Reduction	Employees are offered the choice of several plans that include low cost and low premium for either employee only or family
Wishram School District	Administrative Cost Reduction	WEA Select Medical Plans through Premera: A. Premera has been a leader in implementing "Lean" thinking since 2005. The goal is to be able to improve quality, improve the enrollee experience, and improve efficiency while eliminating wasted time and work effort and lowering expenses. Premera uses this method to continue to evaluate and improve internal/external processes. Other organizations participate in Premera's "Lean" workshops so they can incorporate them in their own business – including the State of Washington, various provider groups, etc. Through Lean Premera has reduced overall administrative costs from 8.8% in 2005 to 6.6% in 2014. The administrative costs specific to the WEA Plans are approximately 5% of premium and have been under 6% for over 12 years. B. BlueCard provides significant savings to WEA/Premera enrollees traveling or residing outside the Premera service area. C. The percentage of WEA claims paid through auto adjudication remain some of the highest within Premera, which reduces the need for manual intervention. This provides peace of mind for providers as well as for enrollees with quick turnaround on payments for services and lower administrative costs

Wishram School District	**Cost Savings**	WEA Select Medical Plans through Premera: A. The high number of Premera members, currently over 2 million, helps Premera negotiate greater discounts locally and nationally. In addition to WEA's over 110,000 enrollees, Premera also provides coverage to enrollees on the state Exchange, Individual, small and large group accounts. Furthermore, Premera provides coverage for many large, national accounts, including: Microsoft, Amazon, Starbucks, Weyerhaeuser, Alaska Air Group, etc. a. Provider contracting - Premera has the highest number of providers "in network" in the state (resulting in 98% + of all paid claims are "in-network"). Substantial provider discounts result in lower claims cost for the plan and lower out-of-of pocket costs for enrollees on a WEA Plan. b. BlueCard – (Premera's national "Blue" network) has negotiated significant discounts which are passed on to WEA Premera enrollees who travel or reside outside the Premera service area. B. Evidence-based medical initiatives that allow Premera to provide efficient and cost-effective care as well as to identify appropriate alternative care based on the enrollees needs. C. Real-time access to consumer decision-support resources to help enrollees understand and direct their health care needs. D. Provider advisory groups continually monitor Premera's medical and pharmacy policies and procedures, and make changes to formularies to ensure they are appropriate level/tier, and cost and care-efficient. E. Member 360 dashboard - Proprietary tool used by Premera Case Managers to identify enrollees with specific healthcare needs and ensure they are receiving the appropriate services. F. Plans that include copayments for Emergency Room service (waived if admitted), copayments for inpatient hospital admissions, and higher copayments for brand, non-preferred and specialty drugs. G. Programs that monitor controlled medication substances to ensure appropriate use for enrollees.

District	Category	Efforts and Achievements
		H. An open 3-tiered drug formulary that provides choice for enrollees and their physicians while being prudent and ensuring the drugs are cost and care-effective. I. Child COBRA Rate – Overage dependents pay the lower child rate rather than a subscriber rate. J. The premium rate for dependent children is the same whether there is one or more enrolled K. Prior Authorization – Some services require an approval for coverage from Premera before a planned medical service or procedure occurs, which provides financial protection and prevents unnecessary services. L. Choice – 7 freestanding medical plans available statewide with a broad range of benefits and rate levels to meet the diverse needs of school district employees and their families. Lower cost plans are available such as the HDHP or the EasyChoice Plan. The EasyChoice Plan provides three options all at the same rate. It was developed so employees could pick the plan most appropriate for their needs, and take the cost decision off the table. This plan has copays for office visits and generic drugs are covered in full. M. Waiver – employees can waive medical coverage under WEA. Any left-over state allocation is put back into the insurance pool to reduce the cost for those with monthly co-premiums.
Wishram School District	**Customer Service**	Premera's WEA claims, customer service and field service teams are all dedicated to the WEA account and are based in Washington. These teams: A. Provide a website with access to information about the employee's benefits, including a cost estimator. This tool helps them determine which providers require less out-of pocket costs. The website provides educational information about wellness programs, plan benefits, and houses forms commonly used by employers and enrollees. B. Conduct independent surveys to measure enrollee satisfaction and then put a focus on making changes to improve satisfaction.

