Email  Subject  Other  Comment(s) or question(s)  To whom it may concern:  This is in regards to the Temporary prohibition of use of credit history (R 2021-07) to determine premiums and eligibility for coverage in private auto, homeowner and renters insurance.  As a student with a good credit score, I am angry and frustrated for being penalized in my most recent automobile insurance premium which has increased 30% compared to 6 months ago. While I sympathize with Washingtonians who have bad credit histories, there must be better ways to help them with their credit histories than to penalize Washingtonians who have worked hard and followed the rules to earn their good credit standing.  I urge the Commissioner to rescind his emergency order and work harder with the Legislature next session to pass legislation that protects all Washingtonians and not just the ones with bad credit histories.
