I am in full support of the new proposed changes to WAC 284-30-300 through 400. I represent people that need to be protected by the unfair insurance practices. Consumers diligently pay their insurance premiums in exchange for peace of mind should they sustain damages. The insurance companies should be there for them in the time of need as promised. We need to set strict guidelines for the insurance companies to follow for the benefit of their insureds and society as a whole.

Sincerely,

Ray Brooks
