Lesson 1—Medicare Advantage (MA) Plan Overview

- What’s a Medicare Advantage (MA) Plan?
- What are the types of MA Plans?
- How do MA Plans work?
- When can you join or switch plans?
What are Medicare Advantage (MA) Plans?

- Offered by Medicare–approved private companies
  - Must follow Medicare rules
  - Another way to get Medicare coverage
  - Your Part A and Part B coverage is from the MA Plan

- In most cases you have to use healthcare providers in the plan’s network
  - Some plans offer out-of-network coverage

- You can’t enroll in (and don’t need) a Medicare Supplement Insurance (Medigap) policy while you’re in an MA Plan
| Can you get your health care from any doctor or hospital? | No. You generally must get your care and services from doctors, other health care providers, or hospitals in the plan’s network (except emergency care, out-of-area urgent care, or out-of-area dialysis). In some plans, you may be able to go out-of-network for certain services, usually for a higher cost. This is called an HMO with a point-of-service option in certain geographic areas. |
| Are prescription drugs covered? | In most cases, yes. Ask the plan. If you want Medicare drug coverage, you must join an HMO plan that offers prescription drug coverage. |
| Do you need to choose a primary care doctor? | In most cases, yes. |
| Do you need a referral to see a specialist? | In most cases, yes. Certain services, like yearly screening mammograms, don’t require a referral. |
| What else do you need to know about this type of plan? | ▪ If your doctor or other health care provider leaves the plan, your plan will notify you and you can choose another plan doctor.  
▪ If you get health care outside the plan’s network, you may have to pay the full cost.  
▪ It’s important that you follow the plan rules. For example, the plan may require prior approval for certain services. |

What else do you need to know about this type of plan?

- SNPs must limit plan membership to people in one of the following groups:
  1. Institutional SNP (I-SNP): Those living in certain institutions (like a nursing home), or who require nursing facility-level of care at home
  2. Dual Eligible SNP (D-SNP): Those eligible for both Medicare and Medicaid
  3. Chronic Condition SNP (C-SNP): Those with specific chronic or disabling conditions

- Plans may further limit enrollment based on rules for the specific type of SNP
- Plans should coordinate your needed services and providers
- Plans should make sure that providers you use accept Medicaid if you have Medicare and Medicaid
- Plans should make sure that the plan’s providers serve people where you live, if you live in an institution
How do Medicare Advantage (MA) Plans work?

- In an MA Plan you
  - Are still in Medicare with all rights and protections
  - Still get those services covered by Part A and Part B but the MA Plan covers those services
  - May choose a plan that includes prescription drug coverage
  - Can be charged different out-of-pocket costs
  - Can’t be charged more than Original Medicare for certain services, like chemotherapy, dialysis, and skilled nursing facility care
  - May choose a plan with extra benefits like vision, dental or fitness and wellness benefits
  - Have a yearly limit on your out-of-pocket costs
Medicare Advantage (MA) Plan Costs

- You still pay the standard Part B premium
  - A few plans may pay all or part for you
  - State assistance is available for some
- You may pay an additional monthly premium to the plan

  - Different from Original Medicare
  - Vary from plan to plan
  - May be higher if out-of-network
