## Report of Independent Auditors

Board of Directors  
Michigan Professional Insurance Exchange  
Grand Rapids, Michigan

We have audited the accompanying statutory basis financial statements of Michigan Professional Insurance Exchange (Exchange), which comprise the statutory balance sheets as of December 31, 2016 and 2015, and the related statutory statements of operations, changes in policyholders' surplus, and cash flows for the years then ended, and the related notes to the statutory basis financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these statutory basis financial statements in accordance with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services, which practices differ from accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these statutory basis financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory basis financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory basis financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory basis financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statutory basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness

of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory basis financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in Note 1 to the statutory basis financial statements, the statutory basis financial statements are prepared by the Exchange on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services, practices of which differ from accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the statutory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**Adverse Opinion on U.S. Generally Accepted Accounting Principles**

In our opinion, because of the effects of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Exchange as of December 31, 2016 and 2015, or the changes in financial position or cash flows thereof for the years then ended.

**Opinion on Regulatory Basis of Accounting**

In our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of the Exchange as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended, in accordance with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services.

### **1. Organization and Significant Accounting Policies**

Michigan Professional Insurance Exchange (Exchange), a reciprocal insurance exchange, was issued a final certificate of authority to conduct operations on October 1, 1988. The purpose of the Exchange is to provide medical professional liability and general liability insurance to certain hospitals and physicians. Hospitals that had policies or agreements with the Exchange during the years ended December 31, 2016 and 2015 included Spectrum Health Hospitals, North Ottawa Community Hospital, Pine Rest Christian Mental Health Services, Lakeland Regional Health System, Holland Hospital, Watervliet Community Hospital, Sparrow Health System, and Bronson Methodist Hospital. As more fully described in Note 9, the Exchange has a deposit premium agreement with Spectrum Health Hospitals.

The eligible subscribers of the Exchange are limited to certain hospitals and physicians as specified in the Bylaws of the Exchange. The Exchange prefers to write policies for both the hospital organization and its associated medical staff. Insureds that are exceptions to this model are physicians who are members of a partnership or corporation, of which at least 66% are on the medical staff of the above mentioned hospitals insured by the Exchange. The Exchange's Board of Directors can approve or revoke eligibility for any other physician licensed to practice in Michigan. See Note 8 for a discussion of reinsurance arrangements.

The Exchange has no employees and contracts with a related entity, Michigan Professional Exchange Services (MPES), for its staff, building space, fidelity bond coverage, equipment, supplies, and other administrative costs. The Exchange used Spectrum Health's network to run many of its computer programs except policy administration, document imaging, and investments for most of 2015. In November 2015, the Exchange moved all of these operations in-house. The Exchange uses the services of 22 employees of MPES, including the following: President, CFO/COO, CEO/Underwriting Assistant, Financial Analyst, Finance Secretary, Director of Risk Management and Underwriting, Underwriting Managers, Director of Claims, Litigation Manager, Claims Manager, Claims Adjuster, Claims Representative, Claims Intake, Claims Secretary, Information Security Manager, Information Systems Analyst, and Education Program Coordinator.

### **Basis of Presentation**

The financial statements are presented on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services and the National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures manual (NAIC SAP). The Michigan prescribed and permitted accounting practices used in preparation of the accompanying financial statements did not differ from NAIC SAP. NAIC SAP practices and

**Basis of Presentation (continued)**

presentation vary in some respects from accounting principles generally accepted in the United States of America (U.S. GAAP). The more significant variances between NAIC SAP and U.S. GAAP are as follows:

Bonds are reported at amortized cost rather than reporting certain bonds at fair value.

Redeemable preferred stock is reported at the lower of cost or amortized cost rather than reporting at fair value.

Unpaid losses, loss adjustment expenses, and unearned premiums are presented net of reinsurance in accordance with NAIC SAP.

Certain assets are designated as nonadmitted to the balance sheet by a direct charge to surplus.

Deferred income taxes are calculated in accordance with NAIC SAP practices.

Comprehensive income is not presented.

The statement of cash flows is prepared in accordance with NAIC SAP.

**Fair Value Measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Exchange uses various methods including market, income, and cost approaches. Based on these approaches, the Exchange often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and of the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Exchange utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Exchange is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to

determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing as asset or liability.

In determining the appropriate levels, the Exchange performs a detailed analysis of the assets and liabilities that are subject to the authoritative guidance. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

For the years ended December 31, 2016 and 2015, the application of valuation techniques applied to similar assets and liabilities has been consistent.

#### Investments

Cash and short-term investments include cash, cash equivalents, money market funds, corporate notes, and certificates of deposit with initial terms of less than one year. Short-term investments are stated at cost.

