Rule number/topic	R 2021-07
	As a consumer and senior resident of the State of Washington, I find this proposed ruling to be offensive, arbitrary, and prejudiced against a large class of safe drivers. The insurance companies will be forced to raise my rates even though there is no basis for it in terms of risk. Normally, I would be writing to remind Mr. Kreidler to assure that insurance company rates are not only fair but equitable, and remain at the lowest rates possible.  Actions by Mr. Kreidler in this case are counter productive and unfair. If this rule making is necessary, then I submit that it is incomplete.  Rates should not be shifted upward for one class of insured at the expense of another, namely senior citizens who maintain appropriate risk profiles. Please reconsider this ruling to avoid unneccessary and unfair consequences.