District	Category	Efforts and Achievements
		C. Use "Ulyssess Learning™" – leading to first call resolution and a higher level of satisfaction from enrollees. D. Conduct "Lean" workshops which improve policies and processes for all areas within the company that support WEA enrollees. Premera places a high value on continuing to enhance the enrollee experience. E. Through Field Service staff, provide year-round servicing and are available to work directly with enrollees or family members who may need additional assistance with their plans. Premera provides an array of services from providing education about the benefits and the plan choices to when a plan change can be made. Premera also works to resolve claim issues for enrollees. This provides additional support to the district as well as direct support to their employees. F. Create the newsletters for WEA enrollees, which are published twice a year and provide information on a variety of topics including how to maximize their benefits, wellness resources, provider updates, and benefit and rate changes. G. Work with enrollees or their provider to address escalated or complex issues. H. Accept input from enrollees or school districts which has led to making modifications to processes or benefit changes to the Plans.
Wishram School District	**Part-Time Employee Coverage Protection**	WEA Select Medical Plans through Premera: A. Have provided access to coverage for part-time employees working 17.5 hours a week for over 30 years. Individual districts can choose to allow participation for employees working fewer hours, providing that the employer is contributing towards the cost of the medical plan. B. Offer lower cost options, such as the EasyChoice plan that has lower premiums and many first dollar benefits (such as generic drugs paid in full). Additionally, a High Deductible Health Plan (HDHP) is available.

Subsection (2)	1	n/a	School districts and their benefit providers shall annually submit, by a date determined by the office of the insurance commissioner, the following information and data for the prior calendar year					Carriers raised issues of calendar versus district plan year reporting. Data submission will adjust results to calendar year.	Carriers instructed to report financial data monthly based on plan year ending in 2012 and remaining months for non-calendar year plans. Some data reported as a snapshot in time.		
	30a	14	Other claims paid utilization	Carriers	BP_Year	Numeric	Plan year	Utilization (count)	All other medical visits per 1,000	1	5
2.c.iv.D	31	16	Total premiums paid by benefits package	Carriers	BP_Year, BP_Perform, BP_SD	Currency	Plan_Year, By Month	Premiums included for medical and pharmacy; vision, dental, life, LTD not included. Carrier-specific grouping status (classified/ certificated) not available	Premium recorded for experience reporting purposes	1, 12, list	5, 6, 8
2.c.iv.E	32	15	A list of large claims defined as annual amounts paid in excess of $100,000 including	Carriers					Listing of large claims by carrier	By claimant	9
2.c.iv.E	33	15	Amount paid (per claimant)	Carriers	Carrier_Claims	Currency	Plan Year	Large claims in excess of 100,000 per claimant	Submission is based on amount per claimant	By claimant	9
2.c.iv.E	34	15	Member enrollment status	Carriers	Carrier_Claims	Text	Plan Year	Individually identifiable information as defined by HIPAA will not be included; eliminating member or plan participant identifier		By claimant	9
2.c.iv.E	35	15	Primary diagnosis	Carriers	Carrier_Claims	Text	Plan Year	Carriers agreed to report ICD-9 Major Diagnosis Codes (MDC) code groupings or numbers; consolidate reporting to avoid disclosing potentially protected health information (PHI) or individually identifiable information (IIHI) as defined by HIPAA	Reporting by ICD-9 principal diagnosis code categories by claimant for all health plans combined by carrier for the reporting period	By claimant	9
Subsection (3)	29, 36	17	Annually school districts and their benefit providers shall jointly report to the OIC on their health insurance related efforts and achievements to:	Carriers	Carrier_Year	Text	Plan Year	Suggest using uniform checklist for carriers to identify efforts and achievements	Instructions include a uniform checklist of efforts and achievements	1	1
3.a	36	27	Significantly reduce administrative costs for school districts	Carriers	Carrier_Year	Narrative	Plan Year	Carrier efforts to help districts manage their programs	Description of carrier efforts to help districts manage their programs	1	1
3.b	37		Improve Customer Service	Carriers	Carrier_Year	Narrative	Plan Year	Carriers offering service on their plans	Description of carrier efforts and achievements to improve customer service	1	1
3.c	38		Reduce differential plan premiums rates between employee only and family health benefit premiums	Carriers	Carrier_Year	Narrative	Plan Year	Employee and family cost differentials established by carriers with districts determining the contribution differentials between employee and family coverage		1	1
3.d	39		Protect access to coverage for part-time K-12 employees	Carriers	Carrier_Year	Narrative	Plan Year	Carriers offering plans eligible for part time district employees	Description of carrier efforts to provide plans for part-time k-12 employees	1	1