Fixed maturities (bonds) with an NAIC designation of one or two are reported at amortized cost using the scientific method. Fixed maturities with an NAIC designation of three or greater are carried at the lower of amortized cost or fair value. The Exchange held 25 such securities as of December 31, 2016 and 32 as of December 31, 2015. The Exchange has the ability and intent to hold these investments until maturity.

The Exchange's management continually monitors investments for impairment that is other than temporary. Management takes into account industry analyst reports, sector credit ratings, volatility of the security's market price, and/or any other information that management considers relevant in determining if the impairment is an other-than-temporary impairment (OTTI). If

#### **Investments (continued)**

management determines that an investment is OTTI, the investment would be written down at that time. There were no write downs on OTTI securities during 2016 or 2015.

The Exchange has elected to use book value of loan-backed securities on January 1, 1994 as the cost for applying the retroactive adjustment method to securities purchased before that date. Prepayment assumptions for single class and multi-class mortgage-backed/asset-backed securities were obtained from broker dealer survey values or internal estimates.

Common stock equity securities represent investments in four mutual funds and the Federal Home Loan Bank (FHLB) of Indianapolis, and are reported at fair value. Realized gains and losses were calculated using the specific identification method. Unrealized gains and losses are recorded in unappropriated surplus, net of deferred income tax.

Preferred stock equity securities are investments in bonds with certain characteristics that require reporting as preferred stocks in accordance with the NAIC Valuation of Securities Manual.

#### **Premium Revenue and Unearned Premiums**

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. In addition, unearned premiums include death, disability, and retirement (DDR) reserves for tail coverage for independent practitioners with claims-made coverage. Such reserves are computed by prorata methods for direct business. The Exchange anticipates investment income as a factor in premium deficiency calculations. The results of this calculation did not indicate a premium deficiency reserve at December 31, 2016 or 2015.

#### **Losses and Loss Adjustment Expenses**

The reserves for unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience of the Exchange and other relevant Michigan professional insurance company liability data, for losses incurred but not reported.

The estimated liability is continually reviewed and any adjustments which become necessary are included in operations. In the opinion of the Exchange, the reserves for unpaid losses and loss adjustment expenses are reasonable to cover the ultimate net cost of losses and loss adjustment

expenses. However, because the reserve determination involves predictions of the timing and amount of future claim payments, the ultimate settlement of losses and the related loss adjustment expenses may vary significantly from the estimated amounts included in the accompanying financial statements. Loss and loss adjustment expenses are charged to income as incurred.

#### **Federal Income Taxes**

The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases based on enacting laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income, with certain limitations.

#### **Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

#### **Concentrations, Risks, and Uncertainties**

Financial instruments, which potentially subject the Exchange to concentrations of credit risk, consist principally of cash and investments.

#### **Reclassification**

Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation.

#### **Subsequent Events**

Management has evaluated subsequent events through May 22, 2017, which is the date the financial statements were available to be issued.

#### 2. Investments in Bonds and Equity Securities (continued)

Management believes that the unrealized losses indicated previously are temporary based on management's review for both 2016 and 2015. The unrealized losses for corporate securities and mortgage-backed securities are considered temporary based on management's intent and ability to hold to maturity and the security rating of the individual securities included.

The amortized cost and fair value of debt securities, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

Common stocks and debt securities with NAIC designations higher than two are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss and liquidity assumptions. The Exchange has no assets or liabilities that are recorded at fair value on a non-recurring basis.

### **4. Policyholders' Surplus**

The Exchange established subscriber savings accounts as permitted by Section 832(f) of the Internal Revenue Code. The accounts represent allocations of some or all of the net income or losses of the Exchange. Disbursements of amounts allocated in the subscriber savings accounts require approval of the Exchange's Board of Directors. As of December 31, 2016, the Exchange had identified \$28,248,000 (\$30,825,000 as of December 31, 2015) for subscriber savings accounts. Of this amount, \$1,660,000 in 2016 and \$3,320,000 in 2015 was reported as a liability for amounts due to terminated policyholders. The remaining \$26,588,000 in 2016 and \$27,505,000 in 2015 was reported as policyholders' surplus-unassigned funds. The subscriber savings account balances are paid to the subscribers in the calendar year following their termination from the Exchange.

On January 1, 2005, the subscriber savings account of Spectrum Health in the amount of \$5,059,908 was converted to a surplus note with no stated maturity, paying interest per annum (4.75% during the years ended December 31, 2016 and 2015). The Exchange must obtain approval from the State of Michigan Department of Insurance and Financial Services (DIFS) related to principal and interest payments on the surplus note prior to the payment being made. In 2010, Spectrum Health issued a second surplus note in the amount of \$2,000,000. In 2016, the Exchange repaid the remaining surplus note of \$1,000,000 to Spectrum Health with the approval of DIFS.

