Greetings,

Please oppose the use of this secretive, non transparent database, concocted and paid for by the insurance companies to scam their way out of paying the benefits that your constituents paid for in their premiums.

We are already seeing insurance companies take advantage of this provision to profit twice from their own customers.

Please support fair treatment and rule against using this scam tactics by the insurance companies and supported by corrupt politicians who support insurance company profits over Washingtonians fair treatment as consumers!!

Shame on all of them!

Sincerely  
Evan Ginsberg  
Lake Tapps WA
