Subject: R2025-05 First Prepublication Draft Comment.

External Email

Dear OIC,

This email addresses the proposed pay reduction for MVC and its potential impact on our ability to provide optimal patient care. Reduced pay could lead to decreased morale and a compromised ability to meet the demands of patient care. We believe that a thorough review of the financial situation, exploring alternative cost-saving measures, is necessary before considering any action that directly impacts employee compensation and, consequently, patient well-being.

Sincerely,
Baylie Northrup
Chiropractic Student Intern