The Exchange obtained approval in 2005 from DIFS related to the conversion of the Spectrum Health account as noted above. The 2014 interest of \$136,326 was approved and paid in June 2015. The 2015 interest of \$72,249 and 2016 interest of \$23,354 were approved and paid in June 2016.

### **5. Losses and Loss Adjustment Expenses**

Reserves for incurred losses and loss adjustment expenses (LAE) attributable to insured events of prior years have decreased by approximately \$2,626,000 in 2016 and \$3,224,000 in 2015, as a result of re-estimation of unpaid losses and LAE. This decrease is generally the result of ongoing analysis of recent loss development trends.

Original estimates are increased or decreased as additional information becomes known regarding individual claims.

Grand Rapids, Michigan

The report on our audit of the basic statutory basis financial statements (financial statements) of Michigan Professional Insurance Exchange (Exchange) as of December 31, 2016 and for the year then ended is presented on pages one and two of this document. That audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying Supplemental Summary of Investments, Supplemental Investment Risks Interrogatories, and General Interrogatories Part 2, No. 7, 8, & 9 of the Exchange as of December 31, 2016, and for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The effects on the Supplemental Summary of Investments, Supplemental Investment Risks Interrogatories, and General Interrogatories Part 2, No. 7, 8, & 9 of the variances between the statutory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material. As a consequence, the Supplemental Summary of Investments, Supplemental Investment Risks Interrogatories, and General Interrogatories Part 2, No. 7, 8, & 9 do not present fairly, in conformity with accounting principles generally accepted in the United States of America, such information of the Exchange as of December 31, 2016, and for the year then ended. The Supplemental Summary of Investments, Supplemental Investment Risks Interrogatories, and General Interrogatories Part 2, No. 7, 8, & 9 have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. #### B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business. Expenses incurred in connection with acquiring new insurance business are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific method. Non-investment grade bonds are stated at the lower of amortized value or fair value.
- (3) Common stocks are stated at market.
- (4) Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32.
- (5) Mortgage loans on real estate: N/A
- (6) Loan-backed securities are stated at amortized value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, that are valued using the prospective method. Non-investment grade loan-backed securities are stated at the lower of amortized value or fair value.
- (7) The Company nonadmits its investment in subsidiaries.
- (8) The Company does not have any investments in joint ventures or partnerships.
- (9) The Company does not hold any derivatives.
- (10) The Company anticipates investment income as a factor in premium deficiency calculations, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The company has not modified its capitalization policy from the prior period.
- (13) The company does not anticipate any pharmaceutical rebate receivables.

#### D. Going Concern

Management does not have any substantial doubt about the company's ability to continue as a going concern.

D. Loan-Backed Securities

- (1) For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.
- (2) The Company did not recognize other-than-temporary impairments for loan-backed securities recorded during the current year because the Company had neither the intent to sell the securities or the inability or lack of intent to retain.
- (3) Recognized OTTI securities: The Company did not recognize other-than-temporary impairments for loan-backed securities recorded during the current year because the present value of cash flows expected to be collected is less than the amortized cost basis of the securities
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

## NOTE 20 – FAIR VALUE MEASUREMENTS

A. The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

Level 3 - Significant Unobservable Inputs: This category for items measured at fair value on a recurring basis includes bonds and preferred stocks which are not exchange-traded.

## (3) Policy on transfers into and out of Level 3

At the end of each reporting period, the Company evaluates if any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

## (4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because either quoted market prices for similar instruments in an inactive market were utilized or quoted market prices for similar instruments in an active market were utilized via matrix pricing. Matrix pricing takes quoted prices of bonds with similar features and applies analytic methods to determine the fair value of bonds held. Bonds carried at fair value categorized as Level 3 were valued using an income approach. These valuations were determined to be Level 3 valuations as the price was based on unobservable market data because the bonds are trading in an inactive market. The bonds were valued using present value techniques. In 2017, no bonds were categorized as Level 3. Preferred stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because quoted market prices for similar instruments in an active market were utilized via matrix pricing as described above. Common stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because quoted market prices for identical instruments trading in an inactive market were utilized. When an equity instrument is illiquid due to limited trading activity, the use of quoted market prices for identical instruments was determined by the Company to be the most reliable method to determine fair value.

## Report of Independent Auditors

Board of Directors  
Michigan Professional Insurance Exchange  
Grand Rapids, Michigan

We have audited the accompanying statutory basis financial statements of Michigan Professional Insurance Exchange (Exchange), which comprise the statutory statement of admitted assets, liabilities, and policyholders' surplus as of December 31, 2017 and 2016, and the related statutory statements of operations, changes in policyholders' surplus, and cash flows for the years then ended, and the related notes to the statutory basis financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these statutory basis financial statements in accordance with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services, which practices differ from accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these statutory basis financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory basis financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory basis financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory basis financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statutory basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness

of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory basis financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in Note 1 to the statutory basis financial statements, the statutory basis financial statements are prepared by the Exchange on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services, practices of which differ from accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the statutory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**Adverse Opinion on U.S. Generally Accepted Accounting Principles**

In our opinion, because of the effects of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Exchange as of December 31, 2017 and 2016, or the changes in financial position or cash flows thereof for the years then ended.