Data Traceability Matrix for Districts — Year 4

ESSB 5940 Section 4	HCA Exhibit D	CR 103	*Language from Legislation*	Data Source	Data Table	Data Type	Reporting Period	Feedback provided by HCA (SOW #1) and K-12 Carriers (SOW #2)	Additional Data Call Explanation and Instructions	Number of values	DC Section
A	B		C	D	E	F	G	H	K	L	M
Subsection (2)			School districts and their benefit providers shall annually submit, by a date determined by the office of the insurance commissioner, the following information and data for the prior calendar year								
2.a	1		Progress by the district and its benefit providers toward greater affordability for full family coverage, health care cost savings, and significantly reduced administrative costs	Districts	SD_Year	Narrative	Calendar	The narrative applies to progress over the year	Describe district progress towards greater affordability for full family coverage	1	1
2.b	2		Compliance with requirement to provide a high deductible health plan option with a health savings account	Districts	SD_Year	Text	Calendar	Confirm districts are offering these plans to employees		1	1
2.c.i			An overall plan summary including the following: The financial plan structure and overall performance of each health plan, including:								
2.c.i.A	3		Total premium expenses	Districts	SD_Year	Currency	SD Year		Total premiums are the total dollars the district pays to the respective insurance companies for all health plans	1	1
		26	Description of "carve-out" supplemental services purchased separately from carriers (cost not built into premiums)	Districts	SD_Year	Narrative	Calendar		Supplemental services a district pays to carriers outside the health plan	1	1
		25	Total payments (i.e. fees) for supplemental services (disease management, wellness program, etc.) paid to carriers or other third parties	Districts	SD_Year, SD_Entity	Currency	SD Year		Total district payments to carriers for "carve-out" services not included in the health plans	1	1, 3
2.c.i.D	6		Plan administration expenses including compensation paid to brokers	Districts	SD_Year, SD_Entity	Currency	SD Year		Costs for the district to administer their health benefit plans, not including fees paid to third parties outside the health plan	1	1, 3
	From HCA memo		Description of district allocation of internal administration expenses (staff cost allocated to employee benefits);	Districts	SD_Year	Narrative	SD Year	Description of how district has computed expense which may vary by district		1	1
2.c.ii	7		A description of the plan's use of innovative health plan features designed to reduce health benefit premium growth and reduce utilization of unnecessary services including but not limited to the use of enrollee health assessments or health coach services, care management for high cost or high-risk enrollees, medical or health home payment mechanisms, and plan features designed to create incentives for improved personal health behaviors	Districts	SD_Innov	Check list	Calendar		Report innovative features that districts utilize to impact health care costs; make selection from check-list provided with data call	list	1, 2
2.c.iii			Data to provide an understanding of the employee health benefit plan coverage and costs, including:								
2.c.iii	8		The total number of employees, and, for each employee:	Districts	SD_Emp	Numeric	Snapshot	Marital status — no specific requirement		per employee	7
2.c.iii	9		The employee's full-time equivalent status	Districts	SD_Emp	Numeric	Snapshot	FTE Between 0 and 1.00		per employee	7
2.c.iii	10		Types of coverage or benefits received	Districts	SD_Emp	Narrative	Snapshot	Dental/vision plans not included		per employee	7
2.c.iii	11		Numbers of covered dependents	Districts	SD_Emp, SD_EmpDep	Numeric	Snapshot			per dependent	7, 8

