

Your Medicare Initial Enrollment Period

When you turn age 65, you can sign up for Medicare during your Initial Enrollment Period. This is the seven-month period that starts three months before you turn 65, includes the month you turn 65, and ends three months after you turn 65.

If you enroll BEFORE your birthday month, Medicare will start on the month you turn 65. If you enroll during your birthday month or later, your Medicare will start later. The later you enroll, the later Medicare will start.