**Opinion on Regulatory Basis of Accounting**

In our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of the Exchange as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended, in accordance with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services.

## Notes to Statutory Basis Financial Statements

December 31, 2017

### **1. Organization and Significant Accounting Policies**

Michigan Professional Insurance Exchange (Exchange), a reciprocal insurance exchange, was issued a final certificate of authority to conduct operations on October 1, 1988. The purpose of the Exchange is to provide medical professional liability and general liability insurance to certain hospitals and physicians. Hospitals that had policies or agreements with the Exchange during the years ended December 31, 2017 and 2016 included Spectrum Health Hospitals, North Ottawa Community Hospital, Pine Rest Christian Mental Health Services, Lakeland Regional Health System, Holland Hospital, Watervliet Community Hospital, Sparrow Health System, and Bronson Methodist Hospital. As more fully described in Note 9, the Exchange has a deposit premium agreement with Spectrum Health Hospitals.

The eligible subscribers of the Exchange are limited to certain hospitals and physicians as specified in the Bylaws of the Exchange. The Exchange prefers to write policies for both the hospital organization and its associated medical staff. The Exchange's Board of Directors can approve or revoke eligibility for any physician licensed to practice in Michigan. See Note 8 for a discussion of reinsurance arrangements.

The Exchange has no employees and contracts with a related entity, Michigan Professional Exchange Services (MPES), for its staff, building space, fidelity bond coverage, equipment, supplies, and other administrative costs. MPES leases employees from PRCD Holdings LLC. The Exchange uses the services of 25 employees.

On May 1, 2017, the Exchange formed a downstream noninsurance holding company, PRCD Holdings LLC (PRCD). PRCD leases employees to MPES, the attorney-in-fact for the holding company, and to other subsidiaries of PRCD. On July 1, 2017, PRCD formed a wholly owned subsidiary, MPIE Consulting LLC (MCON), to provide third party administrative and consulting services.

### **Basis of Presentation**

The financial statements are presented on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services and the National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures manual (NAIC SAP). The Michigan prescribed and permitted accounting practices used in preparation of the accompanying financial statements did not differ from NAIC SAP. NAIC SAP practices and presentation vary in some respects from accounting principles generally accepted in the United

States of America (U.S. GAAP). The more significant variances between NAIC SAP and U.S. GAAP are as follows:

Bonds are reported at amortized cost rather than reporting certain bonds at fair value.

Redeemable preferred stock is reported at the lower of cost or amortized cost rather than reporting at fair value.

Unpaid losses, loss adjustment expenses, and unearned premiums are presented net of reinsurance in accordance with NAIC SAP.

Investments in the Exchange's unaudited downstream subsidiaries are nonadmitted assets. Under U.S. GAAP, such investments would be consolidated with the accounts and operations of the Exchange.

Certain assets designated as nonadmitted assets are excluded from the statutory statement of admitted assets, liabilities, and policyholders' surplus and the changes in such assets are credited or charged directly to unassigned surplus. These assets primarily consist of unaudited downstream subsidiaries, uncollected premiums, and aggregate write-ins for other-than-invested assets.

Deferred tax assets and liabilities are determined in a manner similar to U.S. GAAP; however, additional criteria are then applied to those assets that may require certain amounts to be nonadmitted. The change in net deferred tax assets is recorded as a change in policyholders' surplus. Under U.S. GAAP, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years and a valuation allowance is established for deferred tax assets not realizable.

The statements of cash flow differ in certain respects from the presentation required by U.S. GAAP.

Realized gains or losses are recorded net of tax in the statements of income. Under U.S. GAAP, the tax associated with realized gains or losses is recorded as an income tax expense or benefit.

The effects of the foregoing variances from U.S. GAAP on the Exchange's statutory-basis financial statement have not been determined, but are presumed to be material.

#### Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Exchange uses various methods including market, income, and cost approaches. Based on these approaches, the Exchange often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and of the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Exchange utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Exchange is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing as asset or liability.

In determining the appropriate levels, the Exchange performs a detailed analysis of the assets and liabilities that are subject to the authoritative guidance. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

For the years ended December 31, 2017 and 2016, the application of valuation techniques applied to similar assets and liabilities has been consistent.

#### **Investments**

Cash and short-term investments include cash, cash equivalents, money market funds, corporate notes, and certificates of deposit with initial terms of less than one year. Short-term investments are stated at cost.