A	B		*C*	D	E	F	G	H	K	L	M
Subsection (2)			School districts and their benefit providers shall annually submit, by a date determined by the office of the insurance commissioner, the following information and data for the prior calendar year								
2.c.iii	12		Number of eligible dependents	Districts	SD_Emp, SD_EmpDep	Numeric	Snapshot	Asking for eligible dependents but data cannot be verified		per dependent	7, 8
2.c.iii	13		The amount of the district's contribution to premium	Districts	SD_Emp	Currency	Snapshot	Retiree remittance and premiums but not included		per employee	7
2.c.iii	14		Additional premium costs paid by employee through payroll deductions	Districts	SD_Emp	Currency	Snapshot	Request annual aggregated amount of employee contributions expended for employee health benefits		per employee	7
2.c.iii	15		The age and sex of the employee	Districts	SD_Emp	Mixed	Snapshot	Requested data		per employee	7
2.c.iii	16		The age and sex of each dependent	Districts	SD_Emp, SD_EmpDep	Mixed	Snapshot	Information not readily available; districts must survey employees to collect the information		per dependent	7, 8
	From HCA memo		Total number of employees by certificated / classified status,	Districts	SD_Emp	Numeric	Snapshot			summarized	
	From HCA memo		Employee enrollment by coverage tier	Districts	SD_Emp	Numeric	Snapshot	Computed from district census		summarized	
2.c.iv.A	17		Summary of the benefit packages offered to each group of district employees, including covered benefits (etc)	Districts	SD_CarrierPlan, SD_Group, SD_GroupPlan	Narrative	Snapshot	Cost-sharing provisions and plan summaries requested with the carrier data call		by group / plan	3, 4, 5, 6
2.c.iv.A	20		Number of employees and dependents in each benefit package	Districts	SD_Emp, SD_EmpDep	Numeric	Snapshot			by plan	7, 8
2.c.iv.B	22		Aggregated dependent demographic information, including age band and gender, by insurance tier and benefit package	Districts	SD_Emp, SD_EmpDep	Mixed	Snapshot	District census is captured, but demographic reporting will use carrier files		by dependent	7, 8
Subsection (3)	36		Annually school districts and their benefit providers shall jointly report to the OIC on their health insurance related efforts and achievements to:					Instructions include a uniform checklist of efforts and achievements			
3(a)	36		Significantly reduce administrative costs for school districts	Districts	SD_Year	Narrative	Calendar	Requested data		1	1
3(b)	37		Improve customer service	Districts	SD_Year	Narrative	Calendar	Requested data		1	1
3(c)	38		Reduce differential plan premiums rates between employee only and family health benefit coverage	Districts	SD_Year	Narrative	Calendar	Districts responsibility to establish single and family contributions		1	1
3(d)	39		Protect access to coverage for part-time K-12 employees	Districts	SD_Year	Narrative	Calendar	Employer contribution for part-time employees based on pro-ratio schedule by district or local bargaining unit as applicable.		1	1

Column Definitions for the Data Traceability Matrices — Year 4

Columns from Requirements document	
A	ESSB 5940 section of bill language; otherwise CR103P rule-making order requirement
B	Data Requirement identified in SOW#1 memo from the Health Care Authority (HCA) (reference number from HCA Exhibit D)
C	Rule-making order CR103P language (filed 2.7.13)
D	Language from legislation or data authorized to collect for HCA, or as specified in CR103P rule-making order
E	Data Source — Districts or Carriers
F	Data table identifier for storing data in parent table
G	Data type (for example: narrative, text, currency, mixed, lists, numeric)
H	Reporting Period (calendar year, plan year, annual reporting by month, or snapshot date selected within the reported year)
I	SOW#1 — Health Care Authority (HCA) analysis of HCA requested data elements; SOW#2 — K-12 Carrier feedback regarding data requirements
J	Explanation and Instructions requirements
K	The number of expected discrete values
L	Data Call (DC) reporting section of the data call to districts and carriers; see below for carrier reporting period instructions

Carrier Data Call (DC) Possible Groupings (Column L)	
1	Overall carrier information, annual information
2	Carrier innovation features, checklist, annual information
3	Plan reserves for plan year ending
4	Plan information and plan year summaries, by plan year
5	Benefit package annual plan-year reporting.
6	Benefit package performance by month within calendar year
7	Plan demographics, snapshot — by plan year ending
8	District-level reporting, snapshot — by plan year ending
9	Large claims by carrier across plans — by plan year ending
