

2010 Medicare Part D Stand-Alone Prescription Drug Plans

Data as of October 2, 2009. Includes all contracts/plans regardless of 2010 approval status

Note: Always check details and formulary (list of covered drugs) with Medicare (1-800-633-4227 or www.medicare.gov) and the plan at the contact information listed below.

Costs listed in this publication may be less for people who qualify for Low-Income Subsidy (LIS), also referred to as Extra Help.

* People with LIS pay lower or no monthly premiums for Benchmark Plans.

** People with LIS have yearly deductibles from \$0-63.

*** People with LIS have no gap in coverage, for any plan they choose.

Plans with "basic" benefit types offer coverage equivalent to Medicare's basic requirements.

Plans with "enhanced" benefit types offer additional coverage beyond Medicare's basic requirements (for example, coverage for Part D excluded drugs). This coverage varies by plan, and may require clients to pay higher premiums.

Notes:

"Benchmark" plans are "basic" plans that have monthly premiums below the average amount calculated for each region, enabling Low Income Subsidy clients to enroll and pay little or no monthly premium.

Data are subject to change as contracts are finalized.

Gap coverage descriptions for the 2010 benefit year have been revised.

The percentage of "Generic" products and the percentage of "Brand" products covered in the gap are each separately calculated and the following descriptions are added:

- "All": 100% of drugs are covered through the gap
- "Many": ≥65% to <100% of drugs are covered through the gap
- "Some": ≥10% to <65 % of drugs are covered through the gap
- "Few": >0% to <10% of drugs are covered through the gap (and must also be >15 products covered through the gap)
- "No Gap Coverage": 0% of drugs are covered through the gap (or ≤15 products covered through the gap)

A label of "All Formulary Drugs" is applied for plans that cover 100% of "Generic" and 100% of "Brand" products (either by covering all drug products in the gap or by having no initial coverage limit).