Fixed maturities (bonds) with an NAIC designation of one or two are reported at amortized cost using the scientific method. Fixed maturities with an NAIC designation of three or greater are carried at the lower of amortized cost or fair value. The Exchange held 32 such securities as of December 31, 2017 and 25 as of December 31, 2016. The Exchange has the ability and intent to hold these investments until maturity.

The Exchange's management continually monitors investments for impairment that is other than temporary. Management takes into account industry analyst reports, sector credit ratings, volatility of the security's market price, and/or any other information that management considers relevant in determining if the impairment is an other-than-temporary impairment (OTTI). If management determines that an investment is OTTI, the investment would be written down at that time. There were no write downs on OTTI securities during 2017 or 2016.

The Exchange has elected to use book value of loan-backed securities as the cost for applying the retroactive adjustment method to securities purchased before that date. Prepayment assumptions for single class and multi-class mortgage-backed/asset-backed securities were obtained from broker dealer survey values or internal estimates.

Common stock equity securities represent investments in four mutual funds and the Federal Home Loan Bank (FHLB) of Indianapolis, and are reported at fair value. Realized gains and losses were calculated using the specific identification method. Unrealized gains and losses are recorded in unappropriated surplus, net of deferred income tax.

Preferred stock equity securities are investments in bonds with certain characteristics that require reporting as preferred stocks in accordance with the NAIC Valuation of Securities Manual.

#### **Premium Revenue and Unearned Premiums**

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. In addition, unearned premiums include death, disability, and retirement (DDR) reserves for tail coverage for

independent practitioners with claims-made coverage. Such reserves are computed by prorata methods for direct business. The Exchange anticipates investment income as a factor in premium deficiency calculations. The results of this calculation did not indicate a premium deficiency reserve at December 31, 2017 or 2016.

#### **Losses and Loss Adjustment Expenses**

The reserves for unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience of the Exchange and other relevant Michigan professional insurance company liability data, for losses incurred but not reported.

The estimated liability is continually reviewed and any adjustments which become necessary are included in operations. In the opinion of the Exchange, the reserves for unpaid losses and loss adjustment expenses are reasonable to cover the ultimate net cost of losses and loss adjustment expenses. However, because the reserve determination involves predictions of the timing and amount of future claim payments, the ultimate settlement of losses and the related loss adjustment expenses may vary significantly from the estimated amounts included in the accompanying financial statements. Loss and loss adjustment expenses are charged to income as incurred.

#### **Federal Income Taxes**

The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases based on enacting laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income, with certain limitations.

On December 22, 2017, the President of the United States signed a tax bill which reduced the corporate income tax rate from 34 percent to 21 percent effective for tax years beginning on or after January 1, 2018. As a result, the Exchange's deferred tax assets and liabilities were remeasured for the effects of the tax rate change on the date the law was enacted.

**Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

**Concentrations, Risks, and Uncertainties**

Financial instruments, which potentially subject the Exchange to concentrations of credit risk, consist principally of cash and investments.

**Reclassification**

Certain amounts from 2016 have been reclassified to conform with the 2017 presentation.

**Subsequent Events**

Management has evaluated subsequent events through May 23, 2018, which is the date the financial statements were available to be issued.

### 2. Investments in Bonds and Equity Securities (continued)

Management believes that the unrealized losses indicated previously are temporary based on management's review for both 2017 and 2016. The unrealized losses for corporate securities and mortgage-backed securities are considered temporary based on management's intent and ability to hold to maturity and the security rating of the individual securities included.

The amortized cost and fair value of debt securities, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

Common stocks and debt securities with NAIC designations higher than two are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss and liquidity assumptions. The Exchange has no assets or liabilities that are recorded at fair value on a non-recurring basis.

### 4. Policyholders' Surplus (continued)

had identified \$27,929,000 (\$30,948,000 as of December 31, 2016) for subscriber savings accounts. Of this amount, \$1,450,000 in 2017 and \$1,660,000 in 2016 was reported as a liability for amounts due to terminated policyholders. The remaining \$27,929,000 in 2017 and \$29,288,000 in 2016 was reported as policyholders' surplus-unassigned funds. The subscriber savings account balances are paid to the subscribers in the calendar year following their termination from the Exchange.

On January 1, 2005, the subscriber savings account of Spectrum Health in the amount of \$5,059,908 was converted to a surplus note with no stated maturity, paying interest per annum (4.75% during the year ended December 31, 2016). In 2016, the Exchange repaid the remaining surplus note of \$1,000,000 and related interest to Spectrum Health with the approval of DIFS.

### 5. Losses and Loss Adjustment Expenses

Reserves for incurred losses and loss adjustment expenses (LAE) attributable to insured events of prior years have decreased by approximately \$105,000 in 2017 and \$2,626,000 in 2016, as a result of re-estimation of unpaid losses and LAE. This decrease is generally the result of ongoing analysis of recent loss development trends.

Original estimates are increased or decreased as additional information becomes known regarding individual claims. There were no significant changes in methodologies and assumptions used in calculating the liability for unpaid loss and loss adjustment expenses.

Activity in the liability for losses and loss adjustment expenses is summarized as follows for the years ended December 31:

**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

**C. Accounting Policy**

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business. Expenses incurred in connection with acquiring new insurance business are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific method. Non-investment grade bonds are stated at the lower of amortized value or fair value.
- (3) Common stocks are stated at market.
- (4) Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32.
- (5) Mortgage loans on real estate: not applicable.
- (6) Loan-backed securities are stated at amortized value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, that are valued using the prospective method. Noninvestment grade loan-backed securities are stated at the lower of amortized value or fair value.
- (7) The Company carries its investment in PRCD Holdings LLC and its subsidiaries as an admitted asset using U.S. GAAP equity method.
- (8) The Company does not have any investments in joint ventures or partnerships.
- (9) The Company does not hold any derivatives.
- (10) The Company anticipates investment income as a factor in premium deficiency calculations, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The company has not modified its capitalization policy from the prior period.
- (13) The company does not anticipate any pharmaceutical rebate receivables.

  - (1) For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.
  - (2) The Company did not recognize other-than-temporary impairments for loan-backed securities recorded during the current year because the Company had neither the intent to sell the securities or the inability or lack of intent to retain.
  - (3) Recognized OTTI securities: The Company did not recognize other-than-temporary impairments for loan-backed securities recorded during the current year because the present value of cash flows expected to be collected is less than the amortized cost basis of the securities.

**NOTES TO FINANCIAL STATEMENTS**

(4) Inputs and Techniques Used for Level 3 and Level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because either quoted market prices for similar instruments in an inactive market were utilized or quoted market prices for similar instruments in an active market were utilized via matrix pricing. Matrix pricing takes quoted prices of bonds with similar features and applies analytic methods to determine the fair value of bonds held. Bonds carried at fair value categorized as Level 3 were valued using an income approach. These valuations were determined to be Level 3 valuations as the price was based on unobservable market data because the bonds are trading in an inactive market. The bonds were valued using present value techniques. In 2017, no bonds were categorized as Level 3. Preferred stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because quoted market prices for similar instruments in an active market were utilized via matrix pricing as described above. Common stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because quoted market prices for identical instruments trading in an inactive market were utilized. When an equity instrument is illiquid due to limited trading activity, the use of quoted market prices for identical instruments was determined by the Company to be the most reliable method to determine fair value.

## Report of Independent Auditors

Board of Directors  
Michigan Professional Insurance Exchange  
Grand Rapids, Michigan

We have audited the accompanying statutory basis financial statements of Michigan Professional Insurance Exchange (Exchange), which comprise the statutory statements of admitted assets, liabilities, and policyholders' surplus as of December 31, 2018 and 2017, and the related statutory statements of operations, changes in policyholders' surplus, and cash flows for the years then ended, and the related notes to the statutory basis financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these statutory basis financial statements in accordance with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services, which practices differ from accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these statutory basis financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory basis financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory basis financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory basis financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statutory basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory basis financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in Note 1 to the statutory basis financial statements, the statutory basis financial statements are prepared by the Exchange on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services, practices of which differ from accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the statutory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**Adverse Opinion on U.S. Generally Accepted Accounting Principles**

In our opinion, because of the effects of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Exchange as of December 31, 2018 and 2017, or the changes in financial position or cash flows thereof for the years then ended.

**Opinion on Regulatory Basis of Accounting**

In our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of the Exchange as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the years then ended, in accordance with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services.

### **1. Organization and Significant Accounting Policies**

Michigan Professional Insurance Exchange (Exchange), a reciprocal insurance exchange, was issued a final certificate of authority to conduct operations on October 1, 1988. The purpose of the Exchange is to provide medical professional liability and general liability insurance to certain hospitals and physicians. There were nine healthcare systems or facilities that had policies or agreements with the Exchange during the year ended December 31, 2018 and eight during the year ended December 31, 2017. As more fully described in Note 9, the Exchange has a deposit premium agreement with Spectrum Health Hospitals.

The eligible subscribers of the Exchange are limited to certain hospitals and physicians as specified in the Bylaws of the Exchange. The Exchange prefers to write policies for both the hospital organization and its associated medical staff. The Exchange's Board of Directors can approve or revoke eligibility for any physician licensed to practice in Michigan. See Note 8 for a discussion of reinsurance arrangements.

The Exchange has no employees and contracts with a related entity, Michigan Professional Exchange Services (MPES), for its staff, building space, fidelity bond coverage, equipment, supplies, and other administrative costs. MPES leases employees from PRCD Holdings LLC. The Exchange uses the services of 34 employees.

On May 1, 2017, the Exchange formed a downstream noninsurance holding company, PRCD Holdings, LLC (PRCD) to invest in diversified services and partnerships. PRCD leases employees to MPES, the attorney-in-fact for the holding company, and to other subsidiaries of PRCD. On July 1, 2017, PRCD formed a wholly owned subsidiary, MPIE Consulting LLC (MCON), which provides claims and risk management services. On August 15, 2018, PRCD formed another wholly owned subsidiary, Alliance Innovations LLC (ALIN), which invests in subsidiaries with partner companies.

### **Basis of Presentation**

The financial statements are presented on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services and the National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures manual (NAIC SAP). The Michigan prescribed and permitted accounting practices used in preparation of the accompanying financial statements did not differ from NAIC SAP. NAIC SAP practices and presentation vary in some respects from accounting principles generally accepted in the United

States of America (U.S. GAAP). The more significant variances between NAIC SAP and U.S. GAAP are as follows:

Bonds are reported at amortized cost rather than reporting certain bonds at fair value.

Redeemable preferred stock is reported at the lower of cost or amortized cost rather than reporting at fair value.

Unpaid losses, loss adjustment expenses, and unearned premiums are presented net of reinsurance in accordance with NAIC SAP.

Investments in the Exchange's unaudited downstream subsidiaries are nonadmitted assets. Under U.S. GAAP, such investments would be consolidated with the accounts and operations of the Exchange.

Certain assets designated as nonadmitted assets are excluded from the statutory statement of admitted assets, liabilities, and policyholders' surplus and the changes in such assets are credited or charged directly to unassigned surplus. These assets primarily consist of uncollected premiums and aggregate write-ins for other-than-invested assets. It also included unaudited downstream subsidiaries in 2017.

Deferred tax assets and liabilities are determined in a manner similar to U.S. GAAP; however, additional criteria are then applied to those assets that may require certain amounts to be nonadmitted. The change in net deferred tax assets is recorded as a change in policyholders' surplus. Under U.S. GAAP, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years and a valuation allowance is established for deferred tax assets not realizable.

The statements of cash flow differ in certain respects from the presentation required by U.S. GAAP.

Realized gains or losses are recorded net of tax in the statements of income. Under U.S. GAAP, the tax associated with realized gains or losses is recorded as an income tax expense or benefit.

The effects of the foregoing variances from U.S. GAAP on the Exchange's statutory-basis financial statement have not been determined, but are presumed to be material.

#### **Fair Value Measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Exchange uses various methods including market, income, and cost approaches. Based on these approaches, the Exchange often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and of the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Exchange utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Exchange is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In determining the appropriate levels, the Exchange performs a detailed analysis of the assets and liabilities that are subject to the authoritative guidance. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

For the years ended December 31, 2018 and 2017, the application of valuation techniques applied to similar assets and liabilities has been consistent.

**Investments**

Cash and short-term investments include cash, cash equivalents, money market funds, corporate notes, and certificates of deposit with initial terms of less than one year. Short-term investments are stated at cost.

Fixed maturities (bonds) with an NAIC designation of one or two are reported at amortized cost using the scientific method. Fixed maturities with an NAIC designation of three or greater are carried at the lower of amortized cost or fair value. The Exchange held 28 such securities as of December 31, 2018 and 32 such securities as of December 31, 2017. The Exchange has the ability and intent to hold these investments until maturity.

The Exchange's management continually monitors investments for impairment that is other than temporary. Management takes into account industry analyst reports, sector credit ratings, volatility of the security's market price, and/or any other information that management considers relevant in determining if the impairment is an other-than-temporary impairment (OTTI). If management determines that an investment is OTTI, the investment would be written down at that time. There were no write downs on OTTI securities during 2018 or 2017.

The Exchange has elected to use book value of loan-backed securities as the cost for applying the retroactive adjustment method to securities purchased before that date. Prepayment assumptions for single class and multi-class mortgage-backed/asset-backed securities were obtained from broker dealer survey values or internal estimates.

Common stock equity securities represent investments in four mutual funds and the Federal Home Loan Bank (FHLB) of Indianapolis, and are reported at fair value. Realized gains and losses were calculated using the specific identification method. Unrealized gains and losses are recorded in unappropriated surplus, net of deferred income tax.

Preferred stock equity securities are investments in bonds with certain characteristics that require reporting as preferred stocks in accordance with the NAIC Valuation of Securities Manual.

**Premium Revenue and Unearned Premiums**

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. In addition, unearned premiums include death, disability, and retirement (DDR) reserves for tail coverage for

independent practitioners with claims-made coverage. Such reserves are computed by prorata methods for direct business. The Exchange anticipates investment income as a factor in premium deficiency calculations. The results of this calculation did not indicate a premium deficiency reserve at December 31, 2018 or 2017.

#### **Losses and Loss Adjustment Expenses**

The reserves for unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience of the Exchange and other relevant Michigan professional insurance company liability data, for losses incurred but not reported.

The estimated liability is continually reviewed and any adjustments which become necessary are included in operations. In the opinion of the Exchange, the reserves for unpaid losses and loss adjustment expenses are reasonable to cover the ultimate net cost of losses and loss adjustment expenses. However, because the reserve determination involves predictions of the timing and amount of future claim payments, the ultimate settlement of losses and the related loss adjustment expenses may vary significantly from the estimated amounts included in the accompanying financial statements. Loss and loss adjustment expenses are charged to income as incurred.

#### **Federal Income Taxes**

The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases based on enacting laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income, with certain limitations.

On December 22, 2017, the President of the United States signed a tax bill which reduced the corporate income tax rate from 34 percent to 21 percent effective for tax years beginning on or after January 1, 2018. As a result, the Exchange's deferred tax assets and liabilities were remeasured for the effects of the tax rate change on the date the law was enacted.

**Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

**Concentrations, Risks, and Uncertainties**

Financial instruments, which potentially subject the Exchange to concentrations of credit risk, consist principally of cash and investments.

**Subsequent Events**

Management has evaluated subsequent events through May 29, 2019, which is the date the financial statements were available to be issued.

**2. Investments**

**Investment in PRCD Holdings, LLC**

As described in Note 1, the Exchange formed a downstream noninsurance holding company, PRCD Holdings, LLC, on May 1, 2017. PRCD's December 31, 2018 consolidated financial statements were audited and therefore the Exchange has recorded their investment in PRCD as an admitted asset on the statutory statement of admitted assets, liabilities, and policyholders' surplus as of December 31, 2018. The difference between the Exchange's initial investment in PRCD of \$1,000,000 and the December 31, 2018 value of \$1,198,865 is PRCD's preliminary net income before adjustments for the year ended December 31, 2018. Since PRCD was not audited for the year ended December 31, 2017, the investment was nonadmitted for 2017.

Management believes that the unrealized losses indicated previously are temporary based on management's review for both 2018 and 2017. The unrealized losses for corporate securities and mortgage-backed securities are considered temporary based on management's intent and ability to hold to maturity and the security rating of the individual securities included.

The amortized cost and fair value of debt securities, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

#### Fair Value Measurements

The Exchange utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Common stocks and debt securities with NAIC designations higher than two are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss and liquidity assumptions. The Exchange has no assets or liabilities that are recorded at fair value on a non-recurring basis.

Disbursements of amounts allocated in the subscriber savings accounts require approval of the Exchange's Board of Directors. As of December 31, 2018, the Exchange had identified \$28,994,000 (\$27,929,000 as of December 31, 2017) for subscriber savings accounts. Of this amount, \$950,000 in 2018 and \$1,450,000 in 2017 was reported as a liability for amounts due to terminated policyholders. The remaining \$28,044,000 in 2018 and \$26,479,000 in 2017 was reported as part of policyholders' surplus-unassigned funds. The subscriber savings account balances are paid to the subscribers in the calendar year following their termination from the Exchange.

### 5. Losses and Loss Adjustment Expenses

Reserves for incurred losses and loss adjustment expenses (LAE) attributable to insured events of prior years have decreased by approximately \$6,712,000 in 2018 and \$105,000 in 2017, as a result of re-estimation of unpaid losses and LAE. This decrease is generally the result of ongoing analysis of recent loss development trends.

Original estimates are increased or decreased as additional information becomes known regarding individual claims. There were no significant changes in methodologies and assumptions used in calculating the liability for unpaid loss and loss adjustment expenses.

Activity in the liability for losses and loss adjustment expenses is summarized as follows for the years ended December 31:

#### 6. Federal Income Taxes (continued)

During 2018, the Exchange recorded an increase to deferred tax assets of \$548,004 representing the additional discount on reserves as of January 1, 2018 based on the provisions of the TCJA. The change to reserves, or the “transition adjustment,” of \$548,004 was also recorded as an increase to deferred tax liabilities as of January 1, 2018 representing the tax due over eight years starting in 2018. These adjustments had no impact on the opening net deferred tax asset. During 2018, one-eighth of the deferred tax liability associated with the transition adjustment was reduced due to one-eighth of the transition adjustment being currently taxable in 2018, resulting in a balance as of December 31, 2018 of \$479,503.

The provision for federal income taxes incurred, including the change in net deferred income taxes, is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes.
